BIDEN'S AND OBAMA'S POLITICAL CYBER-KILLERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

THE MEDIA ASSASSINS: POLITICAL KILL ORDERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS

— How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches.

— Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers.

– How and why did a Donald Trump stripper-date named “Stormy” or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

– In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people’s lives in other creative ways.

— It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a “kill order” on an opponent. – The client does not like to get their hands dirty so the actual social hit job is performed by companies such as: IN-Q-Tel – (DNC); Gawker Media – (DNC); Jalopnik – (DNC); Gizmodo Media – (DNC); K2 Intelligence – (DNC); WikiStrat – (DNC); Podesta Group – (DNC); Fusion GPS – (DNC/GOP); Google – (DNC); YouTube – (DNC); Alphabet – (DNC); Facebook – (DNC); Twitter – (DNC); Think Progress – (DNC); Media Matters – (DNC); Black Cube – (DNC); Mossad – (DNC); Correct The Record – (DNC); Sand Line – (DNC/GOP); Blackwater – (DNC/GOP); Undercover Global Ltd (DNC/GOP) Stratfor – (DNC/GOP); ShareBlue – (DNC); Wikileaks (DNC/GOP); Cambridge Analytica – (DNC/GOP); Sid Blumenthal- (DNC); David Brock – (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling – (DNC), Buzzfeed – (DNC) Perkins Coie – (DNC); Wilson Sonsini – (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

– These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business.

— These attack services are responsible for 90% of the “Fake News” problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal! – These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

– In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN’s Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

– This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running “Operation Echo Chamber,” which reportedly continues, in which he fed information to willing corporate media scribes. “They literally know nothing,” Rhodes said of the twentysomething journalists he easily manipulated.

— The Freedom of the Press Foundation’s Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

– Timm writes: “Today, we are revealing—for the first time—the Justice Department’s rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University.”

– Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump’s team, as evidenced by Peter Strzok and Lisa Page’s texts confirming that Obama was overseeing their fly-by-night operation.

– Larry Schweikart reported for Big League Politics: For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government.

— Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI. This is what President Trump calls “SPYGATE”. – It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here’s the kicker: President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the “Electronic Surveillance Authorization” () “Foreign intelligence in relation to a US person (Trump or his associates) is information that’s necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S.” Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. (“The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.”)

– In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC.

– This is what they are hiding. – However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

– These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies: – Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for

projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies.

--- By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities.

If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target.

--- If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost".

--- Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups.

- Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Stry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case.

--- Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. - On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world.

--- This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions. - Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

--- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.

--- Over 50,000 trolls, shells, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon.

--- It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head".

--- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in.

--- Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

--- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject. - Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you.?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.

--- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set.

--- This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago.

Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life.

--- Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

- Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.

– There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services.

— The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these “kill orders”.

— A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. – Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the “FISA Memo”, Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as “hit-jobs” against domestic natural born U.S. citizen domestic taxpayers.

— The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert, Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payola and hit-job attacks on third parties.

— There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

— So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

The Sick Sociopaths At Gawker, Jalopnik, Gizmodo And The Other Denton Defamation-For-Hire Fusion GPS Clones

By Arron Lee

The predominantly homosexual staff of these publications are not only hired because they love a wiener in the butt but because they exhibit one, or another, of a common set of mental illnesses. The mind virus types most favored by the owner: Nick Denton, are: subservience, lack-of-impulse control, bad decision-making based on anger issues, infantile perception limits and previous angst issues from abusive childhoods. Their job is to take all of the rage they harbor and aim it at the next political target that Denton is hired to kill.

Nick Denton sells his soul to the DNC, The Obama White House, Elon Musk, The Google Bosses and that sort of extremist oligarch kind of crazy power-hungry client.

To move high up into the vast number of facade “brands” that Denton has created, you have to spread your morals (and sometimes your butt cheeks) at bit.

Gawker was killed for it's crimes, has tried to revive itself and will be killed again, same for Gizmodo. This tabloid cesspool of character assassins thinks that their brand names have “value”. The only value they have is to be known as **“The Anus Of The Internet”** for all of time.

Because the hired hit-jobs on Hulk Hogan, Sean Parker, Sandy Montenegro, Sarah Palin, and hundreds of others, were so vicious, malicious and awful; Nick Denton now has a number people who would be delighted to put an ice pick through his skull.

While many have *memed* pictures of Nick Denton as “The Face Of AIDS”; he does not seem to be dying quick enough for most of his victims.

It has been clearly reported in the news that Denton survives on a combination of Russian mobster cash, Money from EBAY's Pierre Omidyar and ad sales from totally fake contrived ad metrics.

Google/YouTube and the Denton tabloids are political, business and sexual partners in all of this. They cross-mingle staff, flings, cash and server targeting for the same goals. Gawker/Gizmodo/Jalopnik publishes the attack articles and Google locks them on the top line, of every Google site, forever, around the globe, in front of every person on the internet.

Gawker and Gizmodo Media, Along With Jalopnik, Are Terrorist Organizations

By Danny- A Former Gawker Employee

Nick Denton and the DNC run **Weapons of Mass Brand Destruction.**

They feign a facade of “being reporters” and sprinkle some generic articles around their swamp of tabloids in order to keep up appearances.

The sole purpose of Gawker, Gizmodo, Jezebel, Valleywag, Jalopnik and the horde of other fake magazines that they created, is to be on stand-by for assigned political character assassinations.

Russian spies created the concept of “the long game pretext”. As the TV show, **“The Americans”** details, a good scam takes ten to twenty years to properly stage. Gawker, Gizmodo, Jezebel, Valleywag, Jalopnik, etc. are a Fusion GPS-class spy game pretext that was created long ago to allow it to simmer on the pot.

The pot that Gawker-Gizmodo was designed to simmer on was the toilet bowl of tabloid journalism. The DNC and Silicon Valley campaign riggers wanted the dirtiest, scummiest outlet that nobody would question. They succeeded with glory in Gawker-Gizmodo.

Mentally ill gay Millennial kids, that could not get into college, were pulled in as worker-bees based on how much they hated society and how sexually abused by Uncle Fred they appeared to be. They were told: “Here’s a keyboard, spew all of your hate and rage and Nick Denton will pick the worst of it to publish”

Denton, of course, only picked the things that maliciously damaged those who got in the way of the DNC’s crony corruption schemes.

Denton uses every trick in the book to hide behind fluffy legal protections that appear to be the most extreme rationalizations in history. Denton is, himself, a sexually perverted denizen of the dark world of bizarre pizza and angry young boys who throw bricks through his window. This allows him to find synergy with the twisted perverts that he hires.

Gawker-Gizmodo kills people. They violate the Justice Department laws on Terror.

Gawker-Gizmodo has caused a number of innocent people to commit suicide by their actions. Gawker-Gizmodo works with Google and Amazon’s servers to spread hate, defamation, character assassination and brand destruction around the globe and lock it on the internet, forever, in front of eight billion people. They end of the life of everyone that Gawker-Gizmodo targets.

Hulk Hogan and the other victims have probably thought about killing everyone at Gawker-Gizmodo. They certainly want to. Killing people is somewhat illegal in the USA, so Hulk erred on the side of his talent agency and chose the court-room instead. Hulk got lucky in finding the deep pockets of Peter Thiel. None of the other victims got that resource.

Gawker did not get shut down. It is fully operational and spewing vile web posts around the world. Gawker, Gizmodo, Jezebel, Valleywag, Jalopnik are all the same thing; the same people; the same pretext.

The Justice Department should arrest Gawker, Gizmodo, Jezebel, Valleywag, Jalopnik, etc. for terrorism, tax evasion, money laundering, campaign finance fraud, sexual extortion and a host of other issues but they won’t because James Comey, *AndrewMcCabe*, *Peter Strzok*, *David Oh* and all of those other *FBI-DOJ* folks work for the *DNC*.

Until there is an entirely new Department of Justice, social crimes like Gawker-Gizmodo will go un-addressed and bring society closer to crumbling. As long as the public see that criminal organizations like Gawker-Gizmodo will be allowed to freely engage in their crimes and corruptions, there can be no hope for the taxpayers.

GAWKER MEDIA STAFF HAVE “LIFE-LONG INVESTIGATIONS” ON THEM FOR THEIR ATTACKS AND CORRUPTION!

Gawker, Google, Univision, Valleywag, Jalopnik, Gizmodo, etc. are all the same people running the same life-long character assassination programs against political "enemies". Payback is a bitch, though...

While Hulk Hogan walked away with a jury award of \$140M+, and others walked away with nearly a million in damages payments, many of those most damaged by Gawkers attacks have not seen a dime in compensation. Gawker's DNC-biased New York bankruptcy court was helping Gawker skip out of obligations.

Hulk Hogan was 'humanized' by Gawker lawsuit

- [By Celebretainment](#)

Hulk Hogan felt "humanized" after winning his invasion of privacy lawsuit against Gawker in 2016, according to his daughter Brooke Hogan.

The 63-year-old wrestling legend was awarded \$115 million in March 2016 after he successfully sued Gawker Media for defamation, loss of privacy, and emotional pain for the company's decision in 2012 to post a clip online of a secretly recorded sex tape featuring Hulk and Heather Clem, the ex-wife of his former pal radio personality Bubba the Love Sponge.

During the legal process, Hulk's reputation was damaged when a transcript of audio from the tape was released featuring him using the 'N-word' whilst discussing a now-former boyfriend of Brooke's and he was released from his contract with WWE.

The 'Rocky III' held himself accountable for using the inappropriate language and made a public apology for saying that word back in 2007 when the tape was made, a period in Hulk's life when he had been suffering from depression in the wake of his wife Linda Hogan filing for divorce and had contemplated suicide.

Brooke, 28, admits the ordeal was very tough on her father but the case allowed the public to learn more about the situation her dad was in.

She shared: "It was very tough on him. It was very sad to see him so screwed up because I know none of us are perfect."

In the midst of the legal case, the blonde beauty reassured her father that he had earned the trust of his loyal fans after years in the spotlight, and the sex tape was not going to permanently taint his reputation.

Brooke told The Hollywood Reporter: "I said, 'Dad, no matter how crazy the press is, the public and your fans, they're not stupid. They know your heart and who you are.'"

And while Brooke has refused to specifically discuss her father's ultimate settlement with Gawker - which is rumoured to be worth \$31 million - she insisted he "persevered, and always took the high road and was accountable, and I respect and honour him for that".

More recently, Hulk - whose real name is Terry Bollea - has turned his attention towards Brooke's burgeoning TV career, which has seen her become the host of the reality TV series 'The Fashion Hero'.

The Canadian produced series is currently being shopped to international buyers and the wrestling legend has even asked to be a contestant on her show.

Brooke revealed: "I said, 'Dad, you can't model,' even though he could as he models his own T-shirts. But that's enough."

But Brooke admitted her father's positive outlook has been a huge help to her throughout her life - especially during her difficult teenage years.

She explained: "I'm Italian. Most of my family is severely over-weight. It's been taxing to keep my weight under control. I also had really bad skin and I wasn't popular.

"He [Hulk] was always a horse of a different colour. He was tanned and blond and from Venice Beach. And people assumed he was a big, loud, screaming monster. But the cool thing is he used his platform for good. He knew he was impacting impressionable minds. So he told young kids to train, say your prayers and eat your vitamins."

Proving That Gawker's Partner: Google, Does Operate Contracts and "Hit-Jobs", Google De-List's InfoWars from Its Search Index in Reprisal Move

InfoWars articles must be rated "Low to Medium."

Google has hired contractors to remove or limit Alex Jones' website Infowars.com from its search engines. According to a search engine evaluator for Google, all contractors have been instructed to actively rate InfoWars as a low quality and untrusted site.

This email was sent out to all contractors.

It's useful to then explore what a rather poor site may look like and how to analyze the landing page it presents. And so, we look today to Info Wars.

The instructions to the contractors provide:

- InfoWars is not an "outright false" website and is not "among the worst of the worst."
- "There are a number of controversial, often debunked claims that the site regularly promotes."
- InfoWars articles must be rated "Low to Medium."

Things to note...

- This is a news article from Infowars. In considering the quality of any article, you should be mindful of where that article comes from. What reputation does it have, and how might that reputation affect its day-to-day coverage?
- To be clear, the page isn't an outright false story like some of the more infamous websites, so we're not going to consider it among the worst of the worst in that regard.

- To be clear, the page isn't an outright false story like some of the more infamous websites, so we're not going to consider it among the worst of the worst in that regard.

Infowars is a site run by Alex Jones, whom you can [read all about here](#). There are a number of controversial, often debunked claims that the site regularly promotes. How should we handle this when rating for PG?

Acceptable Range ([click for image](#) or **highlight to reveal**): **Low to Medium**

Feedback:

Given the poor reputation and conspiratorial bent of the website, a lower rating is more appropriate. Users have a reasonable expectation that news websites they visit report verifiable facts and Infowars.com teeters fairly recklessly into sensationalist territory at the expense of expertise and reporting with the accountability of a professional news organization.

The Guidelines have [this to say](#) on the subject of reputation:

Important: Negative reputation is sufficient reason to give a page a Low quality rating. Evidence of truly malicious or fraudulent behavior warrants the **Lowest** rating.

Is there evidence of fraud, or malicious behavior? Even if the article represents a certain slant from a conspiracy-laden website, it would be hard to make that case. Simply presenting an unorthodox perspective on the news doesn't exactly qualify, even if it may be "harmful" in the larger, more elliptical sense of the term. You could say that we're being generous with the upper range here, but the site may be considered useful to some users looking for an alternative source of information redeems it in some small way.

Remember...

When looking for the quality of pages, you'll want to consider the reputation of an article and its penchant for sensationalism or unverified claims, if relevant.

Bonus Example: What about [this news article](#), which covers the same subject? We'd give it a rating of High to High+. While CNN isn't a perfect news outlet, it is a popular news source that covers the story with a depth and mostly straightforward reporting. There are clips of the interview with Assad and quotes from experts that help provide context that would be helpful to any user. To compare, the *Infowars* article is brief and only mentions statements from sources not really typical. Putin, former Congressman Ron Paul, and Assad himself, which seem to be making the same case here that bolsters the site's previously held perspectives, which cut against the grain, to say the least.

Remember that all news organizations that have existed long enough have courted their share of controversy and mistakes. What we're asking you to do here is to ensure that the line between reliability and outright negligence of facts is honored when you apply your best rating judgement.

GAWKER AND GIZMODO MEDIA HIT-JOB CASES CONFLICTED BY DNC JUDGE AND OBAMA-

CLINTON FINANCING

By Connors Lee

The Plaintiffs trying to seek justice for the malicious media character assassinations performed by the Democratic National Committee's attack tools: Gawker Media, Gizmodo Media, and Jalopnik have an extra hurdle to cross. The Judge in the case is a Hillary loving, DNC-backing person who has a tremendous conflict-of-interest in the case.

The law (and common sense) would seem to dictate that the Judge should have removed himself from all of the related cases long ago. This has not happened. The New York Judge is massively conflicted-out of the case and is staying on for the exclusive purpose of protecting the DNC by keeping as much of the case hidden as possible.

Gawker Media, Gizmodo Media, and Jalopnik are the Obama White House attack dogs from the John Podesta School of Revenge. Hillary Clinton and her army of Fake News devils also pay Gawker – Gizmodo – Jalopnik to run character assassinations on their enemies, as does Fusion GPS.

There can be no doubt, in fact it is common knowledge, that Gawker – Gizmodo – Jalopnik work for the DNC. The case evidence so far proves it. Judge Bernstein keeps sealing all of the documents in order to delay the eventual press revelations about who Gawker – Gizmodo – Jalopnik really are. DNC financiers Pierre Omidyar, Eric Schmidt and Elon Musk give cash and other remuneration to Gawker – Gizmodo – Jalopnik.

It is too late for that Judge Bernstein.

The public can read many of the gory details at <https://case.primeclerk.com/gawker/>

The really good stuff is sealed by the Judge but you can still see it if you go to the offices of Prime Clerk and request all of the sealed and off-line documents and transcripts from the case

(Go To Prime Clerk, 830 3rd Avenue, 9th Floor, NY, NY). By law they have to let you review it.

Law Firm E & E Legal has been winning some related cases in New York. Their lawsuits have proven that the top justice officials in New York, including the Attorney General, conspired with the DNC to rig "Climate Change" deals to pass cash off to their DNC buddies in an exotic green-funding money laundering scam.

Every person around Judge Bernstein has been implicated in rigging the justice system to cover-up DNC embezzlement and election rigging crimes. Why is Judge Bernstein "exempt"?

THE SCUM THAT GAWKER MEDIA, GIZMODO MEDIA AND JALOPNIK REALLY ARE. THEY ARE STRAIGHT FROM SATAN'S ANUS

GAWKER, GIZMODO AND JALOPNIK SELL HIT-JOBS TO OBAMA, HILLARY, LARRY PAGE AND ELON MUSK. PERIOD. EVERYTHING ELSE THEY DO IS A COVER STORY TO PLACE THE HIT-JOBS AMONG!

According to the web:

"... then you have Gawker, which has been, to put it charitably, inconsistent in the way it defines what is and isn't newsworthy... "abuses of power and hypocrisy" - Founding Editor of Gawker

"...Some of them are lazy and it's always easier as a journalist to write the glowing lightweight story, where no one's going to press you to nail down the facts and you won't get any blowback from sources or subjects..." - Founding Editor of Gawker

AND THE PUBLIC REPLIES:

-
- [David K.](#) •

So if someone like Hogan can't afford to fight back against Gawkers egregious and un-journalistic behavior they should just suck it up in the name of "freedom of the press"? Gawker has broken laws and acted in a despicable and capricious manner for years, that they are finally being held accountable in part thanks to someone whom they have harmed in the past with their complete and utter lack of journalistic ethics should be celebrated not critiqued. These morally bankrupt cowards have hidden behind the 1st Amendment to peddle their crap and inflict harm on real people to line their pockets, not out of any sense of journalistic desire. While individual Gawker staff members may be genuinely interested in journalism, its clear to anyone paying attention that the organization itself is not. Abuses like the ones Gawker properties routinely make do harm to genuine journalism and if they fold because of this or other lawsuits the world is better for it.

Thiel could had thrown trillions at that lawsuit and it still wouldn't have changed anything on its own. The court decided, based on the evidence and the arguments presented, that Gawker broke the law.

Thiel didn't bribe the judge and the jury, he funded legal fees for the victim. The court could have just as easily made that investment null and void by ruling that Gawker had committed no crime.

This was a case where financial costs and lawyerly skill were taken out of the equation, leaving behind only the truth. And, according to the judge and jury, that truth was worth \$140 million in damages.

Also, I wouldn't worry as an entrepreneur, because getting outed as gay in an elite environment can easily cause substantial financial losses. People still don't realize how bigoted people at the top can be, even with Trump running for President.

This was no "slight misunderstanding," it was character assassination. I think most people should feel pretty safe doing business with him; I bet some of them are even eager to, given he helped take down a company that peddled sh*t-dripping garbage half the time.

I realize blogs are supposed to be discursive stream-of-thought ramblings, but there are some real problems here, most notably that this has anything to do with Thiel wanting revenge because of scars left from being outed.

Everyone comes out at his or her timetable. Thiel came of age when the Valley was even far more dominated by a "revenge of the nerds" frat-boys-gone-wild culture. While he wouldn't have become a pariah if he were out at that time, as with many situations gay men find themselves in, he believed he would have felt uncomfortable, an outsider.

I have little doubt he would have had a "soft" self-outing (a la Cook) within a few years. His wealth, situation and liberal environment made his forced outing probably no more wrenching than anyone would who had a personal secret publicly revealed.

What the incident did do was set his laser-like sites on Gawker on (in his opinion) Gawker's inherent malevolence. In the last several years, it has become the most bottom-feeding of trash tabloids and TMZ-type sites. Whatever the well-reported or well-written stories (I never saw them), the editors became more and smug and cynical.

Funny you didn't mention their testimony, because it probably was what most influenced the jury's decision. People in St. Pete don't take kindly to sharp New Yorkers making fun of sex with 4-year-old girls.

Whatever one thinks about Thiel's bankrolling Hogan's case or his secretiveness in doing so (from anything I've ever read about this guy, that's his entire modus operandi in doing anything), his ultimate vindication came from the jury, which not only found for Hogan, but was so disgusted by Gawker that it exponentially increased the recommended penalty.

Of course it will be reduced on appeal, but one appeal has already been rejected. After that disgusting "outing" of a married Conde Nast CFO parent who may have hired a male escort once, Denton was forced to make a very public mea culpa and do some serious window dressing after advertisers fled — the only thing, ultimately, he cares about.

When Gawker goes down, like Rupert Murdoch's News of the World, it won't be because a billionaire was involved. It's because the site finally reached the point where the public, advertisers and the law said ;Basta!

All the hand-wringing over this case is hilarious.

All the money in the world would not have harmed Gawker in this case if they hadn't violated someone's rights. They were appropriately found responsible for their tortious conduct and were rightly punished proportionately for the damage done in a court of law, with rules of evidence and an open process.

Let's not pretend that Gawker is a real news organization. Let's also not pretend that the other digital journals freaking out about "this threat to an open press" have any interest in balanced reporting or confronting truly tough issues. On both those counts, they consistently fail miserably.

So to summarize, if a particular person has political viewpoints that you disagree with, he arbitrarily loses his privacy rights and deserves to have his life actively destroyed through illegal activities.

He or she should have no legal recourse, and should not be able to protect his own or other's privacy rights through American jurisprudence, but should instead be subject to the arbitrary and capricious invasion of their privacy because they oppose The Party.

ES: The bias in your article is overwhelming, it's insulting to suggest that your bias is limited with such lines as: "But this new situation disturbs me even without my connection to Gawker." You seem to be ok with compromising journalistic integrity as a "necessary" part of building a valuable news brand. That's appalling nonsense, a slippery slope and represents click-bait integrity; that's not journalism.

You've set out to downplay the damages Gawker Media made to Thiel and Bollea. However we can plainly see that the court found that significant damage had been done. This is not for you to speculate upon, a jury of your peers found the damage significant.

There is a valuable lesson here in understanding the allowances of "freedom", (such as freedom of press, freedom of speech and the like) these are not all access cards to malicious behaviour. Such lapses in editorial judgement are not part of being a journalist - you should know better and you should do better. (Especially for a self-titled "expert".)

Now might be the time to review your professional associations and look within to understand the difference it means to be a journalist, or a click-bait sewer pipe.

Indeed the side I'm on appears to be the side of the law, the side of the jury and indeed the side of a moral character who can distinguish the difference between "news" and trash designed to get web-clicks.

To me it seems that you fall on the side of "everything is news if it gets a click", yet too scared to actually state that - meanwhile there are actual journalists who will enter war zones to report "actual" news.

Tell you what Elizabeth: try and live with the specter of potentially having "journalists" camped outside your home shooting inside while you are engaged in intimate acts IN THE PRIVACY OF YOUR HOME...then tell us if you still find the behavior of Hogan and Thiel to be "unreasonable". Everything you have stated above is tenuous on the grounds that you would expect some degree of privacy once you step across the threshold into your sanctuary...or are you going to argue that journalists have free reign to your privacy and to think otherwise is censorship?

It's a money issue, Ms. Spiers.

To make more money, Gawker broke rules of journalistic integrity. To protect itself from being held accountable, it hired numerous lawyers to both: (1) ensure that the cost of suing Gawker would be in the tens of millions, and (2) ensure that losing a lawsuit against Gawker would cost further millions of dollars, by legally arguing that the lawsuit loser should pay Gawker's legal fees.

My favorite saying is, "Never try to convince someone of something when their salary requires them to not understand it."

But I believe you'll understand that Gawker's *POSSESSION* of all that money made it believe it could get away with horrible behavior. Thiel and Hulk Hogan just used their money, to remove Gawker's money. And I hope other media outlets will realize that a similar fate could happen to them.

The American public is smart enough to know the difference between "free media speech" coupled with good behavior, honesty, and a desire for truth and "free media speech" coupled with lies, manipulation, and the advancement of a pro-liberal agenda.

We accept the former, reject the latter - and classify Gawker as the latter.

Peter Thiel is absolutely NOT "abusing" the legal system. He funded a very legitimate lawsuit by an aggrieved party, who may not have had the money to fund it themselves. There is absolutely NOTHING wrong with that, regardless of his personal enjoyment. You have a claim if and when Thiel (or someone else) funds obviously frivolous suits against a media outlet that they don't like. This isn't one of those instances.

John Hermann of Gawker, Gizmodo and New York Times

John -

You really shouldn't have accepted that cash and that other "special compensation" from Obama's White House, Elon Musk and the DNC in exchange for attempting to character assassinate and "kill" people.

Here is what it has gotten you:

For the rest of your pathetic life you will be under surveillance. Nothing you do will not be documented. This surveillance of you has already been paid for, in advance. There is more than one Peter Thiel out here.

We are taking out every single person that you worked for so you can watch them drop like flies before we come for you.

Clearly, you have not fully considered the implications of our notoriously world famous "FUCK YOU" PLAN which was created decades ago for people exactly like YOU!

You are now going to experience the program under this Plan for the rest of your time on Earth and even into your historical legacy after you die.

It costs us between \$120,000.00 and \$1.2M to sue your pathetic ass into oblivion. Anybody can do that to a weasel such as you. That's the easy part of the Plan and it is only 2% of what will now happen to you.

Because you are a scumbag who has been accused, by reporters and tipsters, of very evil bribery, sex, drug, political, tax evasion, money hiding, misogyny, abuse and other things, many people might consider hiring an MS-13 street gang or a Russian drug Cartel to torture and kill you. We would never do that!

We find that our 100% legal FUCK YOU Plan is far more effective.

The Fuck You Plan will last for the rest of your life. We will never forget about what you did and we will never forgive you. (Unless, of course, you want to pay us at least ten million dollars for the legal, personal, economic, brand and related damages you cost us).

Next we are putting you in our, and others, special crime prevention databases. The databases have every piece of information about you that you ever created, ie: all of your addresses, account numbers, tax records, bank accounts, dating site records, phone numbers, fax numbers, IMEI device records, IP addresses, device serial numbers, every lover you cheated on, service calls, drug deals, hookers, rent boys, Uber and Lyft trip addresses, neighbors, GPS records, etc. All of this information is legally acquired. You put most of it out on the web yourself.

Face recognition is also sourcing up every image of you on security cameras, Walmart cameras, restaurant cameras, Google and Bing image databases, social networks, dating sites, traffic cameras, hotel and motel cameras and everything that has ever recorded your face; which is public domain. Everything you are connected to will be connected to you.

If you ever, *for the rest of your life*, cheat on taxes, take money off-the-books, lie on an application, get arrested, get sued, buy drugs, buy sex, cheat, hide money, use off-shore conduits, set-up an illicit trust fund or shell corporation, get an STD, lie on a dating site, abuse or extort an employee, abuse a co-worker, plagiarize, break the law, run a real estate scam, hide insider stock trading, provide political campaign services without filing detailed and accurate FEC disclosures, support a political campaign, spend or receive any money that you do not report,

There is no place on Earth you can hide from us. Our investigators and our friends in Congress, our journalist buddies, law enforcement and the intelligence community will never let you out of their sights!

We do not do creepy illicit things, like you do, so we have nothing to worry about. You have PLENTY to worry about.

You are, today, sitting at the edge of the same precipice that Richard Nixon, Bill Cosby, Harvey Weinstein and other scum sat at just before they slid down their filthy funnels straight to hell. Enjoy the ride!

- Cook to be under surveillance for life by his victims

GMG's John Cook in 2014. Youtube

Gizmodo Media Group's special projects executive editor, John Cook, is set to leave the company.

Cook will become the latest former top Gawker Media figure to exit in the year following Univision's acquisition of Gawker properties.

In a company-wide memo obtained by Business Insider, Cook said he would be leaving GMG on October 13.

Cook said he was envious of those who took time off following Gawker's loss to Hulk Hogan and subsequent bankruptcy.

"I've watched with envy in recent months as various friends — including the occasional former colleague — have taken some time away from the news grind to clear their heads and get their bearings," Cook wrote. "After the last year and a half — even with the distance we've been able to put between ourselves and the Troubles — I could still use some head-clearing."

He added: "I'm grateful that Univision and FMG are committed to the unit and to devoting resources to aggressive journalism."

The former executive editor of Gawker Media, Cook has overseen the special projects desk at GMG, which has focused on long-term investigative journalism.

Cook was one of the last major leadership figures [involved](#) in the Hogan trial who remained at GMG. Other top staffers like Heather Dietrick — the president of Gawker Media and then of GMG — left the company in the months after the sale.
