Mon, 30 Nov 2020 16:00:00, admin45789, [post\_tag: join-the-party-the-anti-corruption-party, category: news]

## - THE ANTI-CORRUPTION PARTY -

**YOU** are the "United States Government". As early as November 11, 1620, two opposing parties created an American body and signed a declaration of government which stated that the two groups (The "Pilgrims" and "the Strangers") shall work together for "...**better ordering, and preservation and furtherance of the ends aforesaid; and by virtue hereof to enact, constitute, and frame, such just and equal laws, ordinances, acts, constitutions, and offices, from time to time, as shall be thought most meet and convenient for the general good...**"

YOU hire politicians to protect YOU.  
YOU **EMPLOY** the politicians by paying taxes.  
YOU [do not work for the politicians](#): They Work For YOU!

### The Platform Of 'The Anti-Corruption Party' -

#### THESE ARE THE LAWS YOU NEED TO FORCE YOUR POLITICAL REPRESENTATIVES TO MAKE

These are the steps that the public must demand to strengthen public integrity by eliminating corrupt financial activities in Congress.

Congress must be ordered to eliminate both the appearance and the potential for financial conflicts of interest. Americans must be confident that actions taken by public officials are intended to serve the public, and not those officials. Your public officials are being paid **BRIBES** through their family stock market holdings. **CUT THEM OFF** - Demand that Congress make it a felony for any politician, judge or regulator to own stocks, or to let their family own stocks. If they want to get rich, they can go into another line of work.

If you can get these laws made, it will end 90% of American corruption. Politicians won't allow these laws to be made because it will cut off their corruption. Thus: You have to force the politicians to make these laws. Lobbying and lobby companies must be banned from operating under felony prosecution.

The ownership of stocks, now used to pay bribes, by politicians, and their families, must be banned under felony prosecution.

#### Our TO DO List:

- End political corruption in America by making any stock ownership by senators and political insiders illegal.
- Exterminate Google, Facebook, Tesla, Youtube and Netflix for their crimes, attacks on competitors, patent office (<http://www.usinventor.org>) and Senate bribes.
- File criminal referrals to federal law enforcement on each oligarch that hired Fusion GPS, Gawker, Black Cube, Amyntor, et al, to run "kill teams" against competitors and whistleblowers and produce public, CIA-quality, investigation dossiers on each one. Make it a felony for anyone to hire a "kill service", "character assassination service" or "oppo service"!
- Distribute the list of anti-corruption laws (see the VERY specific list, below), to every citizen. Each citizen must force the elected officials that work FOR them to adopt these laws.
- Update the Social Security system per: <https://socialsecurityworks.org> and <https://seniorsleague.org>
- Allow any parent to observe any classroom. Teach a standardized curriculum, to every student, nationwide, without bias.
- Outlaw any, and all lobbyists, from existing. Make lobbying a felony!
- Make the CBO report the value, or loss, of each Congressional Bill to each individual citizen, instead of to each lobbyists industrial group.
- Make it a felony for any fraternity or sorority house to exist because we now know that they breed the worst kinds of people and culture in the world.

The world, via citizen forensics, is part way through accomplishing every one of these goals. No ending is reached by accident.

These are the actions needed to resolve those issues:

- Ban individual stock ownership by Members of Congress, Cabinet Secretaries, senior congressional staff, federal judges, White House staff and other senior agency officials while in office. Prohibit all government officials from holding or trading stock where its value might be influenced by their agency, department, or actions.
- Apply conflict of interest laws to the President and Vice President through the Presidential Conflicts of Interest Act, which would require the President and the Vice President to place conflicted assets, including businesses, into a blind trust to be sold off.
- Require senior Department of Energy government officials, employees, contractors and White House staff to divest from privately-owned assets that could present conflicts, including large companies like Tesla, Google, Facebook, Sony, Netflix, etc., and commercial real estate.
- Make it a felony to not respond to a filing by a citizen within 48 hours. Former White House and Energy Department staff use 'stone-walling' to intentionally delay responses for a decade, or more.
- Apply ethics rules to all government employees, including unpaid White House staff and advisors.
- Require most executive branch employees to recuse from all issues that might financially benefit themselves or a previous employer or client from the preceding 4 years.
- Create conflict-free investment opportunities for federal officials with new investment accounts managed by the Federal Retirement Thrift Investment Board and conflict-free mutual funds.
- Close and lock the Revolving Door between industry and government and stop tech companies from buying influence in the government or profiting off of the public service of any

official.

- Lifetime ban on lobbying by Presidents, Vice Presidents, Members of Congress, federal judges, and Cabinet Secretaries; and, multi-year bans on all other federal employees from lobbying their former office, department, House of Congress, or agency after they leave government service until the end of the Administration, but at least for 2 years ( and at least 6 years for corporate lobbyists).
- Limit the ability of companies to buy influence through former government officials.
- Require income disclosures from former senior officials 4 years after federal employment.
- Prohibit companies from immediately hiring or paying any senior government official from an agency, department, or Congressional office recently lobbied by that company.
- Prohibit the world's largest companies, banks, and monopolies (measured by annual revenue or market capitalization) from hiring or paying any former senior government official for 4 years after they leave government service.
- Limit the ability of companies to buy influence through current government employees.
- Prohibit current lobbyists from taking government jobs for 2 years after lobbying; 6 years for corporate lobbyists. Public, written waivers where such hiring is in the national interest are allowed for non-corporate lobbyists only.
- Prohibit corporate outlaws like Google, Tesla, Facebook, LinkedIn, Netflix, Sony, etc., from working in government by banning the hiring of top corporate leaders whose companies were caught breaking federal law in the last 6 years.
- Prohibit contractor corruption by blocking federal contractor and licensee employees from working at the agency awarding the contract or license for 4 years.
- Ban "Golden Parachutes" that provide corporate bonuses to executives for federal service.
- Publicly expose all influence-peddling in Washington.
- Strengthen and expand the federal definition of a "lobbyist" to include all individuals paid to influence government.
- Create a new "corporate lobbyist" definition to identify individuals paid to influence government on behalf of for-profit entities and their front-groups.
- Radically expand disclosure of lobbyist activities and influence campaigns by requiring all lobbyists to disclose any specific bills, policies, and government actions they attempt to influence; any meetings with public officials; and any documents they provide to those officials.
- End Influence-Peddling by Foreign Actors such as that which occurred in the ENER1, Severstal, Solyndra and related scandals.
- Fire the Fed officials that own, trade and pump stocks using the Fed itself for profiteering.
- The most senior officials in the U.S. Government are the worshipers of Elon Musk, investor's in Elon Musk's companies and suppliers, deciders of the financing for Elon Musk, suppliers of staffing to Elon Musk, recipients of political campaign financing by Elon Musk and Musk's covert Google And Facebook partnership, social friends of Elon Musk and the attackers of Elon Musk's competitors. Make this a felony.
- Combat foreign influence in Washington by banning all foreign lobbying.
- End foreign lobbying by Americans by banning American lobbyists from accepting money from foreign governments, foreign individuals, and foreign companies to influence United States public policy.
- Prohibit current lobbyists from taking government jobs for 2 years after lobbying; 6 years for corporate lobbyists. Public, written waivers where such hiring is in the national interest are allowed for non-corporate lobbyists only.
- End Legalized Lobbyist Bribery and stop lobbyists from trading money for government favors.
- Ban direct political donations from lobbyists to candidates or Members of Congress.
- End lobbyist contingency fees that allow lobbyists to be paid for a guaranteed policy outcome.
- End lobbyist gifts to the executive and legislative branch officials they lobby.

- Require individuals and corporations to disclose funding or editorial conflicts of interest in research submitted to agencies that is not publicly available in peer-reviewed publications.

- Restrict negotiated rule-making to stop industry from delaying or dominating the rule-making process by ending the practice of inviting industry to negotiate rules they have to follow.
- Restrict inter-agency review as a tool for corporate abuse by banning informal review, establishing a maximum 45-day review period, and blocking closed-door industry lobbying at the White House's Office of Information and Regulatory Affairs.
- Limit abusive injunctions from rogue judges, like Jackson, et al, by ensuring that only Appeals Courts, not individual District Court judges, can temporarily block agencies from implementing final rules.
- Prevent hostile agencies from sham delays of implementation and enforcement by using the presence of litigation to postpone the implementation of final rules.
- Empower the public to police agencies for corporate capture.
- Increase the ability of the public to make sure their interests are considered when agencies act.
- Create a new Office of the Public Advocate empowered to assist the public in meaningfully engaging in the rule-making process across the federal government.

- Encourage enforcement by allowing private lawsuits from members of the public to hold agencies accountable for failing to complete rules or enforce the law, and to hold corporations accountable for breaking the rules.
- Inoculate government agencies against corporate capture such as Google undertook against the White House.
- Provide agencies with the tools and resources to implement strong rules that reflect the will of Congress and protect the public.

**Issue Details: Fixing Social Security**

**UPDATE SOCIAL SECURITY!!!**

**Demand that Congress set the minimum Social Security benefit to 125% of the federal poverty level, or higher. Seniors are not getting enough money to live on. Do YOU want to be starving and struggling to exist when you are old?**

**PASS THIS AROUND TO YOUR FRIENDS AND POST ABOUT IT ON SOCIAL MEDIA IF YOU HAVE PARENTS OR RELATIVES!**

✓ **SOCIAL SECURITY'S BASIC STRUCTURE, WHICH EMBODIES THE BEST OF AMERICAN VALUES AND HAS STOOD THE TEST OF TIME, SHOULD BE PROTECTED.**

The late Robert M. Ball, the longest serving commissioner of Social Security, began his Social Security career in 1939 and was involved in all major reforms from that time until his death in 2008. He defined the fundamental structure and principles in the landmark essay, "[The Nine Guiding Principles of Social Security](#)."

Both in the essay and throughout his long, storied career, Mr. Ball explained that changes to Social Security have and always should occur "within a framework consisting of nine major principles. Social Security is *universal; an earned right; wage-related; contributory and self-financed; redistributive; not means-tested; wage-indexed; inflation-protected; and compulsory.*"

The members of this Coalition subscribe to each of those guiding principles. We oppose proposals to means-test Social Security, change it into a defined contribution plan, or cut its dedicated premiums and substitute an open-ended draw on the general fund for its financing. These and similar ideas are contrary to Social Security's underlying structure, principles, and values.

✓ **SOCIAL SECURITY IS A SOLUTION AND SHOULD BE EXPANDED.**

Expanding social security is a solution. It provides retirement, disability, and life insurance to nearly all of America's working families more efficiently, securely, and universally than its private sector counterparts. Social Security lifts millions of Americans, including over a million children, out of poverty and reduces the depth of poverty for millions more. Expanding Social Security is key to addressing many of our nation's most pressing problems, including the retirement income crisis, growing income and wealth inequality, and the financial squeeze on working families.

When signing the Social Security Act of 1935 into law, President Franklin Roosevelt [explained](#), "This law... represents a cornerstone in a structure which is being built but is by no means complete." Consistent with that incremental approach, survivors' and spousal protections were added in 1939, long-term disability insurance was added in 1956, and Medicare and Medicaid were added in 1965. No additional risks have been added since then, though. It is well past time to build on the strong cornerstone laid down in 1935 and address additional risks that result in lost wages and increased expenses.

✓ **SOCIAL SECURITY IS A VEHICLE FOR SOCIAL AND ECONOMIC JUSTICE. EXPANDING IT WILL MAKE IT EVEN MORE SO.**

Social Security is designed to disproportionately benefit low-wage earners, including people of color, women, those with disabilities, members of the LGBTQ+ community, and others who have suffered discrimination. Moreover, because those discriminated groups are less likely to work in jobs that provide supplemental pensions, they are even more reliant on their earned Social Security benefits than white, non-Hispanic men, on average. Expanding benefits both across-the-board and in targeted ways can cause our Social Security system to be an even more important and effective vehicle of social and economic justice.

✓ **ALL REFORMS OF SOCIAL SECURITY SHOULD GO THROUGH REGULAR ORDER, IN THE SUNSHINE.**

Social Security is an extremely important issue that touches everyone's lives. It should only be modified in the sunshine, subject to the full Congressional process known as regular order, with open hearings, Committee consideration with the ability to amend, and full debate on the floor of each chamber with the ability to amend. That is what has been done historically and that is what should be done in the future. Opponents of Social Security often try to use bipartisan commissions to fast-track Social Security legislation that would force through unpopular changes. Should that happen, it would be a major disservice to current and future beneficiaries.

Americans' earned protections are under threat by continued, harsh cuts to the operating budget of the Social Security Administration (SSA). These cuts are occurring despite the fact that the services provided by SSA have already been paid for by the American people.

Cuts to SSA's budget have already forced the agency to close field offices, reduce staff and office hours, and freeze hiring—resulting in increased wait times and deterioration's in SSA's world-class services. Further reductions will greatly limit SSA's ability to administer benefit payments while also maintaining critical services to the public. To ensure that SSA can continue to provide Americans with the world-class, in-person services they deserve and have paid for, cuts to the agency's operating budget should be reversed, and Congress should allow SSA to restore and expand the vital services it provides to the American people.

The critical changes that you must ask your elected officials to make are:

**1. Changing how your COLA is calculated**

Congress must change how cost-of-living adjustments (COLAs) are calculated to better reflect seniors' costs. Social Security currently uses the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W), which excludes households that don't have at least one person working. That means many retirees are left out. Compared to working-age people, retirees on average spend a higher share of their incomes on medical and housing costs, both of which rise faster than inflation.

Congress should be told to use the Consumer Price Index for the Elderly (CPI-E), which measures costs for older Americans. Using the CPI-E would only increase COLAs by 0.2 percentage points in an average year. Had the 2021 COLA been calculated based on the CPI-E, it would have been 1.5% instead of the 1.3% beneficiaries will receive, though the impact could be more meaningful when compounded over time.

**2. A minimum benefit if you worked 30 years**

Congress must be told to provide a minimum benefit of 125% of the federal poverty level for people with low lifetime earnings who worked at least 30 years. Based on the 2020 federal guidelines for the 48 contiguous states and the District of Columbia, someone with a 30-year work record would get a guaranteed monthly benefit of about \$1,329. According to a Penn Warren Budget Model analysis, such a plan would also increase benefits by anywhere from 5% to 50% for a small group of people who worked between 10 and 30 years.

**3. A higher benefit after 20 years**

Congress must be told to increase benefits by 5% for people who have received benefits for 20 years or more. The bonus would be phased in at 1% per year, starting with the 16th year of benefits. The goal is to boost payments for Social Security's oldest recipients because they have been forced into exhausting their retirement savings.

Contact your elected officials at this link to tell them to do these things: <https://www.usa.gov/elected-officials/>

You have to ask why no Social Security reform is mentioned/included in the \$1.5 trillion dollar stimulus package! No one in Congress wants to make a decision when it comes to addressing the reform issue. That is why the public must continue to lobby and fight on the behalf of others that are not receiving benefits they rightfully earned and deserve. Congress likes it the way it is, so they can have money to spend on their "pork-barrel projects" instead of helping their constituents that are in need of basic financial assistance. Congress has your tax money for big parties, hookers, vacations and Rolex watches so they don't care about regular folks.
