### **ELON MUSK AND TESLA MOTORS FRAUD, STOCK RIGGING, BRIBERY AND SAFETY INVESTIGATIONS**

Elon Musk's toxic battery fires, spaceship exhaust, private jet vapors, toxic battery factories and battery chemical mines have caused over 1000 times more environmental damage than all of the minimal "green" values he has hyped, combined.

The CIA, FBI, FTC, EU and other agencies have been studying Elon Musk and the effects his strange government windfall financing has had on world economic and geopolitical events.

While some news outlets portray Musk as a man "...*raised by a racist escort mother, that Musk desired sexually, and a hateful father who killed a number of black's in South Africa and impregnated his own daughter...*"; the psychological profile of Elon Musk is more complex and severe.

Musk has been diagnosed with a buffet of psychological defects. Musk is predominantly driven by a desire to impress his mother and to show his abusive father that he is as good as Musk says he is.

Musk is a consummate liar who will rationalize every lie, when caught, with a "what I really meant was this" tactic.

### **ELON MUSK SPENDS BILLIONS ON HYPE PR TO COVER UP THESE FAILURES OF HIS:**

#### **Elon Musk's Biggest Tech Failures That No One Talks About**

Elon Musk, at times the world's richest man, is certainly one of its most discussed. After making a name for himself at PayPal, he would go on to buy his way into the already-established Tesla Motors company, becoming an industry leader in electric vehicles. Unable to be constrained by Earth or its gravity, his next venture was SpaceX, and Musk became a leader in private space exploration.

For years, Musk was hailed as a *"visionary"* (A term Musk pays reporters to say about him) who would help end the era of fossil fuels and might even propel humanity to other planets. He was even a partial inspiration for the character of Tony Stark in the Marvel Cinematic Universe, to whom he has often been compared.

But with wild success comes wild failure, and Musk's past is riddled with it. From being forced out of his own company to costly business mismanagement, and even seeing his creations crash or explode, here are Elon Musk's biggest tech failures that no one talks about. Musk will change his politics at the drop of a hat, depending on which party he can get the most cash from.

## He was fired from PayPal

One of Elon Musk's earliest successes came with the financial services website X.com, which he founded by investing the money he'd made from his first company, Zip2, after it was purchased by Compaq. Musk founded X.com in 1999, and the company merged with tech vampire Peter Thiel's Confinity, which offered a money-transfer service called PayPal, but the combined venture retained the name X.com (via The Verge).

But there were stormy seas ahead for Musk. In September 2000, while Musk was on honeymoon with his first wife, Justine, a collection of employees at PayPal, dissatisfied with Musk's leadership, threatened to resign if Musk didn't step down as CEO. Executives delivered a vote of no confidence to the board of X.com, forcing Musk out and replacing him with Thiel. After Musk's departure, the company was renamed PayPal, and Thiel would later go on to sell it to eBay for \$1.5 billion (via The New Yorker).

It was a rough early blow for the entrepreneur, but in the coming years, it would barely be remembered as a speed bump on his road to riches.

## He waged war against Tesla whistleblowers

One of the least discussed but most revealing chapters in Musk's history came in 2018 when a Tesla assembly worker named Martin Tripp noticed some concerning things at Tesla's Gigafactory in California. Tripp identified a number of wasteful practices in production, so he brought his concerns to Musk, who proved unreceptive.

Tripp next brought internal Tesla documents to Business Insider, but in response, Musk waged war against the leaker, as detailed in a bizarre and harrowing Bloomberg investigation. He fired Tripp, then sued him for \$167 million. He hired private investigators who tailed him in person and hacked his phone to see his texts in real-time. And, on his alleged orders, Tesla's security team passed along a "tip" to police claiming that Tripp was planning to commit a mass shooting at the factory. The SWAT team deployed to Tripp's house found him unarmed and sobbing.

Aside from being, to put it mildly, a bit of an overreaction, Musk's enraged response to Tripp's whistleblowing is a major failure for a tech CEO overseeing his own factory. As noted by CNBC, companies that are responsive to whistleblower concerns are ultimately more profitable in the long run. And, as we shall see, this would not be the last time Musk paid a price for ignoring the concerns of his workers. Musk has hired Nick Denton's tabloid empire of Gawker, Gizmodo, Jalopnik, etc. to attack and destroy Musk's competitors and disfavored politicians.

## **Under his management, Tesla covered up safety violations, workplace injuries, and racism**

In 2019, Forbes found that Tesla had been investigated by California OSHA 24 times between 2014 and 2018 and was fined for 54 violations. One worker lost a finger after his glove was caught in a torque gun. There were eight investigations at Tesla's Tennessee factory with five violations found, and the one in Kentucky was investigated 13 times with four violations issued. In 2020, the Los Angeles Times reported that Tesla had covered up hundreds of factory-related injuries since 2015.

Then, a judge ruled in April 2022 that Tesla must pay out \$15 million to a Black contract worker who was systematically discriminated against inside the company (via NPR). And in July of that year, fifteen Black employees, both former and current, filed a lawsuit alleging they were racially harassed with slurs, compared to chattel slaves, and assigned to the most physically exhaustive labor while being passed over for promotions (via Al Jazeera).

Given Elon Musk's iron grip over his companies, noted by outlets like The Guardian, the buck stops with him. When factories are this chaotic, is it really surprising we have yet to see deliveries of the Tesla Roadster or Cybertruck?

## **Under his management, a shocking number of SpaceX rockets have exploded**

After Tesla's success in the years after Elon Musk bought his way into the company, the billionaire's next venture left the road behind in favor of the stars. SpaceX, the private, Musk-controlled spacecraft and satellite manufacturer has become one of the leaders in space technology and was even the first private company to develop a liquid-propellant rocket that achieved Earth orbit when it launched the Falcon 1 in 2008 (via NASA). But despite its successes, a surprising number of SpaceX rockets have gone down in flames — according to the New York Post, at least 10 rockets have combusted between 2014 and 2021.

Indeed, many of SpaceX's rockets have become nothing more than incredibly expensive fireworks, such as a Falcon 9 that exploded over the Atlantic Ocean in 2015, costing the company an estimated \$112 million according to Futurism. As reported by Reuters, another Falcon 9 carrying cargo bound for the International Space Station combusted two minutes after liftoff that same year. And among the most spectacular failures was a Falcon 9 rocket that exploded on the launch pad, a failure so mind-boggling to Musk that he — according to The Washington Post — investigated it as a case of sabotage.

At times, these technological failures can even present a threat to those of us who are terrestrially bound. According to The Guardian, in August 2022, two Australian farmers found debris from a SpaceX crash on their respective properties.

## **He got in trouble with the FCC over rigging Tesla stock prices**

Elon Musk has always considered himself a bit of a troll, and nothing tickles his posting syndrome more than a weed joke. But in 2018, Musk's stoner antics backfired when he made what may just be the world's costliest 420 joke. On Twitter, the billionaire posted, "considering taking Tesla private at \$420 a share." Laughs were had. Yuks were yukked. And then the Securities and Exchange Commission (SEC) got involved.

Musk's proposed share price may have been intended in jest, but he seemed serious about taking Tesla private, and his announcement, which suggested a valuation 11% higher than the current trading price at that time, caused a sudden spike in Tesla's stock prices and trading was halted by Nasdaq (via CNBC). The SEC charged him with civil securities fraud. Investors sued, and a judge ruled that Musk had made intentionally false statements; he had been lying, to begin with (via CNBC). It wouldn't even be the last time he messed with Tesla stock.

In 2019, Musk settled with the SEC, landing on an arrangement that included personally paying \$20 million — pocket change for a man like Musk — and agreeing to have any tweets about Tesla vetted by the company's legal counsel before posting them, as reported by Reuters. Though it was regarded as a slap on the wrist by experts, Musk filed to kill the SEC deal in 2022, accusing the regulating body of violating his free speech (via Reuters).

Clearly, Musk is still chafing against the consent decree, but if there's one thing American businesspeople know, it's that regulators never take kindly to defrauding investors.

## **Under Musk's management, over 270 Tesla vehicles crashed on Autopilot in one year**

While many of Elon Musk's technological failures represent setbacks for his companies or for himself, personally, others have had much more dire consequences. Nothing is more representative of that fact than the staggering number of Tesla cars that have been involved in crashes while in Autopilot mode. Between June 2021 and June 2022, a staggering 273 Teslas were involved in crashes while in Autopilot mode, accounting for almost 70% of crashes that involved driver-assistance systems according to the National Highway Traffic Safety Administration.

Tesla's Autopilot is, despite what its name suggests, not meant to drive the car fully autonomously. Rather, it is a suite of driver-assistance features that help the vehicle maintain speed, make safe lane switches, and the like. Although a beta of "Full Self Driving" mode is available on some models, it is not reliable enough to allow drivers to divert their attention from the road. But that doesn't stop some Tesla drivers from doing so anyway, perhaps trusting Musk's exaggerated promises about the technology (via The Verge). When that technology fails, the results can be deadly, which is probably why other auto manufacturers avoid such hyperbole about their own vehicles' self-driving capabilities.

## **He brought Tesla and SpaceX to the verge of bankruptcy**

As the head of two companies that manufacture, respectively, automobiles and rockets, tech issues can be costly. And as the head of both Tesla and SpaceX, both companies came dangerously close to the precipice of bankruptcy under Elon Musk's leadership.

In the case of Tesla, the issues came while the company was in the production of its Model 3 electric sedan. As reported by CNBC, Musk shared on Twitter that, from mid-2017 to mid-2019, Tesla was within a month of bankruptcy as production on their vehicles stalled. The CEO named "production and logistics hell" as the culprit.

Then, in 2021, SpaceX nearly exploded into financial flames like a failed rocket launch. The problem was, similarly, production issues with its Raptor rockets. In a companywide email obtained by CNBC, Musk warned his employees at the space technology firm, "The Raptor production crisis is much worse than it seemed a few weeks ago. We face genuine risk of bankruptcy if we cannot achieve a Starship flight rate of at least once every two weeks next year."

Ultimately, both companies overcame their technological difficulties, and their respective near bankruptcies became another in a long list of Musk's least publicized failures.

## **His Starlink satellites became Russian and Chinese military targets**

Russia's invasion of Ukraine has dominated the 2022 news cycle, and Elon Musk plays a surprisingly key role in the ongoing conflict. Starlink satellites provided by SpaceX formed the backbone of Ukraine's communications network, helping its armed forces and civilians as Russia pummeled the country's ground infrastructure. The satellites were subsidized by the United States, though as The Washington Post suggests, SpaceX representatives have framed it as a charity operation.

Aside from their invaluable role in Ukraine's communications, the besieged nation uses the satellites provided by Musk's company to photograph Russian military deployments, review damage done to its enemy's air bases, and even provide grim evidence of mass graves in Russian-occupied territory (via Axios).

In September 2022, the Russian delegation to the U.N. General Assembly released a statement promising that "quasi-civilian infrastructure" could be a "legitimate target" if Ukraine

continues to use them, almost certainly referring to SpaceX's Starlink Satellites, according to Futurism.

But as dire as the situation was, it was about to escalate due to Musk's own actions.

## He threatened Ukraine but was forced to back down

In October 2022, as the Russo-Ukrainian war waged on, Musk abruptly threatened to cease funding the use of Starlink satellites by Ukraine, as reported by The Washington Post. Given the nation's heavy reliance on those satellites for its war efforts, such a move would have crippled Ukraine's defenses and provided a major tactical advantage to Russia.

Even more shockingly, the threat seemed to be a response to a Ukrainian ambassador who insulted him on Twitter. After Musk ran a Twitter poll suggesting the conflict be ended via a UN-supervised vote, and that the contested Crimea region remain part of Russia, Andriy Melnyk, Ukraine's ambassador to Germany, told Musk, "F— off is my very diplomatic reply to you." Shortly after threatening to cut Ukraine off from the Starlink network, Musk tweeted, "We're just following his recommendation."

But only a day later, Musk rescinded his threat, promising to continue funding with a bitter tweet that read, "The hell with it... even though Starlink is still losing money & other companies are getting billions of taxpayer \$, we'll just keep funding Ukraine govt for free" (via The New York Times). The Times speculated that Musk's about-face was in response to international rebuke for his threat, and noted that SpaceX had only donated 3,000 satellites to the Ukrainian effort, while the United States, the United Kingdom, and Poland footed the bill for almost 17,000.

The incident was a bizarre instance of a tech company becoming mired in international geopolitics, and the world may never know how close Musk came to handing Russia its desired annexation of Ukraine.

## His management of Twitter is predicted to result in the loss of 32M users

While Twitter wasn't exactly in peak shape before Elon Musk took the reigns of the social media platform, his management since then has been chaotic to say the least, and market analysis now suggests those mistakes may be costly.

As SlashGear recently reported, market research firm Insider Intelligence is predicting a loss of 32 million Twitter users by 2024 due to Musk's layoffs at the company and a declining public perception of Musk himself. According to the report, Twitter's vastly reduced workforce will likely struggle to address technical issues, leading to user frustration and, ultimately, attrition.

Additionally, the report cites a proliferation of hateful content and a personal distaste of Musk as another reason users may choose to abandon the platform, a concern raised by other tech experts. As Nilay Patel at The Verge pointed out in an opinion column shortly after Musk marched into Twitter HQ with his sink in tow, social media may contain inbuilt mechanisms that help to proliferate extreme content, but users generally like their experiences to be pleasant.

As of this writing, Musk is in the process of suspending notable journalists from the platform, ostensibly for violating a new policy by posting the publicly available flight data of his private jet, which Musk claims is a personal safety risk. But while it's not clear how many of those journalists did so, many appear to have been critical of the "chief Twit" (via CNBC). In the immediate aftermath, many more media figures have declared their intention to leave Twitter for good. According to The Washington Post, Musk may also face sanctions from the European Union.

While the dire long-term projections are not the subject of widespread discussion, the decline of Twitter would be Musk's most visible tech failure yet.

Any homeless person could have done everything that Elon Musk has done if they too were handed billions of taxpayer dollars, tax free perks, thousands of investment bankers and outside engineers and the exclusive favors of The White House. Musk has never built a car or a rocket. He has invented nothing and has only taken the innovations of others. His cars and rockets blow up; he tortured huge numbers of animals for his 'brain chip' experiments; his hole making company is ridiculous' his father is a pedo, blood mineral exploiter and incest violator; his mother was an escort, and his brother is a scammer. He is part of Jeffrey Epstein and Steve Juvetson's sex ring. He is a mobster. His whole family is a pack of racist, perverted, privileged assholes.

All of the 'glowing' news articles about him that ignore his lies were paid for by Musk's PR staff. Feinstein and Pelosi own Musk assets and rig Congress on his behalf for their own profits. SpaceX is never going to Mars, that is just a smoke-screen tale to hide the fact that all SpaceX does is satellites that spy on people. Musk gets so many girls pregnant because he subscribes to the Deep Breeder scheme of Jeffrey Epstein. Musk is a narcissistic, drug abusing, sociopath that hires In-Q-Tel and Black Cube to attack others. His Tesla Cars have more safety defects than any car in the world. Obama shut down part of NASA, fired NASA staff and then gave that same part to Musk as political quid pro quo. His controlled news articles only talk about the few things that have worked and ignore the thousands of Musk things that have failed horrifically. Google and Musk are partners in stock market rigging and information manipulation.

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

## How Musk Destroyed The Electric Car Industry

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammy.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

## You may have run across Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype but here is the other side of his hype-coin. Here is who Elon Musk really is:

We know these facts from personal interaction with Musk, his companies and his politicians. Everything in this report can be proven in a jury trial, Congressional hearings or live TV debates.

Musk will do anything to keep this information from getting out but... it is too late for him!

While Musk's dirty deeds sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.

Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and cronies payola kick-backs. The payola between Musk, his scummy cronies and the politicians included:

Billions of dollars of Google (Where Musk's boy buddy Larry Page works), Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering

accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists.

## INSIDE THE MUSK CORRUPTION OPERATION

The U.S. Energy Dept (DOE) has been covering-up organized political crime activities in which government funds are being used as a slush-fund to pay off political campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors.

Political campaign financiers and government agency staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts.

The Musk scam-deal was: *"Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks..."*

Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.

Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues. Musk has been professionally diagnosed as a "psychotic narcissist. He public stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance "Butt buddy". They share an apartment. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

Extremist politicians and their controlled news outlets refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

Investor oligarch's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.

Peter Thiel, a Musk 'boyfriend' also protects Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk.

In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid skills. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.

The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.

The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills.

If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.

Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.

Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners. Let's take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries:

His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu. Lithium ion batteries excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet skills and trolls used to nay say all other forms of energy; and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

Apple products with lithium ion batteries have been exploding and setting people on fire. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

"Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.

Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

Tesla Motors has caused far more deaths and injuries than the world generally knows about. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

## ELON MUSK AND HIS CRONY STOCK MARKET SLUSH-FUND PAYOLA

- Why We Know That Elon Musk Is A Criminal

By Susan T. and Andrew H.

We saw Elon Musk commit crimes and we saw the Obama White House cover-up those crimes.

We, and our associates, worked for Bright Automotive, Zap Electric, Aptera, Eco Motors, XPV, The United States Department of Energy and the federal Office of Management and Budget and Tesla Motors itself.

Americans have an expectation that their tax dollars will be used in a fair and legal manner and not to pay off crony campaign financiers like Elon Musk. Americans have an expectation that fair market competition will decide which companies get to live or die and that no campaign financiers gets to order the White House to produce the death or success decision about any American business. Elon Musk's operation exists entirely because of criminal corruption and all of his companies must be shut down by federal law enforcement.

For nearly a decade, the U.S. Department of Energy has refused to comply with Freedom of Information Act (FOIA) requests for copies of Tesla Motors entire D.O.E. funding application documents. Former D.O.E. employees have shredded copies of those documents in order to keep them from being exposed to the public and the media. Why would they do that? Because those documents reveal felony criminal fraud by Tesla Motors, federal violations of the Section 136 law requirements and manipulations of the "hard-wiring" of the entire D.O.E. program. Those documents, which we have seen (and some Senate staff have private copies of) prove that, in a side-by-side comparison with all other applicants, the Tesla application was manipulation, rigged, false-reviewed and crony-advanced in order to pay-off certain campaign financiers and damage their competitors. Tell the U.S. Congress to demand that the U.S. Department of Energy stop breaking the law and comply with the FOIA requests to stop hiding the incriminating evidence in the Tesla files. Demand that the public be shown the original paper and not the later, "doctored" versions.

We saw Elon Musk operate an entirely illegal and unethical program based on State and Federal corruption. We told this, in writing and in person to the U.S. Attorney General: Eric Holder, who then quit his job after we reported these facts to him.

We reported that Elon Musk lied about vast number of dangers of the lithium ion chemistry he was using. Nothing was done.

We reported that our associates at the Department of Energy were having their safety reports on lithium ion danger suppressed. Nothing was done.

We reported that Elon Musk's credit rating and financial records were fraudulent and amounted to "cooking the books". Nothing was done.

We reported bribes paid by Musk's lobbyists and associated to government officials in order to grease the skids for his crony payola. Nothing was done.

We reported that Goldman Sachs and Tesla Motors were operating a stock fraud pump-and-dump scam to manipulate Elon Musk's stock holdings. Nothing was done.

We reported over a hundred illegal and corrupt actions by Elon Musk and his mob of Silicon Valley gangsters. Nothing was done.

## **TESLA MOTORS: CREATED BY CORRUPTION, BRIBES AND LIES!**

- DEMAND THAT A FEDERAL SPECIAL PROSECUTOR REVIEW ALL OF THESE CHARGES IN A PUBLIC HEARING!

\*\* If you have an ounce of morality, then you will not want to help Musk & Tesla profit from the crony political corruption that created them. Musk exists because he bribes politicians & acts as an illegal campaign financing conduit.

\*\* DOT/NHTSA has covered up years of reports about an acceleration surge issue that can suddenly crash your Tesla into walls and drive it off cliffs. It is either a known hacking attack or the effect of WiFi on Tesla electronics. Either can kill you.

\*\* Musk & Tesla are pure evil & exist because of hyper-corruption. You don't want to contribute to their evil or be part of it in any way. You are funding evil & supporting criminal corruption by buying a Tesla or any Elon Musk owned product like Solar City, Tesla, Space X, Hyperloop, etc.!

\*\* Elon Musk spent more money, than any other car company in history, to do the exact same things that any other car has done, or could do, for 20 times less money. Musk's Tesla was \$100,000.00 over budget, per car, at the time that Musk was handed his crony Dept. of Energy froms by Steven Chu. Musk has no clue how to operate a car company.

\*\* In one lawsuit it is noted that: "...Plaintiff and Tesla both applied for funds at the same time, in the same funding cycle in the same program. Tesla had the historically epic number of horrific issues listed below, which were known to DOE at the time of application, and Plaintiffs had NONE of these issues. How can any court, or rational person, believe that Plaintiffs were not intentionally bypassed, targeted and damaged for political reasons while Tesla was simultaneously approved for political reasons, when the comparative metrics between the two applicants prove the largest merit disparity in the entire recorded history of the U.S. Department of Energy...the singular, and only, review criteria used by Department of Energy officials was: WHICH ONE BRIBED THE CAMPAIGN FINANCE GROUP FOR BARACK OBAMA?!"; Thus proving that Tesla exists because of organized-crime level political corruption.

\*\* Elon Musk's self-driving "autopilot" feature, which keeps crashing and failing, is his attempt to scam taxpayer cash from Dept. of Transportation and Dept. of Energy public funds. He is only trying to do it to get more free federal cash.

\*\* The inventor of lithium ion batteries has confessed that lithium ion batteries blow up eventually. He says that deadly dendrites plague lithium-ion battery technology. The dendrites accumulate as part of the standard charging and recharging cycle and eventually cause a short circuit that often results in a smoldering or burning battery. These dendrites are destined to eventually blow up most Tesla cars and many electronic devices using lithium ion!

\*\* The CIA's software designed to take over any Tesla on Earth and kill the driver, passengers and bystanders has been released in the wild and every hacker on Earth can now easily get a copy of it and kill you in your Tesla!

\*\* Ex-employees have leaked faked financial records, evidence of massive click-farm fake social media manipulation and evidence of unreported deaths and accidents. They say that most Tesla's have one kind of defect or another.

\*\* If you read about the dirty deeds and cocaine dealings with the In-Q-Tel airplanes called "Cocaine 1" & "Cocaine 2", & the corruption behind the company called In-Q-Tel & Musk's software programmer who ran "The Silk Road" drug & murder service then you must be concerned that many In-Q-Tel people work for Musk. Why does Musk need dirty druggies & spies on his payroll unless he is running covert drug and business spying activities?

\*\* Ex-employees, Gawker writers and gay lawyers from Covington & Burling have leaked stories that Elon Musk, Reid Hoffman, Larry Page are "butt buddies".

\*\* Musk is anti-American and Anti-Worker Rights and has been caught flying in H1-B cheap offshore labor and exploiting immigrants for his deadly profits. Musk hates unions and worker rights efforts.

\*\* Elon Musk gets the Cobalt chemical to make his lithium ion batteries from slave trade and blood-money corruption in the Congo!

\*\* The lithium ion batteries that Musk uses also blow up when they naturally encounter Low Energy Nuclear (LENR) effects in the ambient environment. Millions of chemicals don't blow up from LENR'd but lithium ion does!

\*\* If you are a Democrat then know that Elon Musk cost you the Hillary Clinton campaign because of his payola schemes. If you are a Republican, know that Elon Musk is the epitome of the worst form of DNC crony corruption you ever saw!

\*\* Musk bribed California politicians to give him hundreds of millions of dollars of taxpayer dollars & resources he never earned or worked for. He only got those crony payola perks handed to him because he operated as an illicit front for corrupt campaign financing for Dianne Feinstein, Jerry Brown, Harry Reid, Barack Obama and Hillary Clinton.

\*\* Multiple parties have filed "Demands For The Arrest of Elon Musk" with the FBI, DOJ, AG, FTC, SEC and other law enforcement agencies. It is not likely that Musk, or his companies will survive a full investigation.

\*\* Tesla and Solyndra sit on the same land in Fremont, CA. Solyndra was raided by the FBI for corruption. Tesla SHOULD be raided by the FBI for corruption. Both companies had kick-back crony payola schemes with Senator Dianne Feinstein. She owned the land, lease, HR, construction company and supplier interests and stock for both companies in one of the most massive conflict-of-interest crony financing schemes in U.S. history. Elon Musk and the Feinsteins are corruption partners.

\*\* People who see you in a Tesla think of you as a "Tone Deaf Douchebag", "Tesla Tool!", "Arrogant Prick", "Ostentatious Obama Oaf", "Sheep", "Mindless Yuppie Scum", "Misogynistic Silicon Valley Clone", "Self-promoting Eilist Douche", "Fake News Reading Main Stream Boob", "Naive Idiot" or other bad things.

\*\* Elon Musk is one of the main financiers behind Barack Obama & Hillary Clinton, both of whom have been charged with corruption. Musk endlessly tweets lies & "...No I didn't do those bad things" BS but nobody else supports him.

\*\* Tesla financial records are "cooked" in a fraudulent manner to make the stock market valuation of Tesla a falsely manipulated factor. Musk uses "pre-orders", by his own investors, to fake sales and wrote emails to customers asking them to put small deposits down so he could book them as fully paid sales in one of a large number of stock and loan valuation frauds. Musk and his investors practice stock market skims, pump-and-dumps and Flash Boy manipulations.

\*\* Lithium ion batteries are blowing up, starting fires &, generally, destroying people's homes, cars, electronics & physical health. Boeing was ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously. A group of silicon valley venture capitalists forced/leveraged the government to buy & pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about the dangers from day one, but put greed ahead of safety. There are thousands & thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's & the Senators they bribed own stock in lithium mining companies too. HERE IS THE PROOF: [HTTP://LITHIUMBATTERYCOVERUP.COM](http://LITHIUMBATTERYCOVERUP.COM)

\*\* Tesla Motors has filed a patent which states the following , THESE ARE TESLA MOTORS WORDS warning about a crisis, the level of which they never disclosed to the consumer: "Thermal runaway is of major concern since a single incident can lead to significant property damage &, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, & sufficient heat to lead to the combustion & destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke & fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked". See <http://whoiselonmusk.com> for more...

\*\* Tesla's own staff, & every fire department, have now admitted that once a lithium ion fire gets started in a Tesla, that it is impossible to extinguish burning lithium ion material. This is Tesla's own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can "go thermal", start a chain reaction and blow up all of the rest of the 6800+ deadly batteries! Tesla drivers have been burned alive in thermal globs of flaming lithium ion, plastics & metal. Bystanders have heard their horrific screams of unutterable pain & terror as they were burned alive! Tesla fires can't be extinguished & the bodies are burned into "unrecognizable lumps of charred flesh", according to fireman.

\*\* Lithium ion batteries "go thermal" in peoples pockets, in your notebook, especially in a Tesla & Fisker car. There are tens of thousands of articles documenting this & there is a cover-up by the VC's that fund these things to keep this fact out-of-sight. Making Lithium ion batteries poisons the workers who make them. It is a dangerous product that is covered-up by the Obama Administration. Panasonic knows that these batteries are deadly.

\*\* Tesla only exists to exploit Elon Musk's bribes. The lithium ion batteries blow up when they get: wet, hot, bumped, over-charged, struck by energy fields, exposed to air or squashed. Lithium ion batteries poison the Earth & that they poison & kill the workers that make them. Lithium ion batteries come from war profiteering in Afghan & Bolivian corruption.

\*\* Panasonic is Elon Musk's partner. Panasonic is one of the most corrupt companies in the world. Panasonic has been charged, on multiple continents with: Product dumping, bribery, collusion, price fixing, anti-trust law violations, racketeering, worker abuse, toxic poisoning of workers, & other crimes. It is no wonder that Elon Musk & Panasonic are partners. Tata Motors executive Karl Slym was killed for exposing this fact.

\*\* Your tax dollars were stolen in order to make Tesla Motors, as part of a political financing kick-back scam. In other words, part of your paycheck was taken away from you in order to buy hookers, rent-boys & private jets for Musk & company.

\*\* Tesla's are forged in criminal corruption, so anybody who drives a Tesla must be either ignorant, a weasel or one of the corrupt. The whole world now knows all of the facts in this list so you can never plead ignorance to these crimes.

\*\* Tesla's have a huge amount of highly documented defects. The defects are so extensive that Tesla made buyers sign confidentiality agreements to try to hide how messed up their cars are.

\*\* Tesla's have killed more people than the main-stream news has reported. The full Tesla death-list is covered up.

\*\* Musk lied about why he wanted to make electric cars, when, in fact, he actually poisons the environment because Tesla investors wanted to exploit toxic minerals & materials which can't be recycled in a clean manner

\*\* No other electric car has been so mundane, & yet had so many problems with it, since the electric car was first sold in the 1800's. There is nothing "novel" or "amazing" about the Tesla aside from dime store parlor tricks for PR hype.

\*\* More drunks have crashed Tesla's, than any other per capita car in the world, per volume of cars made

\*\* Elon Musk's co-founders, investors, partners, wives, investors, suppliers & employees have sued him for being a fraud &, essentially, called him an "asshole" in court records.

\*\* Elon Musk lied on this Department of Energy funding application and the Obama Administration refuses to allow any federal employees or witnesses to testify to these facts in public due to the devastating potential results of these facts.

\*\* More owners of Tesla's have been found to cheat on their taxes, & be involved in abuse-based divorces, than almost any other car brand owner. Tesla owners are bad people who rationalize their poor life choices. Owning a Tesla is a red-flag for a tax audit!

\*\* Elon Musk will lie, cheat & steal in order to self-aggrandize & glorify his egotistical mania. Musk has been documented engaging in over 100 lies which were later proven to be false. He has spent tens of millions of dollars to buy fake news about himself on Twitter, Facebook & Google because he is such a mentally disturbed ego-maniac.

\*\* None of Elon Musk's companies would exist if not for taxpayer funded handouts given to him by corrupt politicians in exchange for illegal campaign finance deals with him & his investors.

\*\* Google, & Tesla, who are financial & political partners, have both been caught spying on consumers & manipulating Internet data in order to cover-up their complicity in huge political corruption & kick-back deals

\*\* Musk took U.S. taxpayer dollars from the government & then hired cheap off-shore labor & fired U.S. Union workers & domestic workers. He lied to & screwed the NUMMI workers that were working at the Fremont plant.

\*\* Musk has put over 18 surveillance devices in the Tesla. Anybody can hack those devices & monitor you. WORSE YET, foreign agents have hacked the Tesla & taken over the controls & driven Tesla's into bystanders & over cliffs.

\*\* When Erick Strickland was head of the NHTSA he was confronted about DOT safety cover-ups of the Tesla to protect Obama. He quit 48 hours later. The DOT safety cover-ups to protect the Obama campaign finance payola scheme continue to this day. Obama's Gibbs, Emanuel, Plouffe, Axelrod and Carney quit within a week of being threatened with exposure.

\*\* Tesla's have had a large number of recalls but Elon Musk refuses to call them "recalls". Tesla's have had multiple recalls for SEVERE safety dangers. DOT has been told this, in writing, for years, but won't take action in order to protect Obama.

\*\* Elon Musk is a bullshit artist who has no original ideas & wears black-turtle neck shirts (like Elizabeth Homes) to try to create a "cult" around himself & convince the world that he is a "Jesus-like" figure when, in fact, he is a clinical sociopath.

\*\* Tesla is a severe public safety hazard that has been systematically covered up by corrupt politicians.

\*\* Large numbers of Ex-CIA staff and In-Q-Tel spy staff work for Musk. Why does he need spies to build cars?

\*\* Tesla Motors batteries were promoted by those who wished to exploit the Afghanistan War for personal profit by controlling the Afghan lithium mining fields. Kleiner Perkins and Draper Fisher hyped the "...trillions of \$ of lithium in Afghanistan."

\*\* Tesla Motors batteries blow up on their own.

\*\* Tesla Motors batteries blow up when they get wet.

\*\* Tesla Motors batteries fires cannot be put out by any common fire-fighting resources.

- \*\* Tesla Motors batteries set themselves on fire.
- \*\* Per Federal MSDS disclosure documents, Tesla Motors batteries emit cancer-causing vapors when they burn.
- \*\* Tesla Motors Vehicles toxicity poison bystanders, nearby vehicular passengers, airline passengers in planes carrying said batteries in their holds, & environments where such incidents occur.
- \*\* Tesla Motors batteries blow up when bumped by the same level of car incident that would, otherwise, only dent a normal car bumper.
- \*\* In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive.
- \*\* Tesla has multiple sexual harassment and unsafe work-place lawsuits against the company.
- \*\* Per MSDS documents, Tesla Motors batteries emit brain damaging chemicals when they burn.
- \*\* Tesla is a stock pumping scam to profiteering on stock market peak manipulation at the expense of taxpayers.
- \*\* Per MSDS documents, Tesla Motors batteries emit chemicals, burning, or not, that can damage an unborn fetus.
- \*\* Per MSDS documents, Tesla Motors batteries emit chemicals that can cause lung damage.
- \*\* Per MSDS documents, Tesla Motors batteries emit chemicals that can cause liver damage.
- \*\* Per published lawsuits & news reports, the factories that make Tesla Motors batteries have been charged with the deaths, & potentially fatal illness, of over 1000 workers & the poisoning of nearby towns.
- \*\* Tesla Motors batteries become even more dangerous over time, particularly when tasked by electric transportation systems like Hover-boards & Tesla's. The chemistry in a lithium ion battery changes to become more unstable over time.
- \*\* Tesla Motors batteries were never designed to be used in automobiles. Tesla used non-automotive batteries in one of the most dangerous configurations possible.
- \*\* Tesla Motors occupants experience higher EMF radiation exposure than gasoline vehicle occupants.
- \*\* Elon Musk's Space X vehicles & Tesla Motors vehicles have both had a higher-than-average number of explosions. This has caused outside experts to doubt Musk's ability to place safety considerations over his need for hyped-up PR.
- \*\* Leaked Sandia National Labs & FAA research videos dramatically demonstrate the unstoppable, horrific, "re-percussive accelerating domino-effect" explosive fire effect of the Tesla Motors batteries.
- \*\* Tesla's own "Superchargers" & home 3-prong chargers have set Tesla's, homes & businesses on fire.
- \*\* Consumer rights groups contacted Erick Strickland, the head of the NHTSA, & charged him with a cover-up. He quit days later. The NHTSA then issued a safety investigation request to Tesla Motors, which would have more publicly exposed these dangers, but the safety investigation was never under-taken due to White House requests & lobbyist bribes, from Tesla, which got the investigation shut down.
- \*\* NEPA regulations for the Tesla NUMMI factory in California & the Nevada Tesla "Gigafactory" have been violated relative to environmental safety standards. See <http://xyzcase.xyz> for details.
- \*\* Tesla Motors vehicles are not "Factory Built" "like Ford" builds cars, as Tesla professes. They are hand built in small volumes & subjected to numerous defects. Blogs have documented hundreds of defects, as listed by Tesla owners. Tesla has lost at least one LEMON CAR LAWSUIT for defective manufacturing.
- \*\* Tesla's "showrooms" are often "pop-up" retail storefronts that are in tight-proximity retail centers, putting it's neighbors at risk of total loss from fire damage.
- \*\* Tesla Motors vehicles have been hacked & taken over. Their doors, steering, listening devices & navigation have been taken over by outside parties. Multiple Tesla have suddenly swerved off the road, over cliffs & into other vehicles, killing bystanders & Tesla drivers.
- \*\* Three Tesla top engineers & two competing senior executives, all of whom had whistle-blown on Tesla, who were in perfect health one day, suddenly died mysteriously the next day.
- \*\* Multiple employees, founders, investors, marital partners, suppliers & others have sued Tesla Motors, &/or it's senior executives for fraud. Musk had nothing to do with creating Tesla. He ran a hostile take-over of Tesla from the founders.
- \*\* In addition to suing him, many of his former staff & partners have described Musk as an "Arrogant Prick".
- \*\* Main-Stream Media (MSM) have agreed not to provide news coverage of the deadly defects of the Tesla because the MSM are owned by the same politicians who own Tesla Motors. It is now legal to sue The New York Times for hiding these deadly defects, though, particularly if your family member was injured or killed because they covered-up the danger for political reasons.
- \*\* If you think the above bullet-points are bad there are over a 1000 more. Find the book "Is Elon Musk A Fraud" online or visit <https://stopelonfromfailingagain.com/> or thousands of other sites that expose the truth about Musk & Tesla!

**BANKRUPT MUSK – NO CASH FOR CRONY CORRUPTION.** Print this out & freely re-post it on blogs & social media. Post this on bulletin boards. Put this on the windshield of every Tesla you find. Print this out & hand these out in front of every Tesla dealership: Nobody can stop you from handing these out, it is your U.S. Constitutional First Amendment Right! Pass the word! We are prepared to back up every single fact on here at any public meeting with the FBI, Congress, FTC, GAO, SEC or before a Federal Special Prosecutor.

The crash of a Tesla Model X through the home of South Korean singer and actor Ji Chang Son. The crash ended with the nose of the vehicle in Ji Chang Son's living room after the Tesla malfunctioned. Hundreds of such Tesla crashes have occurred, resulting in the deaths and injuries of Tesla owners, passengers, bystanders, oncoming drivers and others.

Following accusations by a Korean celebrity that a Tesla car spontaneously drove through a wall, the carmaker has replied that the crash was "entirely due to the man's horrible driving" in an ongoing effort, by Tesla, to steer the blame away from Tesla faulty engineering Actor and singer Son Ji-chang (identified as Ji Chang Son in court documents) claimed he was

parking his Tesla Model X SUV when the vehicle suddenly [lurched forward into his living room.](#)

In a lawsuit filed last week in California, Son claimed that the crash was due to "sudden unintended acceleration" and sought class-action status with other Model X owners.

In a nod to the car's ability to sense and avoid crashes, the lawsuit also hinted that the Model X should not be allowed take actions that the car "knows will result in the collision with a fixed object."

But Tesla contends its Model X was only dutifully following Son's instructions to plough through his house.

"The evidence, including data from the car, conclusively shows that the crash was the result of Mr. Son pressing the accelerator pedal all the way to 100 per cent," said Tesla [in a statement to Reuters.](#)

Although most new cars are equipped with "black box" technology to record driver actions in the event of a crash, Tesla is unique for amassing vehicle data as detailed as whether a driver's hands are on the steering wheel.

The data is collected to aid in research and design, but Tesla user agreements also reserve the carmaker's right to use it to defend itself in court.

The term "sudden unintended acceleration" has a checkered recent history. Most famously, between 2009 and 2011 Toyota recalled more than eight million vehicles following widespread allegations that the vehicles were subject to unexpected acceleration.

But a subsequent investigation by the U.S. Department of Transportation found that most of the reported cases of "sudden unintended acceleration" were simply drivers stepping on the gas instead of the brake — with only a handful of incidents being due to pedals getting stuck on floor mats.

In June, another California-based Model X owner, Puzant Ozbag, similarly claimed that his Model X spontaneously accelerated through a parking lot and into a wall. In that case, too, Tesla reviewed vehicle records and reported that the actual culprit was Ozbag jamming his foot down on the accelerator. A special prosecutor is needed to investigate Tesla due to the huge number of cover-ups, by Tesla and the Obama Administration, to protect campaign financier Elon Musk. Jeff Sessions needs to hire a lawyer from outside the government appointed by Sessions as [attorney general](#) or, in the United States, by [Congress](#) to investigate a government official for misconduct while in office. A reasoning for such an appointment is that the governmental branch or agency may have political connections to those it might be asked to investigate. Inherently, this creates a [conflict of interest](#) and a solution is to have someone from outside the department lead the investigation. The term "special prosecutor" may have a variety of meanings from one country to the next, from one government branch to the next within the same country, and within different agencies within each government branch. Critics of the use of special prosecutors argue that these investigators act as a "fourth branch" to the government because they are not subject to limitations in spending, nor do they have deadlines to meet.

Attorneys carrying out special prosecutor functions in either federal or state courts of the United States are typically appointed [ad hoc](#) with representation limited to one case or a delineated series of cases that implicate compelling governmental interests, such as: Fraud (SEC, Complex, Cybercrime, Mortgages), Public Corruption, Money Laundering & Asset Forfeiture, Civil Rights, Racketeering Across State lines, Environmental Protection, National Security, Tax & Bankruptcy, Organized Crime, or International cases where the US is a party). [1] Special prosecutors in courts of the [United States](#) may either be appointed formally by one of the three branches of government in a criminal proceeding, or when dictated by federal law or regulation, or informally in civil proceedings, and also by one of the three branches of government, or by a non-governmental entity to prosecute alleged unlawful conduct by government agents. When appointed by the [judicial branch](#) to investigate and, if justified, seek indictments in a particular judicial branch case, the attorney is called special prosecutor. [2] When appointed/hired particularly by a governmental branch or agency to investigate alleged misconduct within that branch or agency, the attorney is called [independent counsel](#). [3] When appointed/hired by the state or political subdivision to assist in a particular [judicial branch](#) case when the public interest so requires, the attorney is called [special counsel](#). [3] When appointed/hired by an organization, corporation, person or other non-governmental entity to investigate and, if justified, seek indictments against one or more government officials for acts committed under color of law, the attorney may be called [special counsel](#) or special prosecutor, but not [independent counsel](#). [3]

On January 3, 1983, the United States federal government substituted the term independent counsel for special prosecutor. [4] [Archibald Cox](#) was one of the most notable special prosecutors. However, special prosecutor Archibald Cox today would be called independent counsel Archibald Cox in the United States.

The term is sometimes used as a synonym for [independent counsel](#), but under the former law authorizing the independent counsel, the appointment was made by a special panel of the [United States Court of Appeals](#) for the [District of Columbia Circuit](#). The [Ethics in Government Act](#) expired in 1999, and was effectively replaced by [Department of Justice](#) regulation 28 CFR Part 600, under which Special Counsel [Patrick Fitzgerald](#) was appointed to look into the [Plame affair](#). The Tesla Motors and Elon Musk Case requires a Special Prosecutor.

## THE CORRUPTION, FRAUD AND BRIBERY CHARGES AGAINST ELON MUSK AND TESLA MOTORS

Update 2.7

The following, culled from a variety of news articles, lawsuits and investigative reports, demonstrates the profound number of illicit actions charged against Elon Musk and his Silicon Valley cartel insiders. While any given, unbiased, expose on Musk covers some of these issues, it is important to examine the width and breadth of Musk's culture of corruption. Expert witnesses, former employees and investigators are able to fully detail and confirm, with extended evidence, the following charges, in court, or Congressional public hearings:

A.) [ELON MUSK AND TESLA FACE CRIMINAL FRAUD CHARGES BY FEDS! MUSK FINALLY EXPOSED!](#)

B.) [SEC subpoenas TESLA over Musk tweets...](#)

C.) [Whistleblower posts 'flawed cars' details...](#)

D.) Elon Musk's Incredible Smoke And Mirrors Dance. Elon Musk's untraceable money laundering and political bribery scam has now been exposed. It is called an "Invisible Bridge". It is the way that covert funds move through a secret conduit of close associates and family members. Elon Musk is at the head of the conduit and his mother, brother and associates Tim Draper, Steve Jurvetson, and George Soros round out the other tentacles. With operational links through Wells Fargo Bank, Silicon Valley Bank and Goldman Sachs, the scheme is perfected corruption. The "bridge" uses a combination of fake tax evasion charities and business assets, passes through Senator's pockets and is never visible to the FBI, the FEC and the SEC unless they have very good agents assigned to the matter.

E.) NTSB, DOJ, SEC and FEC have been blocked from action by DNC lobbyists.

F.) The overt and arrogant Musk misdeeds have now become "obvious and RICO-violating..."

G.) He is protected by Senators Reid, Harris, Pelosi and Feinstein. They are beneficiaries of the scam. Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

H.) He is protected by the Clinton and Obama organizations along with most of the DNC. He finances these politicians via this scheme.

I.) The U.S. Dept of Energy (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for Fusion-GPS attacks on Silicon Valley business competitors.

J.) DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

K.) Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader.

L.) Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

K.) Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues.

M.) Musk has been professionally diagnosed as a 'psychotic narcissist'.

N.) Musk has publicly stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

O.) Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance buddy. They share an apartment.

P.) Musk uses shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

Q.) A huge number of Tesla drivers, per capita, have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

R.) The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.

S.) VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.

T.) Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills.

U.) There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Juvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.

V.) Main Stream DNC-biased News organizations who refuse to cover the story reveal themselves as shills for Musk.

W.) The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone.

X.) His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.

Y.) The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Z.) Musk holds the Silicon Valley record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.

A1.) Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

A2.) Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them.

A3.) <https://stopelonfromfailingagain.com> reveals even more Musk lies.

A4.) Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

A5.) Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation.

A6.) Musk's "Mars" scheme is just a PR distraction.

A7.) The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

A8.) Musk can't fix a car or build a rocket and has almost no mechanical skills.

A9.) If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections.

A10.) NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business.

A11.) Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.

A12.) Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.

A13.) The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX

A14.) Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.

A15.) Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!

A16.) All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

A17.) Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both companies.

A18.) Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.

A19.) The 'lithium' in Musk's horrifically miss-engineered lithium ion batteries cause wars in the Congo over mining corruption.

A20.) Afghanistan and Bolivian mobsters benefit from the corrupt mining deals involved with mining lithium and cobalt for Elon Musk's batteries.

A21.) Elon Musk's Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu and they engaged in extreme conflict-of-interest to help Musk.

A22.) Elon Musk's Lithium ion batteries excrete chemicals that mutate fetuses when they burn.

A23.) Elon Musk's Lithium ion batteries destroy your brain, lungs and nervous system when they burn.

A24.) Elon Musk's Lithium ion batteries kill the factory workers who make them.

A25.) Elon Musk's Lithium ion batteries cause Panasonic to be one of the most corrupt companies in the world.

A26.) Elon Musk's Lithium ion batteries poison the Earth when disposed of.

A27.) Elon Musk's Lithium ion batteries can't be extinguished by firemen because water makes them explode even more and then explode again hours later.

A28.) Elon Musk's Lithium ion batteries have chemical dendrites and deposition massing issues (revealed by X-Ray analysis) which makes them more and more likely to explode as they age.

A29.) Elon Musk's Lithium ion batteries poison firemen when they burn.

A30.) Elon Musk's Lithium ion batteries are based on criminally corrupt mining schemes like URANIUM ONE.

A31.) Elon Musk's Lithium ion batteries have over 61 toxic chemicals in them.

A32.) Elon Musk's Lithium ion batteries come from an industry that spends billions on internet shills and trolls that they hire to say all other forms of energy

A33.) Elon Musk's Lithium ion batteries are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

A34.) Apple products with lithium ion batteries have been exploding and setting people on fire.

A35.) Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other)

radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

A36.) Tesla owner's had more DUI's, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.

A37.) Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.

A38.) "Bad Guys" have figured out how to make Elon Musk's Lithium ion batteries explode remotely in devices by making the device electronics cause the batteries to overload.

A39.) The dangers of Elon Musk's Lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.

A40.) George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.

A41.) The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging.

A42.) United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.

A43.) There have been thousands of defect reports filed on Tesla cars.

A44.) Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

A45.) If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions".

A46.) Water makes Tesla batteries explode.

A47.) In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.

A48.) Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

A49.) Tesla Motors has caused far more deaths and injuries than the world generally knows about.

A50.) A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.

A51.) In Florida two kids died in a Tesla, burned alive, screaming in agony.

A52.) A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.

A53.) A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

A54.) There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

A55.) Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public.

A56.) Elon Musk's Lithium ion battery partners spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.

A57.) Lithium ion EVs are more prone to battery fires.

A58.) Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.

A59.) Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.

A60.) Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Another whistle-blower has suggested they were killed in a "Boston Brakes" hit-job.

A61.) The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

A62.) The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

A63.) They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

A65.) Musk buddies: Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.

A66.) Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.

A67.) Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

A68.) Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.

A69.) THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!

A70.) THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!

A71.) THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!

A72.) The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year.

A73.) Tesla again fell far short of its own production targets for the mass-market Model 3 sedan

A74.) Another person died in a crash involving its assisted-driving feature.

A75.) Musk entered into a public dispute with federal safety regulators.

A76.) Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September.

A77.) No one has raised or spent money the way Elon Musk has; Nor has any other chief executive officer of a public company made a bankruptcy joke on Twitter at a time when so much

seemed to be unraveling.

A78.) Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to data compiled by Bloomberg. Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2. Read the full story here: <https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>

A79.) In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.

A80.) One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.

A81.) Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.

A82.) Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.

A83.) Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the slower-than-expected pace of production means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported "net Model 3 reservations remained stable."

A84.) There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for "Full Self Driving" capability, for example—that Tesla thus far hasn't figured out or released to anyone.

A85.) Elon Musk cooked the books by emailing interested sales prospects and asked them to put a deposit down before each quarter ended so he could book their tiny deposits as fully transacted \$60K+ "sales" before each quarter closed.

A86.) Elon Musk and SpaceX are being sued by multiple employees for "lying about safety standards, safety records" and deadly safety defects.

A87.) The Elon Musk Tesla Money Laundering Board Of Directors is as full of fraud and corruption as Musk. Birds of a feather stick together and the Jurvetson, Draper, Musk, et al; clan of corruption runs deep. The Board of Directors can't operate their scam without the whole pack of thieves and liars in place. An outsider will break their swamp of tax evasion, Dark Money political bribes, off-shore cash, self-dealing, book-cooking, real estate fraud, expense padding and other nefarious deeds.

A88.) Dianne Feinstein's family member: Herb Newman of Sausalito, California's HR firm: Newman Search (415 332-8425) has a company as of 1972 with the sole purpose of setting up investment bank deals with the People's Republic of China. Feinstein arranged for Newman to provide the staffing for Tesla and Solyndra. Dianne Feinstein has been under investigation for spy activities with China and her senior aide was arrested as a Chinese top spy. In 1973 Mr. Newman arrived in Canton at the invitation of the Chinese Council for the Promotion of International Trade. (CCPIT). He and his company MVTG were one of fifty businesses to be invited to the Canton Trade Fair held in Kwangchow China. In 1978 Mr. Newman founded China Investments and in partnership with California Trade Delegations both companies as members of the San Francisco Chamber of Commerce began taking US Corporations to China. Mr. Newman along with one of his associates at the time Mr. Darryl Schoon helped organize Senator Dianne Feinstein's first trip to China in conjunction with the San Francisco Chamber of Commerce. Herb Newman, Mart Bailey and Feinstein's Husband; Dick Blum are on intelligence agency watch-lists, and under electronic surveillance, for potentially corrupt deals with China, Tesla and Solyndra.

A89.) Dianne Feinstein's husband owns CBRE which owns the real estate contracts for both Tesla and Solyndra.

A90.) Dianne Feinstein's family owns interests in the construction companies hired by both Tesla and Solyndra.

A91.) Dianne Feinstein had her staff warn other California businesses away from using the NUMMI car factory in order to protect the real estate deal for both Tesla and CBRE, which is owned by her husband.

A92.) Tesla began real estate deals in multiple states and then cancelled them at the last minute, which got them sued for fraud and charged with "lying" to different communities. They started, and then pulled out of these different building (San Jose, Southern California, New Mexico, Etc.) deals, because CBRE and Feinstein were trying to leverage real estate profit exploitation using taxpayer funding.

A93.) Panasonic and Tesla have known for decades that the Panasonic 18650 batteries used in the Tesla suffer from multiple chemistry degradation defects which will almost always make them eventually explode or "go thermal". The defects include: 1.) LENR activation, 2.) Dendrite lengthening, 3.) Particle congealing, 4.) Chemistry evolution and other defects. The Tesla projects is, essentially, a failed product dumping effort of a failed and dangerous battery product.

A94.) Elon Musk has demanded that his employees sign "loyalty pledges", "vows" and engage in Omerta's in order to keep the corruption details of Tesla from being exposed to the public.

A95.) Tesla insider Antonio Gracias is the mob boss insider at Tesla who arranges media hit-jobs on those who displease Musk.

A96.) The NHTSB has issued requests to Tesla for safety tests and data that Tesla never complied with. Instead, Tesla paid bribes, which were referred to as "fees" to avoid having to complete those tests. An independent group of outside investigators issued a damning safety report to the NHTSB demanding that Tesla be compelled to produce the safety tests in 2010 but Obama appointed NHTSB executives buried the report and protected Tesla in order to keep the connection between Obama's funding and Tesla protected. NHTSB boss: Strickland, an Obama insider, was confronted with this in Washington, DC and resigned from his job 48 hours later. NHTSB has still not acted on the severe Tesla safety defects that have been reported since 2009.

A97.) An SEC investigation of Musk uncovered horrific evidence of Musk corruption but the SEC could not report or act on it because Obama congressional bosses and lobbyists got the SEC investigation "limited" to only examine a single Twitter "Tweet" from Musk.

A98.) Elon Musk is protected by top DOJ, SEC, CFTC, FEC and other Obama left-over staff as well as 45 U.S. Senators and top Federal Reserve members and Goldman Sachs, who live in terror that exposure of the entire Elon Musk financial food-chain will topple the entire DNC Dark Money payola scam. This is the reason that Tesla can get away with so much obvious and overt corruption and still continue operations. Tesla Motors book-cooking, financial frauds and political payola conduits, if fully revealed, would change the course of political influence in America.

A99.) Elon Musk has been sued by a man that Musk called a "Pedo", yet Musk's own father has been accused of child sex abuse, racism and, indeed, got his own daughter pregnant!

A100.) Elon Musk's mother has been accused of being a "self-indulgent trophy wife" who Musk was trained by to be an arrogant elitist. Her hatred of black people was imbued on Musk who has been sued by black people at his company for "running a racist culture".

A101.) Elon Musk divorced the same woman twice because she knew his dirty little secret and threatened to out him if he did not keep the deal going. She was hired to "act" as his wife.

A102.) Musical artist Iggy Azalea was at a Musk Party, with other friends, who captured Elon Musk on video on drugs and in weird sex acts. Musk had Iggy's camera stolen at the party to hide the evidence but he did not get the other cameras and did not realize that some of those cameras placed their images and videos directly on the Cloud, where hackers acquired them.

A103.) With cover-up help from Eric Holder, Steven Chu, Obama, Valarie Jarret, DNC FBI agents, Perkins Coie, Covington and Burling, Wilson Sonsini, etc; sociopath Musk actually believes he is "untouchable" and that he can get away with anything. His downfall will be the same downfall of every narcissist sociopath oligarch throughout all of recorded history.

A104.) Elon Musk is a drug addict. A simple urine and blood test proves it. Musk's downfall and the downfall of John DeLorean are seeming to align.

Who is violating the law protecting Tesla by withholding investigations and prosecutions?

Why are they allowing American citizens to continue to die from the 1.) "sudden acceleration electronics defect"; 2.) "The failed Auto-pilot electronics defect"; 3.) "The deteriorating and deadly lithium ion batteries" and 4.) numerous other defects widely documented in the news media and filed lawsuits?

# Why Elon Musk is a really bad guy and why his business operation is a corruption scam

By Former Tesla Staff

You may have run across Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype but here is the other side of the coin. We know these facts from personal interaction with Musk, his companies and his politicians. Everything in this letter can be proven in a jury trial, Congressional hearings or live TV debates. Musk will do anything to keep this information from getting out but... it is too late for him! While this may sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.

Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.

Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills. There are no 'Tesla Fan Boys'. All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs. Main Stream News organizations who refuse to cover the story reveal themselves as shills and are then targeted for bankruptcy (ie: Time, Gawker, etc.) because they serve no public service.

The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.

The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them. <https://stopelonfromfailingagain.com> reveals even more Musk lies.

Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation. Musk's "Mars" scheme is just a PR distraction.

The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills.

If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections. NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business. Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.

Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX and Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.

Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both.

Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.

Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners. Let's take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries:

His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu. Lithium ion batteries excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

Apple products with lithium ion batteries have been exploding and setting people on fire. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

Tesla owner's had had more DUIs, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.

Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.

"Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN. George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. There have been thousands of defect reports filed on Tesla cars.

Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions". Water makes Tesla batteries explode. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.

Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading owner-ships.

Tesla Motors has caused far more deaths and injuries than the world generally knows about. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.

THIS corruption is what all of the big political scandals are about today!

THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!

THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!

THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!

THIS can all be proven in jury trial and in live televised Congressional hearings!

There is so much more to reveal but you get the picture.

This is all being covered up because top State and Federal officials are in on it, own the stock in it and are so deeply involved in it that they could go to Federal prison when this all comes out.

This is Part 1. There is more to be released. Show this document to the United States Senate and see what they say about all this..."

A complete guide to how Elon Musk has raised, and then spent, billions of dollars, mostly from your tax money and pension funds.

The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year.

The anxieties that lurk beneath the tremendous ambition of Tesla Inc. moved into the forefront in recent weeks. The company again [fell far short](#) of its own production targets for the mass-market Model 3 sedan, another person [died in a crash](#) involving its assisted-driving feature and Musk entered into [a public dispute](#) with federal safety regulators. Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September.

There's a good reason to worry: No one has raised or spent money the way Elon Musk has. Nor has any other chief executive officer of a public company made a [bankruptcy joke](#) on Twitter at a time when so much seemed to be unraveling.

Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to [data compiled by Bloomberg](#). Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2.

**Read the full story here:**

<https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>

In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.

A lot of Musk's money has been extracted from suckers, who think he is God's gift, as Bloomberg report:

One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.

Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.

Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.

Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the [slower-than-expected pace of production](#) means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported "net Model 3 reservations remained stable."

There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for "Full Self Driving" capability, for example—that Tesla thus far hasn't figured out or released to anyone.

The consumer psychology that sees hundreds of thousands of people essentially extending an interest-free loan to a public company is unusual, to say the least. Consider the devotion of Bruce Sidlinger, a 60-year-old aerospace engineer who lives in Flagstaff, Arizona: "The morning after the Roadster was announced, I put a deposit down. Putting down \$50,000 for a Roadster that won't be out for a few years is kind of like buying a bond that returns zero. Elon Musk is one of our planet's great hopes. I would offer a kidney to him if he needed it."

Keep in mind that Sidlinger already owns both a Model S and a Model X. He drove across the country to Florida earlier this year in a car made by one Musk company so he could watch a rocket made by another Musk company take flight for the first time.

I think the phrase "more money than sense" rather sums it up

A landmark legal case has been launched against the world's largest tech companies by Congolese families who say their children were killed or maimed while mining for cobalt used to power smartphones, laptops and electric cars, the Guardian can reveal. Apple, Google, Dell, Microsoft and Tesla have been named as defendants [in a lawsuit filed](#) in Washington DC by human rights firm [International Rights Advocates](#) on behalf of 14 parents and children from the Democratic Republic of the Congo (DRC). The lawsuit accuses the companies of aiding and abetting in the death and serious injury of children who they claim were working in cobalt mines in their supply chain. The families and injured children are seeking damages for forced labour and further compensation for unjust enrichment, negligent supervision and intentional infliction of emotional distress. It is the first time that any of the tech companies have faced such a legal challenge. Cobalt is essential to power the rechargeable lithium batteries used in millions of products sold by Apple, Google, Dell, [Microsoft](#) and Tesla every year. The insatiable demand for cobalt, driven by desire for cheap handheld technology, has tripled in the past five years and is expected to double again by the end of 2020. More than 60% of cobalt originates in DRC, one of the poorest and most unstable countries in the world. Aerial view of the Kasulo neighborhood of Kolwezi. In the first picture, taken May 2016, there are just residential houses. By May 2019, Congo DongFang International Mining (a subsidiary of Chinese company Huayou Cobalt) have built a mining site, with a walled perimeter and processing buildings (in blue). The pink tarps cover tunnels used for mining. The extraction of cobalt from DRC has been linked to human rights abuses, corruption, environmental destruction and [child labour](#). The lawsuit argues that Apple, Google, Dell, Microsoft and Tesla all aided and abetted the mining companies that profited from the labour of children who were forced to work in dangerous conditions – conditions that ultimately [led to death](#) and serious injury. The families argue in the claim that their children were working illegally at mines owned by UK mining company Glencore. The court papers allege that cobalt from the Glencore-owned mines is sold to Umicore, a Brussels-based metal and mining trader, which then sells battery-grade cobalt to Apple, [Google](#), Tesla, Microsoft and Dell. Other plaintiffs in the court documents say they worked at mines owned by Zhejiang Huayou Cobalt, a major Chinese cobalt firm, which the lawsuit claims supplies [Apple](#), Dell, and Microsoft and is likely to supply the other defendants.

In the court documents, the Congolese families describe how their children were driven by extreme poverty to seek work in large mining sites, where they claim they were paid as little as \$2 (£1.50) a day for backbreaking and dangerous work digging for cobalt rocks with primitive tools in dark, underground tunnels.

The families claim that some of the children were killed in tunnel collapses while others were paralysed or suffered life-changing injuries from accidents. [One plaintiff – named Jane Doe 1 – says in the court papers that her nephew was forced to seek work in the cobalt mines when he was a small child after the family could not continue to pay his \\$6 monthly school fee. The lawsuit claims that in April last year he was working in a mine operated by Kamoto Copper Company, which is owned and controlled by Glencore. He was working underground in a tunnel, digging for cobalt rocks, when the tunnel collapsed and he was buried alive. His family say they have never recovered his body.](#)

Another child, referred to as John Doe 1, says that he started working in the mines when he was nine. The lawsuit claims that earlier this year, he was working as a human mule for Kamoto Copper Company, carrying bags of cobalt rocks for \$0.75 a day, when he fell into a tunnel. After he was dragged out of the tunnel by fellow workers, he says he was left alone on the ground at the mining site until his parents heard about the accident and arrived to help him. He is now paralysed from the chest down and will never walk again.

Other families included in the claim say that their children were killed in tunnel collapses or suffered serious injuries such as smashed limbs and broken spines while crawling through tunnels or carrying heavy loads. The families say that none were paid any compensation for the deaths and injuries.

One of the central allegations in the lawsuit is that Apple, Google, Dell, Microsoft and Tesla were aware and had "specific knowledge" that the cobalt they use in their products is linked to child labour performed in hazardous conditions, and were complicit in the forced labour of the children.

The families argue in the court papers that all companies named as defendants entered into commercial "ventures" with the mining companies operating in DRC, and all gained significant financial advantages from the widespread illegal mining of cobalt by children, which continues to enter global supply chains.

Photograph: Siddharth Kara The court papers claim that Apple, Dell, Microsoft, Google and Tesla all have the authority and resources to supervise and regulate their cobalt supply chains and that their inability to do so contributed to the deaths and injuries suffered by their clients. A spokesperson for Glencore said: "Glencore notes the allegations contained in a US lawsuit filed on 15th December 2019. "Glencore supports and respects human rights in a manner consistent with the universal declaration of human rights.

"Glencore's production of cobalt in the DRC is a by-product of our industrial copper production. Glencore's operations in the DRC do not purchase or process any artisanally mined ore.

"Glencore does not tolerate any form of child, forced, or compulsory labour."

Huayou, Apple, Google, Dell, Microsoft and Tesla have also been approached for comment.

### THE BOTTOM LINE ON ELON MUSK:

#### The facts are:

- That an organized crime program exists between Silicon Valley tech oligarchs, investment banks, U.S. Senators, government agency staff and White House staff to engage in these crimes.

- That public officials knowingly participate in these crimes by failing to report their associates who engage in these illicit actions and by hiring suppliers who operate these illicit activities.

- That the suspects manipulate government funds for their personal profiteering at the expense of domestic citizen taxpayers like us.

- That the suspects operate a vast stock market manipulation program, as a core function of their operations, and those illicit deeds function at the expense of the public to render unjust gain to public officials.

- That the suspects contract a known group of lobbyists, corrupt law firms, unethical CPA's, corrupt investment banks and specialized corruption services providers to attack, defame, physically harm, character assassinate, black-list and/or kill those they dislike and they harmed us with those acts.

- That the suspects operate an Epstein-like sex-trafficking network of prostitutes and sexual extortion activities and locations for the engagement of said activities and for the bribery of cohorts via sex workers.

- That the suspects engage in electronic attacks and manipulations including hacking, election manipulation, media censorship and internet search results manipulation in order to mask their schemes.

- That the suspects engage in Lois Lerner-like, SPYGATE-like, VA whistleblower-like reprisal and retribution attacks using government agencies like SSA, DOJ, FBI, LSC, HUD, HHS, DOE, Etc.

We demand that Elon Musk be arrested on RICO Racketeering, Anti-Trust, Tax Evasion, Bribery, and related charges!

**What a twisted, raging, sick pervert, narcissist, vengeful, anti-competitive, monopolistic, Goldman Sachs sucking, hit-man hiring mobster!**

--- The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been

completed.

--- Elon Musk, Larry Page, Steve Jurvetson and Jared Birchell hire Ex-CIA losers right after they are fired by the CIA, or directly from IN-Q-TEL or from Fusion GPS, Media Matters and other CYBER ASSASSIN KILL SERVICES. They send their hit men after competitors, reporters, ex-employees and whistle-blowers because they chose to CHEAT RATHER THAN COMPETE! --- Elon Musk's "Twitter Purchase" is just a scam to sell his Tesla stock without the SEC or his old investors noticing: THEY NOTICED!

--- Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources!

--- We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on our application were getting quid-pro-quo... they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects.

--- Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another.

--- Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess.

--- Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to.

--- Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it.

--- We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try.

--- Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up.

--- The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds.

--- Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors.

--- Musk is the POSTER BOY OF WHITE ANTI-BLACK PRIVILEGE

--- He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax money to help him buy his mansions, startlets and sex parties.

--- He pays women for sex and pays other women not to disclose that he tried to sexually extort them. He paid Amber Heard at least \$500K for sex, paid his stewardess \$250K to report his sex abuse of her, and has a provider service via a layer of insiders.

--- His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions.

--- Space-X is just a domestic spying company. Don't buy Musk's bullshit about Space-X doing any good deeds. Everything Space-X launches is to spy on the poor folks on the ground and monitor their internet. Also, Musk's Neuralink company tortures small animals to try out Musk's pseudo-science mind-reading chips.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook - Meta - Google - Alphabet - Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS - Black Cube - Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

--- THESE CARS BLOW-UP AND RELEASE POISON SMOKE THAT WILL POISON YOU, YOUR FAMILY AND YOUR FETUS!!!!!!

--- THE VAMPIRE POWER DEFECT: Your Tesla will suck more power than it needs in order to try to charge itself. A huge bunch of Tesla charging cords set themselves on fire. IF YOU WANT YOUR HOME OR OFFICE TO BURN DOWN, THEN PARK YOUR TESLA INSIDE IT.

--- TESLA HAD to POWER DOWN all of their cars because they blow up when charging. THIS MEANS THAT THE CAR THAT WAS ADVERTISED IS NOT THE CAR THAT YOU BOUGHT! BECAUSE OF TESLA'S BAD ENGINEERING, ALL OF THEIR CARS HAD TO HAVE ADDED SAFETY SHIELDS AND POWER REDUCTION AFTER-MARKET PROGRAMMING TO DETUNE THEM.

--- TESLA'S GO OUT OF CONTROL ALL OF THE TIME AND CRASH

--- HORRIBLE DEFECTS: Not everything is unicorns and rainbows when it comes to an electric vehicle, and Tesla (undoubtedly) has a few kinks to work out. However, some of these flaws have seemingly been ignored or swept away from the public eye. There are some things that are never openly admitted or speculated about Tesla vehicles, yet we harshly criticize run-of-the-mill autos with ease. Out of fairness—and for potential buyers, necessity—we should take a look at a few of the complaints that current owners have raised about these beloved EVs.

--- **AWFUL BUILD QUALITY:** If you have ever experienced difficulties with a Tesla, firsthand, then you probably know better than anyone how pricey repairs can become if they're not covered by a warranty or insurance. This explains why insurance premiums are so high for these vehicles. However, the truth of the matter is that even if you're not paying to replace those parts, they are much poorer quality than we're all led to believe. If Tesla's parts were, in fact, of great quality, then we wouldn't have freak issues such as bolts rusting off after a mere few years of ownership, or falcon doors constantly misaligning themselves. Not everything on a Tesla is inherently low-quality, but Tesla is certainly cutting corners. The durability shows in the longevity of the parts and by how early rattling, squeaking, and other common problems seem to surface.

--- **HORRIBLE SPEEDOMETER PLACEMENT:** The golden rule we're all taught in driving school is to keep your eyes on the road. This is, obviously, why police have been cracking down on drivers who use handheld electronic devices while driving. You would expect that a carmaker would probably build a car with safety in mind and take things like this into consideration during the design process. But technology comes first for Tesla. Their (controversial) touchscreen is also the home for the speedometer, which on the edge of the driver's peripheral vision, which means that they have to look away from the road in order to see what speed they're going. It's not necessarily the biggest problem, at least in hindsight, but it can become a dangerous feature for the unsuspecting. Still, the feature is shared with the Mini Cooper, including the electric Mini Cooper SE.

--- **INSANELY EXPENSIVE TO REPAIR:** Part of the appeal of buying something expensive is the expectation that it will save you money in the future. But Tesla has earned a spot in the hall of fame for overpriced vehicles, and that doesn't just apply to the sticker price but also takes into account all the maintenance costs that plague owners. Even though the Tesla's don't need oil changes, spark plug replacements, or oil filters, Tesla recommends drivers invest in their maintenance plans that include a thorough inspection of the vehicle every 12,000 miles. The prices vary based on the year and model of the car, as well as which specific plan the driver chooses, but standalone inspections range anywhere from \$475 to \$750 per visit (not including repairs). A four-year maintenance plan is around \$2,500. Needless to say, you'll need to have a good chunk of change set aside for these evaluations. Issues extend to tires and poor suspension, and yes, we will certainly mention the battery.

--- **EXTENSIVE STEERING FAILURES:** It's true that Teslas tend to carry a bit of technological baggage with their state-of-the-art devices. Most of it is just annoying more than it is dangerous, but rest assured, Tesla has also managed to squeeze in a few mechanical problems as well. They've been much less common than the cosmetic flaws but can have life-threatening outcomes. A few new Tesla owners have experienced problems with the steering wheel locking up while turning. Not only will you see your life flash before your eyes, but you may be dismayed to find out that several weeks of repairs are typically involved since it's not an issue that Tesla has completely resolved. This is before we even bring to light the new "yolk" steering wheel in the Model S Plaid.

--- **YOU CAN NEVER GET YOUR CAR BACK FROM THE SERVICE CENTERS:** Speaking of car troubles, Tesla dealerships are so sparse that many owners are forced to plan out their trip to the service center much more thoroughly than the average driver would. Unfortunately, the plight with their new Tesla's can sometimes be uncharted territory for mechanics—this is a relatively new technology, after all—so it may take several days, and sometimes even weeks, before owners get to see their cars again. What's worse is that many of these technical difficulties aren't fully resolved during the first visit. Like we've said before, there isn't much knowledge on electric vehicles and technicians may not be as familiar with the problems that plague these vehicles, primarily because a Tesla operates more like a computer than it does an old gas guzzler.

--- **TESLA CARS SPY ON YOU:** Teslas are incredibly connected... to the point that they're able to (potentially) predict when you plan to drive them and what routes. Elon hasn't been known for respecting privacy and his first company, PayPal, has even been in lawsuits for it. All respect to his technological advancement, but consider what a man creating a chip for your brain is trying to do with your car! Face recognition, video sharing with or without consent, and Tesla monitoring your driving history and patterns are all open for discussion and unless you dig really deep or have a law degree, you might not be safe. If you're a criminal or just worry about being watched, this is one of the last bit of tech pieces you would want. Some have even raised red flags over issues of hacking Teslas for a new world of issues.

--- **THE EMERGENCY RELEASE WILL SCREW YOU:** It may seem like a nitpick (and it is) but the terrible placement of the emergency handle is also a potential threat to the car and therefore, it's a necessary point to bring up. Since Tesla's vehicles don't have your average door handle and everything in the car is electric, the manufacturer was witty enough to install an emergency handle on the interior to prevent passengers from getting trapped inside. There's just one little flaw with this idea: the placement. Since new passengers aren't used to the high-tech vehicle, they tend to go for the emergency handle instead of using the standard electric button that opens the door. This is an honest mistake since the emergency handle is near where a door handle normally would be, but if it's pulled too often it can and will crack the window. And that's the last thing any Tesla owner wants to deal with.

--- **DEADLY BLIND SPOTS:** Another feature that is seen in many modern-day vehicles (electric or not) is blind-spot detection. This is a nice touch to have and is practically expected on a high-end vehicle these days. The only thing that separates Tesla from other manufacturers that are employing blind-spot detection is the placement of the detector. Similar to the difficulty that people have seeing the speedometer, the blind-spot detection doesn't alert drivers of a threat on the side-view mirrors like most vehicles do. Instead, a notice pops up on the touchscreen. A lot of people have something against the touchscreen and, while we don't find it to be all bad, there are instances such as this one when it's understandable why it can become a nuisance. If every feature is integrated into the touchscreen, it seems like the entire car revolves around a mounted iPad.

--- **BAD COSMETIC DETAILS:** Have you ever bought something nice only to have it experience defects shortly after? If you've put a good amount of cash into it, it's not only inconvenient but also extremely frustrating. Proud Tesla owners have been extremely let down to find that their overpriced electric vehicle has scratches all over their car and bulges in the windshield. These unfortunate Teslas were born with cosmetic defects from the factory. Clearly, the newbie manufacturer hasn't been able to get the assembly process down yet. Waiting out the initial wave of manufacturer defects would be wiser than jumping on a waiting list for the latest and greatest model.

--- **ZERO FUTURE PROTECTION:** Except Tesla and Rivian, there have been no major car manufacturers to emerge in almost 100 years. Naturally, this doesn't include off-shoot luxury brands or foreign brands that were bought out. Tesla respectably came from the ground-up in the 21st century on its own. That being said, it doesn't have a long carefully-recorded history of reliability, work ethic, or quality control, and it shows hard. Besides body gaps that range from dog doors to atomic fusion, the real longevity of a Tesla is almost entirely unknown. The used market for a Tesla is not great to begin with, but with the emergence of high battery replacement costs, how the old Teslas hold up is a big fat question mark. New rules and restrictions like to speed or features can be turned off without your consent remotely at the whim of a the bureaucrats.

--- **VERY UNSAFE WHEEL DESIGN:** There are some things that you never know about a car until you personally own it. And, to be fair, owners tend to critique their own cars harshly. A common nitpick with the Tesla Model 3 is the obnoxious fact that it comes with all-terrain (otherwise known as, 'all season') tires. Many Model 3 owners dislike this because they want more performance-oriented tires. Not to say that it's not a smooth ride—it has received incredible reception for that alone—but if it was included with performance tires, the experience could be enhanced tremendously. The shared belief among many owners (specifically, those who don't need winter tires) is that all-terrain tires should be something that a buyer can purchase on their own if they happen to need them.

--- **BATTERY REPLACEMENT IS A NIGHTMARE:** Along with the sketchy aspect of having an electric vehicle, there's also a major setback on the cost to repair it as well. While a charge may not be so pricey, the cost to replace any of the parts on a Tesla can really become a burden. For instance, if you had to buy a new battery for a Model 3, the base would cost around \$9,500 (on the low end) and the extended-range battery would come close to \$16k. Sadly, that's as much as a used car (maybe even a few). There's a domino effect with these overpriced repairs as well, as the price to insure a Tesla tends to be more than the average vehicle. The high rate of accidents in Teslas is partly to blame, but their expensive repairs are no help.

--- **THERE ARE NO DEALERSHIPS AROUND TO HELP YOU:** Tesla has just recently begun opening service centers in areas with a large amount of foot traffic, but the idea of dealerships is a concept of the past for Tesla. Following a completely different business model from the traditional car manufacturers, Tesla sells its cars directly to its customers through their own small, intimate stores. This allows Tesla to educate the customers on what exactly they're getting into with an electric vehicle and to choose precisely how they'd like their car to look. Of course, it takes months for customers' vehicles to be delivered, but this still allows them to get exactly what they want. It also means that Tesla makes money off of their cars, while traditional dealerships make money from their service departments. The drawback for a Tesla owner is that these are located, largely, in metropolitan areas and so are the service centers. Unlike traditional dealerships that are in every town, Tesla selects store and service center locations based on foot traffic.

--- **TESLA STILL COSTS MORE THAN A GAS CAR AND IS WORSE FOR THE ENVIRONMENT:** Even though Tesla has managed to bring down the customer's cost of a vehicle by cutting out dealerships altogether, they're still pretty pricey. Many of Tesla's major competitors have a bit of an edge by offering vehicles that aren't 100% electric, which is an appealing point for many buyers, but they're also less expensive. The base Chevy Volt, for instance, is cheaper than Tesla's base Model 3. Less people are as willing to go for the Model S purely because they have no desire to have an electric vehicle that revolves around performance. For many, the price just isn't worth it, not when the battery will need to be replaced in a matter of a few years (depending on use). This goes hand-in-hand with the cost of Tesla's parts because consumers don't want to spend a lot of money on a car that will also be pricey to depend on the road.

--- **TESLA'S AUTOPILOT CAN KILL YOU:** Tesla's autopilot has been known to get people in trouble, napping, reading, and working on the freeway. The fact is, there's still no legal protection for someone to sit down and be driven away. Though Tesla gets close with tools like "tow mode," allowing for an empty car to follow another Tesla with some limitations. Legally you still need to keep your hands on the wheels and be alert, despite the statistically safer autopilot driving and advancements in technology. While a truly autonomous car would open up a new world: safe transport for the elderly, fewer fatalities, easier commutes, and the like, we may be a few major traffic law changes away from that world, and Tesla can't change that yet.

--- COLD WEATHER KILLS YOUR TESLA: There are so many common glitches that go on with a Tesla that drivers have become paranoid of serious troubles, especially anything involving that precious battery. If you haven't tested one out in cold weather, don't be alarmed at that slow acceleration, it's normal. Yep. If you buy a \$35,000 (and up!) vehicle, you can expect that the cold air will affect the battery just like it would any other vehicle. But cold prevents the battery from regenerating as quickly as it typically would, which limits the driver's ability to move faster. It sounds simple in retrospect, but it can be a frightening few minutes for a Tesla owner to discover their car is having trouble moving quickly.

--- ACCELERATION SURGE DEFECTS WILL KILL YOU: Contrary to what Elon Musk has claimed on social media, Tesla has been accused of having a fatality rate that's more than triple what you see in luxury vehicles. Musk claims that Tesla's are the safest vehicles on the road, which is either an ill-researched claim or a blatant lie on his part. Since his stats are based on vehicle miles (rather than vehicle years) it leads you to an inaccurate conclusion, and we don't actually know how many miles these vehicles have traveled, and this also leaves out passengers. After thorough research, many of the Tesla accidents weren't even properly coded, meaning that Musk's claim leaves out several accidents within the US and other countries (such as China) that have higher accident rates. Really, this could all be because of accident-prone drunk Tesla owners who are, mostly, drunk douche bags.

--- CONSTANT RATTLING NOISES: The little things in life shouldn't bother you, but when it's an incessant rattling noise in your brand-new luxury car, those little things can be difficult to ignore. There's a common problem with Teslas experiencing rattling in several areas of the cars. Owners have taken their cars to service centers numerous times for this issue but a very rare few have seen the annoyance resolved. In fact, a few have even documented their experience online, while some have even received their car from the service center only to discover that the rattle has not gone away plus there is a new one! It shouldn't be blown out of proportion, but the fact of the matter is that consumers have put a lot of their money into these cars and they expect a decent level of quality so if problems occur then some resolutions would be nice.

--- TESLA SOLAR STUFF IS NEVER IN STOCK: Lesser known than Tesla's famed electric vehicles is the Solar Roof and Powerwall. As the names imply, these are solar panels that store energy that is even cleaner for the car to run off of. Just two years into this accessory, though, sales have dropped over 70% from their peak. The Powerwall 2 is said to lose 70% of its efficiency after 10 years and solar tiles are close to \$42 per square foot, which is part of why most consumers steer clear. Investors aren't extremely pleased with the outcome of SolarCity's products (which Musk has endorsed with open arms), but the signs were written on the walls, as it were. If solar panels were cheap enough for everyone to afford, wouldn't we all have them on our houses? Since they don't even have a guaranteed longevity, consumers generally feel that the Powerwall and Solar Roof are simply not worth it. In the home solar markets, even if consumers beg for the still "available" Powerwall or new shingle-replacing solar roof, it's almost guaranteed they won't be able to find or get any of them anywhere!

--- TESLA CUSTOMER SUPPORT JUST SUCKS: The underworld of the customer service department is dreaded by customers of just about any major corporation. No customer wants to call in and get passed around from rep to rep and robot to robot. You'd think that Tesla would have come up with a more efficient way to handle their 'valued' customers' problems and have a decent customer service team. That's wishful thinking, though. If you need any help, particularly with SolarCity's products, then you can forget ever getting through to anyone the first time. Attempting to get ahold of the 'right' representative is a game of cat-and-mouse, and you'll have a pretty challenging time catching them in a spare moment (when they can actually speak, at all).

--- TESLA IS ALWAYS ON THE VERGE OF BANKRUPTCY: While it's no secret that Tesla has struggled with sales, it raises a few questions about what that means for the future of the corporation. We don't really know how close Tesla truly came to going under, seeing as how Elon Musk has repeatedly glossed over Tesla's issues instead of being frank about things (e.g., the SolarCity investments, accident rates, etc). So, Musk's exasperated croaks of how Tesla nearly went bankrupt almost sound like the boy who cried wolf, at least from an outside perspective. If Musk is being honest about the company's financial struggles, then the future looks bleak. Scraping by when the economy is relatively stable is not a good sign for a new car company, and what happens when those battery costs skyrocket? No one is going to be willing to pay more than \$40k for a base Model 3.

--- TESLA CARS HAVE AWFUL BODY PANEL GAPS: You don't have to give a Tesla, specifically the Model 3, a thorough inspection to notice that there's an insane amount of space between the body in some parts and less in others. It's not an overly invasive issue, but when you're paying around \$35,000 for a car, there are a few minimum expectations that should be met. One of those is definitely a clean look. Each of the Tesla models has perfectly executed an aerodynamic style, with concealed handles and sleek lines, which makes the gap that much more noticeable to anyone who happens to glance in the direction of a Model 3. Since Tesla factory workers have been killing each other in Tesla's parking lot in Fremont, you can't expect too much from them.

--- DEADLY TESLA DOOR HANDLES: One of the most notable characteristics of every Tesla is their futuristic door handles that pop out with ease. The higher-end models have nice, metal handles with chrome finishes. However, if you happen to compare, say, a Model S to a Model 3, you'll immediately notice the lack of strength behind the latter's handles. Not only are the door handles on the Model 3 thinner, but they seem to be made with inferior materials to the higher-tier models. There have even been a few people who have had the door handles freeze to the car, leaving them unable to get inside. We have to note that there hasn't been a plague of door handle issues, so this isn't an official defect, but it's more of a cosmetic problem that could become a mechanical one in the future.

--- TESLA CARS ADD AWFUL INCONVENIENCE TO YOUR LIFE: The naive car buyer is often led to believe that electric cars are all ponies and rainbows. However, many manufacturers acknowledge that we have yet to get everything down to a science. Plus, there's a learning curve for those new to EVs, which is why most semi-electric cars are still able to be powered with gasoline. The serious drawback with a Tesla is the lack of a safety net should the battery run dead. Jumper cables are entirely out of the question, which is why owners of EV's get anxiety on road trips and long-distance commutes. The remaining range can be inaccurate, potentially leaving a driver stranded if they don't judge their car's abilities correctly.

--- TESLA'S ALL LOOK ALIKE AND ARE NOW RUN-OF-THE-MILL: Although this isn't much of a shock at all, little fail to recognize the total lack of variety that's offered in the Tesla fleet. Of course, the higher-end models have prettier finishes and tend to look nice no matter what, but each and every Tesla is almost identical. This is obviously the case with everyday run-of-the-mill vehicles as well, but that's sort of the point, isn't it? If you're spending a good chunk of change to claim that over-hyped Tesla as your own, wouldn't it be nice if you at least had a decent amount of options to truly make it feel like your own? For what you're paying, it seems like there should already be a plethora of options.

--- ABOVE ALL ELSE: Tesla's battery system is the worst designed, most deadly, awful power system in history! IT WILL KILL YOU AND BURN YOUR FAMILY ALIVE, LIKE IT HAS DONE TO MANY TESLA VICTIMS ---Also see the additional Tesla issues, above, involving 'rare earth mines', 'lithium battery dangers', 'Elon Musk's constant use of "hit-men" and character assassins' to destroy competitors and reporters, the vast racism and women abuse and the dead workers poisoned in his battery factories around the globe.

Any issues re: culpability can be easily resolved in meetings with the FBI, FINCEN, The SEC, The IRS, The FTC, ICIU.ORG and open Congressional hearings! Never was the term: "Follow The Money" more appropriate than for these people! Why are these people not yet arrested for election manipulation, RICO and Anti-trust violations, money laundering, bribery and other illicit deeds? Who is protecting them? Who is telling the police not to act? This list also serves as a demand for investigation and prosecution of these individuals who conspired to engage in these illicit acts. This is not the complete list.

**TAKE A LOOK AT THESE CONNECTIONS... ALL OF THESE ISSUES, IN ALL OF THESE VIDEOS, ARE CONNECTED TO THE SAME EXACT BUNCH OF BAD GUYS... ALL OF THESE VIDEOS ARE ISSUES CREATED BY THIS ONE GROUP OF CORRUPT POLITICIANS AND BIG TECH OLIGARCHS!**

**CONGRESS WON'T SHUT THEM DOWN BECAUSE CONGRESS GETS PAID BRIBES BY THESE CROOKS:**

#### ### FACEBOOK – ISSUE BULLET POINTS

Regarding Facebook, the issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking. This entity is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them. For more about Facebook - Meta's crimes against society, see: [https://en.wikipedia.org/wiki/Criticism\\_of\\_Facebook](https://en.wikipedia.org/wiki/Criticism_of_Facebook)

#### ### SPACEX – ISSUE BULLET POINTS

SpaceX is another Elon Musk ego trip vanity project. His rockets blow up. His staff sues him for sexual and racial abuse. His only income from SpaceX is for launching spy satellites that spy on citizens. His 'STARLINK' media service is just a propaganda controlled privacy harvesting system. His satellites clog up the sky for astronomers, pollute the weather, screw up other communications, are war tools, fall out of the sky and are unregulated. Musk and his SpaceX people have no idea what they are doing according to every major NASA employee. Their satellites are easily hacked and every major foreign nation has those satellites targeted to be shot down as soon as war breaks out. Musk's scam story about "colonizing Mars" is just a PR smoke-screen to hide the fact that all SpaceX does is privacy abusing spy satellites! The guy that created the largest online drug and murder-for-hire network did it at SpaceX. Elon Musk has no idea how a rocket actually works. SpaceX Rockets have blown up more than any other rocket company and destroyed billions of dollars worth of nature, atmosphere, carbon burn and technology. One SpaceX rocket launch creates more atmospheric damage than 2000+ chimney fires. - Google's David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds

There is no doubt about whether Google has the ability to control voters. In laboratory and online experiments conducted in the United States, we were able to boost the proportion of people who favored any candidate by between 37 and 63 percent after just one search session. The impact of viewing biased rankings repeatedly over a period of weeks or months would undoubtedly be larger. In our basic experiment, participants were randomly assigned to one of three groups in which search rankings favored either Candidate A, Candidate B or neither candidate. Participants were given brief descriptions of each candidate and then asked how much they liked and trusted each candidate and whom they would vote for. Then they were allowed up to 15 minutes to conduct online research on the candidates using a Google-like search engine we created called Kadoodle. Each group had access to the same 30 search results—all real search results linking to real web pages from a past election. Only the ordering of the results differed in the three groups. People could click freely on any result or shift between any of five different results pages, just as one can on Google's search engine. When our participants were done searching, we asked them those questions again, and, voila: On all measures, opinions shifted in the direction of the candidate who was favored in the rankings. Trust, liking and voting preferences all shifted predictably. More alarmingly, we also demonstrated this shift with real voters during an actual electoral campaign—in an experiment conducted with more than 2,000 eligible, undecided voters throughout India during the 2014 Lok Sabha election there—the largest democratic election in history, with more than 800 million eligible voters and 480 million votes ultimately cast. Even here, with real voters who were highly familiar with the candidates and who were being bombarded with campaign rhetoric every day, we showed that search rankings could boost the proportion of people favoring any candidate by more than 20 percent—more than 60 percent in some demographic groups. Given how powerful this effect is, it's possible that Google decided the winner of the Indian election. Google's own daily data on election-related search activity (subsequently removed from the Internet, but not before my colleagues and I downloaded the pages) showed that Narendra Modi, the ultimate winner, outscored his rivals in search activity by more than 25 percent for sixty-one consecutive days before the final votes were cast. That high volume of search activity could easily have been generated by higher search rankings for Modi.

The Silicon Valley "venture capital" offices on Sand Hill Road in Palo Alto, right above the Stanford University campus, work together to decide how they will manipulate elections in a way that will give them the most profits and power. They then tell the bosses at Google, Facebook, Netflix and the other big tech companies that they finance, how to manipulate the media message (with a little help from their CIA advisors at In-Q-Tel), to make the public perceive the left wing message that they want. Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and law enforcement officials to hold off prosecution. At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergey Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done. Between all of the sex cult activity; hookers; rent boys; political bribes to Pelosi, Harris, Newson, and Feinstein; DDoS attacks they run; CIA and NSA stealth deals; privacy harvesting; Scientology-like employee indoctrination; cheap Asian labor; covert Axiom scams and other illicit things they get up to; one just has to wonder. ### ### BROTOPIA RACISM AND MISOGYNY IN BIG TECH -- ISSUE BULLET POINTS

In California, elite arrogant asshole dynasties send their kids to Stanford University. Stanford puts the kids in asshole frat houses to train them to get away with rape and run monopolies. When they graduate they either go up the hill to Sandhill Road and start a venture capital clone operation or they get their frat friends on Sandhill Road to racketeer-fund their start-up or political campaign using money scammed from your parents pension funds. They only work with their frat buddies and insiders in a tribal 'old boys club' manner. They steal all the technology and markets they want because they control all of the tech lawyers and politicians via bribes and revolving doors. Most of the money in Stanford University bank accounts is from Foreign and Hollywood oligarchs delivered as bribes meant to get their snot-nosed brats into Stanford. Stanford bosses keep all of this covered-up and covertly fund political campaigns to grease the wheels of political corruption. They then sexually extort some Stanford interns in Rosewood Hotel rooms, get the most 'trophy wife' ones pregnant, and start the cycle all over again. Alas, Stanford is the training ground for abuse, corruption and 'Bro-Crime'. The issues, that the public and the news media have complained about include: producing child suicides, racism, misogyny, child mental health threats, domestic spying, data harvesting, sex trafficking, election manipulation, tax evasion, Fusion GPS/Media Matters/ Black Cube hit jobs on competitors, censorship, contrived market monopolization, intellectual property theft, political bribery and many other social crimes! An unusually large number of their staff have been arrested for, or charged with, sex crimes, including under-age trafficking. This entity is one of the largest operators of bribes to public officials. Some of those bribes include billions of dollars of, non-FEC reported, search engine rigging for the political campaigns of the very politicians who are supposed to regulate them. For more read Emily Chang's book: **BROTOPIA**.

### ### SENATOR INSIDER TRADING -- ISSUE BULLET POINTS

The corruption is easy to prove with a simple spread-sheet but the corrupt Senators have done everything they can to keep you from seeing that spread-sheet. If you saw the spread-sheet that shows all of the covert family bank accounts, fake trust funds, shell companies and stock market accounts for Dianne Feinstein, Harry Reid, Nancy Pelosi, etc.; you can easily see how they only get a salary of \$190K per year but put hundreds of millions of dollars in their accounts that all traces back to special interest groups that tell them what laws to make and what laws to stop from moving forward. Forensic accountants at the GAO, FBI or SEC can pop out the latest update on any given day. These Senators have "rules" that delay investigations against themselves, though. Also, as we all saw from the Comey case: Corrupt Senators can even tell the head of the FBI who to NOT investigate! The 2008 and 2021 "Stimulus Funds" were just scams cooked up by politicians for them to skim stock market pump-and-dump profits off of and grab personal payola.

In all these corruption cases, these corrupt people took the same steps to conceal their assets. They each took the money in secret ways. The main ways are 1.) via Dark Money stealth political funds; 2.) bribes paid via insider trading (notice that most of these crooks marry an investment banker to run their dirty schemes) and 3.) getting government contracts, loans and grants for their friends that they get kick-backs from. They then had their dirty law firms and CPA's shove the money into their standardized covert financial structure to hide it. They use family members to run the operation. Their dirty family members and lawyer/CPA teams cover up their tracks. They then have intermediaries spend the money to get them islands, yachts, mansions, hookers, Tesla's, etc.

The 2008 and 2021 "stimulus funds" are quid pro quo scams to pay off political insiders. We reported these crimes (with FBI-class evidence) to every law enforcement agency in writing (FBI, DOJ, SEC, IG, FTC, OSC, FEC, etc.). apparently, citizens are ignored if the crimes involve politicians and their billionaires. the cover-ups are off-the-charts! these mobsters (Google, Tesla, Facebook, LinkedIn, Netflix, In-q-tel, Kleiner Perkins, Greylock, etc; acting in a coordinated, collusion-based, operation) are paying billions of dollars of political bribes (...via cash, real estate, sex trafficking, pacs, search engine rigging, crony jobs, biased censoring, campaign funds, stock market manipulations, ukrainian money laundering, etc.) to delay justice and blockade our, and your, rights! There can be no question about the fact that Google, Facebook, Netflix, Tesla and the Silicon Valley Cartel control the Obama and Biden White House. For example: Elon Musk ordered the politicians who are his hitches to sabotage his competitors. He gave those political insiders: cash, stock in his cartel, revolving-door jobs, campaign funding, sex workers, off-shore money laundering, and other quid pro quo. Eric Schmidt, Larry Page, Mark Zuckerberg, and the rest of the tech mob, all worked together on these crimes. The hacks and leaks of their documents prove it. Government agency bosses are covering up these crimes to protect their jobs and their corrupt stock market holdings. Musk and Goldman Sachs have gotten over FIFTEEN BILLION DOLLARS of free taxpayer cash and monopolized exclusives to pay for Musk's drugs, sex parties and mansions. This is one of the largest violations of anti-trust laws in history. The politicians and agencies that are supposed to stop him are getting money from him.

Musk exists entirely from quid pro quo bribes! Musk's banks, including Deutsche Bank, have had to pay more than \$100 million to settle charges related to violating anti-bribery laws and engaging in money laundering. While the Musk-controlled media bloviates on the god-like image of Musk, he and his buddies are just crooks and mobsters. It is now almost impossible for the public to reach any media source that is not controlled by the Silicon Valley Cartel via synchronized talking points. Politicians who say that their only motivation is to "save" the helpless billionaire Elon Musk and his unicorns: 1.) sabotage any companies who are not making Tesla's, 2.) have sex with Tesla lobbyists and bankers, 3.) own the stock in Tesla Motors, 4.) are venture capital partners in Kleiner Perkins (ie: Gore) and Greylock capital insiders, 5.) trade revolving door jobs with the Elon Musk cartel, 6.) gave Musk over \$15B of free taxpayer money, 7.) get campaign financing from Musk, 8.) order government agencies to freeze funding for Musk's competitors, 9.) and engage in a vast number of other corruption and anti-trust crimes.

U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out

NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials. This will never end unless the public demands laws to prevent all politicians, and their families, from owning ANY stock market stocks or securities! See more at: <https://www.cbsnews.com/news/congress-trading-stock-on-inside-information/>

### ### LITHIUM, RARE EARTH MINES, BATTERIES -- ISSUE BULLET POINTS

Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet trolls and trolls used to say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers. Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have heard about.

The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their cronies, spend over \$1B a year to shield and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia'; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies.

That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "assassins". It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects. Fuel Cell cars do not have any of these problems! ### ### ELON MUSK AND THE TESLA TECH CARTEL -- ISSUE BULLET POINTS

Google, Netflix, YouTube, Facebook, META, etc. exist to mass manipulate populations and run stock market scams for their sociopath owners. Essentially, Google, Netflix, YouTube, Facebook, META, etc. get so much money and so many orders from the CIA/NSA that they ARE the CIA/NSA!!! From INSIDE Google, our team saw Google manipulate the entire internet to hype up Larry Page's "boyfriend": Elon Musk and Tesla, which Google execs owned a portion of, while sabotaging Tesla's competitors. Google illicitly and illegally timed these manipulations with stock market pump-and-dump efforts to exploit insider trading. That is a felony violation of RICO, Antitrust and other laws. Every single thing that Google does is contrived to harm a competitor, a politician, an employee whistle-blower or some other business adversary. There are no "bugs", "operator errors", "server anomalies" or other media "accidents" at Google. Everything Google does is contrived, at a psychological warfare kind of level, to change a social perception. Google must show its software to FBI, SEC, FTC and our search engine optimisation experts to prove that they did not engage in these crimes. The fact is: We can prove they did the crimes and FBI experts can help us prove it! Google is known as the "Nazi's of the Internet". In a case unfolding in Britain over whether Google wrongly demoted price comparison rival Funderm from its search results in favour of paid-for adverts, Google must now decide which it values more: the algorithms that rank its search results, or its stance that manually fiddling with those results to promote its own paid-for products over rivals' sites doesn't break competition laws. The integrity of Google's ranking processes relies upon all webmasters or website owners having the same degree of access to information about Google's ranking... This will no longer be the case if information of this kind is made available to some individuals offering commercial services to assist companies to improve their Search ranking. Google is a criminal operation. It's executives have been publicly exposed as participants in horrific sex scandals, money laundering, political bribery and racism. It is time for the bought and paid shill politicians to stop protecting them! - Google spies on competitors and steals their technology - Google runs tens of millions of dollars of defamation attacks against competitors - Google hides all media and news coverage for competitors of Larry Page's boyfriend: Elon Musk -

Google lies to the public about what they really do with the public's data - Google promotes illegal immigration in order to get cheap labor and control votes - Google runs VC funding back-lists against start-ups that are competitive - Google bribes thousands of politicians - Google is a criminal RICO-violating monopoly - Google rigs the stock market with Flash-boy, Pump/Dump and Microblast SEC violating computer tricks - Google pays bribes to politicians in Google and YouTube stock - Google manipulates who gets to see what web-sites, globally, for competitor black-lists - Google has a "no poaching" Silicon Valley jobs blacklist - Google bosses sexually abuse women and young boys - Google bosses run sex trafficking operations in the Epstein and NXIVM cults - Google bosses control the NVCA financing cartel over start-ups - Google has placed the majority of the corporate staff in at least one White House - Google controls national elections for anti-competitive purposes - The company "Polypop", in the HOUSE OF CARDS tv show, does all the crimes that Google actually does in reality - Google's law firms, like Wilson Sonsini, are corrupt conduits for payola and political conduit-relays - Google bribes some politicians with revolving door jobs - Google is primarily responsible for destroying the Bay Area Housing opportunities - Google runs DDoS attacks on competitors by massively crawling their sites - Google boss Andy Rubin runs a sex slave farm according to his own family - Google boss Eric Schmidt was a philandering sex-penthouse owner according to vast news articles - Google executives hire so many hookers that one of them, Mr. Hayes, was killed by his hooker - Google executives sexually abuse so many women that the women staff of Google walked out one day - In the 2009 White House, you could not swing a cat without hitting a Google insider - Google has paid covert bribes, PAC funds, real estate and search rigging payola to every CA Senator - Google has paid bribes, through its lobby fronts, to halt FBI, SEC, FEC and FTC investigations of Google crimes - Google was funded by the CIA, via In-Q-Tel, a so called "501 c3 charity" which was caught with tons of cocaine - Google gets millions of dollars of taxpayer cash for spying on Americans inside the USA - Google's map service was a spy system paid for by taxpayers money that Google

now profits off of - Nancy Pelosi and Dianne Feinstein have promised to "protect" Google because their families profit off Google stocks -

Payment receipts prove that Google and Gawker/Gizmodo exchanged cash and staff for Character Assassination attacks - Google VC's and bosses have spent \$30M+ rigging the U.S. Patent Office to protect Google and harm Google competitors - Google bribed it's lawyer into position as head of the U.S. Patent office in order to have her protect Google - To rig insider stock trades, Google hides negative Tesla stories and pumps positive Tesla stories on "push days" - Google and Elon Musk Co-own, co-invest and co-market stocks covertly while running anti-trust schemes - Google rarely hires, or hires, black employees per federal and news media investigations - Google hired most of the Washington, DC K Street lobby firms and told them to "do what ever they could" - The film: "Miss Sloane" depicts only 2% of the illicit lobbying tactics Google employs daily - Demands for an FTC and FBI raid of Google, for criminal activity, securities law and election felonies have been filed - Google's David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds - Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and law enforcement officials to hold off prosecution. At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergy Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done. Google executives came from most of the fraternity houses involved in the college rape scandals. Google sells covert character assassination services to politicians and fellow oligarchs. Youtube/Google/Alphabet/Deep State are all the same entity. They conspire to hide news about their corruption and they control most of the internet.

The Musk empire has paid more bribes to politicians than almost any other modern entity. That is why no full investigation of the Musk scams has ever been completed. Google's Eric Schmidt and Larry Page have a bromance relationship with Musk and use the global resources of Alphabet to hide any negative news about Musk assets. The 2008 Department of Energy Cleantech Crash proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources! We have used private investigator, FBI resources and deep AI research to reveal that all government staff working on our application were getting quid-pro-quo...they were on the take. (Can anyone point out to us EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects. Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another. Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders. Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a VC Ponzi Scheme! in this whole mess.

Musk used crooked Senators to get his funds. Those Senators and government agency bosses were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to. Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it. We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try. Lithium metals, and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread use in cars is hindered by a challenging obstacle: upon multiple charge-discharge cycles, fractal filaments called dendrites always grow through the electrolyte from the negative to the positive electrode and short-circuit the battery from the inside, thus guaranteeing that Tesla Cars will eventually all explode. Musk and Panasonic have known this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, to cover it up.

The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens. Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds. Tesla is known as "the official car of douche-bags". The safety defect cover-ups on the Tesla are extreme. Musk's narcissistic trophy-wife mom and his extremist father (who got his young sister pregnant) are thought to be the cause of Musk's racism and sociopath behaviors. He is the #1 crony capitalist government mooch in America and has received billions of dollars of your tax money to help him buy his mansions, starlets and sex parties. His cars and rockets blow up, his tunnels are unsafe, his satellites spy on consumers and his brain chip company tortures small animals. He swiped all of his technology from someone else and has never come up with his own inventions. Space-X is just a domestic spying company. Don't buy Musk's bullshit about Space-X doing any good deeds. Everything Space-X launches is to spy on the poor folks on the ground and monitor their internet. Also, Musk's Neuralink company tortures small animals to try out Musk's pseudo-science mind-reading chips. Tesla cars have been found to have a vast number of electronic and mechanical defects that cause crashes, fires, explosions, toxic exposures and DEATH! Elon Musk is THE CRONY CAPITALIST GOVERNMENT MOOCH KING taxpayer funds leech of the world. ### ### REPAIRING SILICON VALLEY -- ISSUE BULLET POINTS

The Silicon Valley tech Cartel (AKA: "Paypal Mafia", "Deep State") is evil because these racist, ageist, sex-trafficking, money-laundering, elitist, politician bribing, tax evaders: steal any technology they desire; They manufactured the CLEANTECH CRASH as shown in the 60 MINUTES episode of the same name; they run a prostitution ring and sexually extort young women and interns in Silicon Valley; they are 'rape culture' take-what-they-want misogynists, ageists and racists as their history of abuses has proven; their Palo Alto Cartel operates AngelGate-type collusion and stock market insider trading schemes that harm independent business and the public; their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files reveal horrific abuses and sex trafficking; They have an army of lobbyists that pay cash, stock market and revolving door bribes to U.S. Senators; They can even evade FBI & SEC investigations; They hire women to act as 'trophy wives' and 'beards'; they have lobbyists rig the U.S. Patent Office in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings beating, kicking and harming women hundreds of times; They have bought up all of the Tier-One tech law firms and order them to black-list, and never help, those who seek equal tech rights; they collude to abuse your privacy and make databases all the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws. Silicon Valley has become the largest assemblage of douche-bags and yuppie frat boy criminals in human history. Theranos is not the exception, it is the standard. Tesla, Google, Theranos, Wework, Facebook are lies backed by famous political insiders to protect their insider trading and covered-up by fake news operators. They are also fronts to fund political campaigns via the ill-gotten profits from their endeavors. When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are frat boy scumbags, from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road operation should be raided by the FBI! The best thing that could come from the COVID pandemic is that they all are forced into bankruptcy!

When your Senator holds stock market shares in companies that exist to profit on the backs of consumers, via corruption, then it is impossible for that Senator to ever do anything but be corrupt! We have reported this in writing to [winklerm@sec.gov](mailto:winklerm@sec.gov), [sanfrancisco@sec.gov](mailto:sanfrancisco@sec.gov) and 30+ other federal officers but have yet to see our whistle-blower rewards...or any action! Do you wonder how big politician insider stock trading is? Take a look at how many TRILLIONS of dollars pass through the stock markets annually and then look at the reported, AND UNREPORTED, securities holdings of famous U.S. Senators and government agency staff. That is what Seth Rich and the people in the "In Memory Of" section, below, were disclosing. These are massive crimes! The perpetrators operate a massive and abusive national sex cult. The pervers in the Sandhill Road Venture Capital offices, located between Highway 280 down to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, LinkedIn, Twitter, and their related holdings, comprise the rest. The Harvey Weinstein and Ed Buck sex scandals are well known. These men's sex cult actions have been widely covered in the news individually in the Joe Lonsdale rape case, The Kleiner Perkins Ellen Pao sex abuse lawsuit,

The Eric Schmidt sex penthouse stories, The Jeffrey Epstein case, The Google Forrest Hayes hooker murder case, The Andy Rubin sex slave case, The Sergy Brin 3-way sex romp scandal, The British Hydrant investigation, The Elon Musk Steve Juvetson billionaire sex parties scandals, The NXIVM sexual slave cases, The Michael Goguen anal sex slave trial, The Tom Perkins Hooker Parties and thousands of other cases and federal divorce court filings. This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. The Elon Musk sex perversions are the tip of the iceberg. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members. Google boss David Drummond engaged in horrible philandering sexual violations of his wife yet Google covers up every story about it on the web. Google's Eric Schmidt is under massive investigation.

You hear about the female victims of this sex cult but you rarely hear about the young male victims. One of their vast numbers of prostitutes is quoted as saying that the girls and boys are paid "not just for sex but for the oligarch's endless need to feel that they can control anyone for any reason...". Multiple attorney general's controlled by their cartel, ie: Eric Schneiderman and Eliot Spitzer, are involved in these sex rings. These are the main influencers of a national political party and they are all involved in horrific sex perversions and abuses! All Silicon Valley tech cartel media companies work together to censor all news and information in order to hide coverage of their dirty deeds and to only put politicians in office that will give the Cartel political payola, kick-backs and insider stock pumps. The Smedley Butler "Business Plot" from the past is not unlike the coup that Google and clan tried. See details in Emily Chang's book: BROTOPIA; Roan Farrow's book: CATCH & KILL; Edward Snowden's Book: PERMANENT RECORD; Peter Schwetzer's book: THROW THEM ALL OUT; Dave Eggers book: THE CIRCLE; Franklin Foer's book: WORLD WITHOUT MIND; Corey Pein's book: JOURNEY INTO THE SAVAGE HEART OF SILICON VALLEY; Dan Lyon's book: DISRUPTED; Antonio Martinez book: CHAOS MONKEYS. The Angelgate, Epstein, No-Poaching DOJ Class Action, and hundreds of other cases, prove that they meet, conspire, collude and blacklist in felony violation of anti-trust and RICO Racketeering laws. - 90% of these guys came from the same date-rape fraternity houses involved in the recent college rape cases.

### ### POLITICAL CHARACTER ASSASSINS AND ATTACKING THE WHISTLE-BLOWERS -- ISSUE BULLET POINTS

POLITICAL KILL ORDERS AND STATE-SPONSORED CHARACTER ASSASSINATIONS - How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers. -

How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moornes and Weinstein indiscretions suddenly hit the news at about the same time in news history? - In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways. - It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent. - The client does not like to get their hands dirty so the actual social hit job is performed by companies such as: IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Undercover Global Ltd (DNC/GOP) Stratfor - (DNC/GOP); ShareBlue - (DNC); Wikileaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal - (DNC); David Brock - (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling - (DNC); Buzzfeed - (DNC) Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others. - These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash.

Any company who is corrupt enough to hire any of these assassins should be forced out of business. These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal! - These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions. - In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth. - This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated. - The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press. - Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University." - Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation. - Larry Schweikart reported for Big League Politics: For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it.

Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by

the FBI. This is what President Trump calls "SPYGATE". - It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker: President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the "Electronic Surveillance Authorization" () "Foreign intelligence in relation to a US person (Trump or his associates) is information that's necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power. . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S." Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. ("The [AG] shall immediately transmit under seal to the court [FISC] a copy of his certification.") - In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC. - This is what they are hiding. - However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies?

Can you see why Adam Schiff, Mark Warner, and their ilk are terrified? - These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies: - Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques.

A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost". Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups. - Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Stry and in published testimony.

If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again. - FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these "targets" were intentionally exposed to toxins in retribution for their testimony.

The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required. - Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic. - On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration.

This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions. - Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment. - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures. - Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case. - Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers.

All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims. - Over 50,000 trolls, shells, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility. - Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon.

It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head".- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds. - Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.

### ### WHEN SILICON VALLEY ATTACKS CITIZENS AND JOURNALISTS -- ISSUE BULLET POINTS

Gawker Media, Gizmodo Media, Snopes, SPLC, FACEBOOK, GOOGLE and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you.?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments. - Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key

codes have been released to every hacker community in the world for over ten years.

There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. Nothing you have ever typed on a computer or Smartphone is safe. It WILL be acquired and it WILL be used against you. - McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment. - Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benBROTOPIA.efits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt, and quite illegal. -

There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left. - Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert, Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payola and hit-job attacks on third parties.

#### ### SONY PICTURES CORRUPTION AND MEDIA MANIPULATION -- ISSUE BULLET POINTS

The hacks and leaks at Sony Pictures Entertainment have exposed the dark side of Hollywood. The new information reveals an insider vision of a company racked with sexism, office politics, high-school-level personality quibbles and a severe mine-is-bigger-than-yours territoriality culture.

A number of lawsuits against Sony, from Lady GaGa to Sony's own employees, have revealed even more.

An aspect of the revelations involves where Sony gets its ideas from. A number of revelations reveal that Sony seems to have established a process of "borrowing" technology and story ideas while "forgetting" to properly attribute or pay the sources.

Some of the 'dirt' exposed included:

- Sony finances Democrat Presidents in exchange for media 'favored nations' status over competitors.
- Sony and Google coordinate political manipulation campaigns together.
- Sony executives trade female entry-level staff like cattle at a 'ranch'.
- Sony executives hire an insane amount of hookers, rent-boys and under-age sex providers.
- Sony executives bribe their kids into colleges.
- The good-old-white-jewish-boy club is alive and well at Sony.
- ZERO DARK THIRTY was a political PR hype movie commissioned by the Obama Campaign using government resources
- Sony steals patents from anybody it wants
- Sony stole its VR technology
- Sony stole its web video technology
- Sex deviancy is the rule at Sony
- Sony is a bunch of high-school whine babies who think their shit doesn't stink
- Sony spends millions and millions of dollars on political bribes

The kids at Sony seem to have been very naughty children. They let their IT system go to pot, and got hacked, and outed, as "racist", "misogynist", "campaign rigging", "high school tantrum throwing" kinds of people, per their own emails. Hollywood Reporter, The Verge, Wikileaks, and a variety of tabloids and pundits, have delighted in dissecting the fraternity house, inside antics, of Sony Pictures.

Their boss got fired. They got ridiculed for turning "Zero Dark Thirty" into a, slightly fabricated, political vote-churn tool. Other execs got kicked to the curb. All of their financial, contracting, political cash layout, and tax dynamics were placed under investigation, and even more sketchy bits are shaking loose...

#### ### HOUSING IS STALLED BECAUSE OF SPECIAL INTEREST BRIBES AND MONOPOLIES -- ISSUE BULLET POINTS

SILICON VALLEY'S TRILLION DOLLAR CULTURE OF BRIBERY; CENSORSHIP; SEX TRAFFICKING; ELECTION MANIPULATION; PAYOLA TO CITY, STATE, COUNTY AND FEDERAL OFFICIALS; LUDICROUS EXCESS AND REVOLVING DOOR PAY-OFFS TO GOVERNMENT INSIDERS HAS DESTROYED HOUSING OPPORTUNITIES FOR THE POOR AND MIDDLE CLASS BY NEGATING HUMAN RIGHTS OVER OLIGARCH LUXURIES!

The Silicon Valley solution to "The Housing Crisis" is all talk, window dressing, dog-and-pony, un-responded to white papers and absolutely no meaningful action.

REAL ESTATE DEVELOPERS, OLIGARCHS AND REAL ESTATE BANKS PAY BRIBES TO COUNTY OFFICIALS TO KEEP AFFORDABLE HOUSING FROM GETTING BUILT BECAUSE IT COMPETES WITH THEIR SCHEMES! The State of California and HUD housing agencies have long lists of "Certified", "Qualified", "Approved", etc. loan brokers and mortgage brokers that the agencies say will help low-income citizens get single family financing. So we called everybody on one of those lists provided by the State of California.

In fact, those loan brokers and mortgage companies don't want to hear from you unless you are in a bid war on a \$1.5 million dollar bungalow for which you already have \$500K, or more, in cash in the bank. Only a small percentage of the loan brokers and mortgage brokers on those lists had EVER done a completed subsidized home loan and even less had any clue how to paper a HUD Home Ownership financed home loan. Over 20 U.S. Bank mortgage brokers even refused to respond to emails or phone calls if one used the words "Cal-FHA USDA" because, as one unusually talkative U.S. Bank employee stated: "To us, those are code-words for 'poor people', the market is, frankly, too hot for banks to bother with the poors because we don't make any money off them".

It does not matter if you have spent years trying to keep your FICO score above 700. It does not matter that you never had a bankruptcy. It does not matter that you have guaranteed income for life from your government benefits. All of those things that the media told you to do to be a "good citizen" with a good social credit score seem to be pointless. The loan and mortgage brokers on those lists are only on those lists to get a few PR brownie points. They do not want to hear from you or deal with you unless you are making big bucks in tech. They will let you upload your information but they will do little or nothing to help you because they lose money by helping you. They only make money off of the big deals.

On top of that the big real estate developers like Pulte Homes, Berkshire Hathaway (Warren Buffet), Kauffman and Broad (K&B Homes), etc. are bribing the Governor and the heads of all of the agencies to keep you from building a home or getting a home that is not in one of their giant developments. Most low-income people are the laborers who build the homes in those big real estate developments. Those people know how to build their own homes but State and Federal agency heads are bribed to make sure you NEVER can build your own home. Those people know they can build an incredible home, on their own, for under \$100,000.00. You can see thousands of videos on the internet showing people that do it every day in any state but California. Try to build a home in California. You will find you are blockaded at every turn EXCLUSIVELY by rules that you have to follow but that big developers do not!

Try to buy a modular or factory build home in California ...Same thing. The political bosses in California have taken so many bribes from big special interests that they can't stop sucking on the graft hose.

### ### THE U.S. DEPARTMENT OF ENERGY IS A POLITICAL SLUSH FUND – ISSUE BULLET POINTS

Trillions of dollars of stock trades and direct payola bribes are exchanged using: A.) the White House as a broker and B.) the United States Department of Energy as a stock market manipulation platform and C.) the TAXPAYERS money!

The White House had the Secretaries of Energy sabotage BRIGHT AUTOMOTIVE, ZAP AUTOMOTIVE, XP VEHICLES, BRAMMO AUTO, and many other car companies, in order to protect Obama/Biden political campaign financier Elon Musk and his Big Tech Cartel!

#### **That's right!Your public officials use federal agencies as dark-money laundering operations for their friends.**

If you are a taxpayer: You suffered damages!  
If you are an American business: You suffered damages!  
If you are Democracy: You were broken!  
If you were a tech mobster: You made out like a bandit!  
This is how it worked.

No public official wants these crimes to end because most of those officials profit from these crimes! Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes!

The Solyndra taxpayer, technology, financial and political disasters that began during the reign of Steven Chu at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

Trillions of dollars of stock trades and direct payola bribes were exchanged using the White House as a broker and the United States Department of Energy as a stock market manipulation platform.

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

What Went Wrong With The Electric Car Industry?

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs in

--- If you were a tech mobster: You made out like a bandit!to his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammy.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unware fools that their scheme blew up...instantly and literally.

--- That's right! Your public officials use federal agencies as dark-money laundering operations for their friends. EVERY APPLICANT WHO HAS BETTER METRICS THAN WHITE HOUSE INSIDERS FISHER AND TESLA GETS REJECTED. DOE DOES THIS TO PROTECT OBAMA AND BIDEN CAMPAIGN FINANCERS WHO PAID BRIBES IN ORDER TO GET THIS GREEN PAYOLA. IN A PUBLIC, SIDE-BY-SIDE, COMPARISON THE DOE "WINNERS" WOULD LOSE AND THEY CRONYISM WOULD BE EXPOSED!

--- This is how it worked. No public official wants these crimes to end because most of those officials profit from these crimes! Forget about any allegiance you might have to one political party over another. This is not about parties, this is about racketeering crimes!

--- The Solyndra taxpayer, technology, financial and political disasters that began during the corrupt reign of Steven Chu and Jennifer Granholm at the Department of Energy typified the overt, organized crime, corruption and crony malfeasance of the public funds.

--- This trend was created via the back-door deals between 1.) the U.S. Department of Energy and audacious kick-back schemes created by 2.) Silicon Valley campaign financiers and the 3.) White House. This is the story of the racketeering schemes and scams that set out to steal trillions of dollars of taxpayer cash, in plain sight, under the cover of a national "economic" or "health" emergency "stimulus" scam.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University; The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

---- The United States Department of Energy runs a political crony payola slush fund. They don't "support green cars"; they support "greenbacks for crony insiders who financed political campaigns". The U.S. Department of Energy violates anti-trust law by funding only the friends of The President and cutting out their competitors. The "Secretary Of Energy" is a paid actor who owns the companies that the government finances.

---- Competitors to White House financiers are specifically and illegally excluded from participation in funding, benefits, jobs and income by major political figures, including U.S. Senators and White House executives, and their Silicon Valley oligarch financiers. These corrupt politicians attack others who refuse to cooperate with their crimes including: 1.) sex trafficking, 2.) tax evasion, 3.) off-shore money laundering, 4.) political bribery quid-pro-quo, 5.) revolving door payola scams, 6.) foreign nation-sponsored domestic manipulations, 7.) stock market rigging, 8.) internet censorship, 9.) search engine manipulation and other crimes.

---- They attacked citizens who report their crimes to federal police. They also attack citizens who make products that obsoleted their products at Facebook, Google, Tesla, Netflix, etc. These corrupt politicians attack citizens using taxpayer-funded state resources. That is a felony violation of the law. The ongoing cover-up of these crimes and attacks is also a felony violation of the law. The victims are owed damages compensation, witness fees and back-pay.

---- Top Lawyers from Perkins Coie and Covington & Burling admitted that they "CONTROL" who gets DOE funding, agency appointees and federal cash

### ### THE CORRUPTION AND PROPAGANDA USE OF NETFLIX-- ISSUE BULLET POINTS

Let's face it, Netflix sucks. Netflix spies on you and sends your psychological profile, location and interests off to spies, political parties, marketing services, Google, The Silicon Valley mafia, the IRS, the DEA.. pretty much anybody can see what you are doing on Netflix.

If you like to get pandered to and treated like one of the data cattle on the privacy harvesting ranch then Netflix is your Pimp!

Netflix pretty much works for Obama and his political gang and pushes woke mass media manipulation and gay sex social programming at you as a result. If you are a guy, Netflix really, really, really wants you to cut your penis off and call yourself a girl!

Whats worse is that with so many studios refusing to license content to Netflix now, streaming services such as Disney plus, Peacock and many more are on the rise. Netflix sucks. Somehow, Netflix subscribers are left feeling like there's nothing to watch on a platform that force feeds an over abundance of content from Indian and Mexican movies to it's viewers.

Every Netflix subscriber claims there's nothing above "B-list" movies being served to them on a thirteen dollar per month silver platter (and sixteen for 4k) Not to mention how unfavorable the label "Netflix originals" have become when slapped on a movie or show: "Netflix originals" is building a negative rep on par with Nickelback and Adam Sandler's series of Happy Madison productions movies.

Everyone knows that Netflix is bad now and getting worse every day. Netflix makes young adults feel the same way the price of extra guac at Chipotle does... and that is the: "I don't agree with this, but please take my money", feeling. They know they've got your money because it's too hard to say no each month because Millennials are so stupid and sheep-like.

Did we mention the increase of the monthly price? Netflix sucks. Netflix only hires Burning Man type extreme hair-dyed hipsters who have an ANTIFA-type attitude, especially if they are from Asia and will work like dogs for McDonald's type pay and conditions. People who use Amazon Prime and then go back to Netflix can really see how much Netflix sucks. They would rather set their genitals on fire than stay with Netflix.

Netflix will make you love crippled, fat, black transgendered lesbians. You will get so many of them you won't be able to stand it.

A while back Netflix destroyed its own rating system. What we mean by that is... they literally deleted it. Now, at the start of each movie we're forced to either check rotten tomatoes or risk the next 25 minutes to figure out if a show or movie is worthy of our time and attention. Netflix removed their rating system in order to hide the fact that everyone thinks their movies are absolute shit!

Netflix stole most of it's streaming media technology from small inventors that it never paid. If any inventor tries to sue Netflix, Netflix just sends millions of dollars of lawyers after them so that the inventors can never get paid. It is best just to put Netflix out of business.

Netflix spent zillions of dollars making new content but the content they made turned to be the worst shit ever created. When Obama and his buddies make media to try to program you into being "woke", it ends being heartless propaganda. Seriously, Netflix spent more money making shittier content than anyone in history. It's as if Netflix was just funneling money back to Biden and Obama. Speaking of funneling money, the FBI's Peter D. Cair has been busting Netflix executives who steal big money through the Netflix stock market system.

If you use Netflix you enter a "Netflix pit" you fell into and can't get out of... Read more: [https://en.wikipedia.org/wiki/Criticism\\_of\\_Netflix](https://en.wikipedia.org/wiki/Criticism_of_Netflix)

### ### SILICON VALLEY'S CONTRIVED MASS MEDIA MANIPULATION -- ISSUE BULLET POINTS

Foreign news outlets in our country exhibit the widespread "criminality" and "defamation tactics" of a mostly corrupt news media landscape. The Gawker/Gizmodo/Jalopnik tabloid empire is nothing more than an organized info-crime operation backed up by offshore money-laundering through Russia and the Ukraine. Despite widespread recognition of their deceptive conduct, fools still read these trash publications.

There are massive conflicts of interest related to many news media outlets' conglomerate-ownership as well and industry figures' financial and familial links to companies, interests, and people they ostensibly report on.

'Fake news' isn't the proper term. It's the 'propaganda arm of the Silicon Valley Socialist oligarchs' in most cases.

It's no different than the Chinese Communist Party [and] the propaganda they put out. It's no different than what the Soviet Union did with the old Pravda media, and, quite frankly, it's no different than how Putin controls the media today, where 95 percent of his media in Russia is propaganda for the Putin regime. It's the same thing here with The Washington Post, NY Times, CNN, Hearst publications and all of the media owned by Hollywood and Silicon Valley.

Partisan news media should be treated as such. News media outlets such as the CNN, the New York Times, and the Washington Post regularly describe themselves as "politically objective and non-partisan." In reality they are a propaganda machine for sick Silicon Valley oligarchs.

The information institutions are corrupt. For example, Elon Musk is one of the most corrupt men in the world yet the socialist propaganda news media won't cover any of his crimes and corruptions in their publications because he pays political bribes to keep his dark side hidden in their media.

The public should not hurt legitimate news media outlets by engaging with and speaking to corrupt propaganda operations. One should only speak with genuine news media and not reward unethical companies with their time.

The following diagrams show what various independent researchers have discovered:

A common tool Google, Facebook and Twitter use to exert control over their victims.

We all use manipulation at some point in our lives, whether it be telling a little white lie to get out of a situation, or using flattery to get what we want. For some people, however, using manipulation is a way of life, and their first weapon in an arsenal of techniques to overpower their victims.

Their stories came out slowly, even hesitantly, at first. Then in a rush.

One female entrepreneur recounted how she had been propositioned by a Silicon Valley venture capitalist while seeking a job with him, which she did not land after rebuffing him. Another showed the increasingly suggestive messages she had received from a start-up investor. And one chief executive described how she had faced numerous sexist comments from an investor while raising money for her online community website.

What happened afterward was often just as disturbing, the women told The New York Times. Many times, the investors' firms and colleagues ignored or played down what had happened when the situations were brought to their attention. Saying anything, the women were warned, might lead to ostracism.

Now some of these female entrepreneurs have decided to take that risk. More than two dozen women in the technology start-up industry spoke to The Times in recent days about being sexually harassed. Ten of them named the investors involved, often providing corroborating messages and emails, and pointed to high-profile venture capitalists such as Chris Sacca of Lowercase Capital and Dave McClure of 500 Startups.

The disclosures came after the tech news site The Information reported that female entrepreneurs had been preyed upon by a venture capitalist, Justin Calbeck of Binary Capital. The new accounts underscore how sexual harassment in the tech start-up ecosystem goes beyond one firm and is pervasive and ingrained. Now their speaking out suggests a cultural shift in Silicon Valley, where such predatory behavior had often been murmured about but rarely exposed.

The tech industry has long suffered a gender imbalance, with companies such as Google and Facebook acknowledging how few women were in their ranks. Some female engineers have started to speak out on the issue, including a former Uber engineer who detailed a pattern of sexual harassment at the company, setting off internal investigations that spurred the resignation in June of Uber's chief executive, Travis Kalanick.

Most recently, the revelations about Mr. Calbeck of Binary Capital have triggered an outcry. The investor has been accused of sexually harassing entrepreneurs while he worked at three different venture firms in the past seven years, often in meetings in which the women were presenting their companies to him.

Several of Silicon Valley's top venture capitalists and technologists, including Reid Hoffman, a founder of LinkedIn, condemned Mr. Calbeck's behavior last week and called for investors to sign a "decency pledge." Binary has since collapsed, with Mr. Calbeck leaving the firm and investors pulling money out of its funds.

The chain of events has emboldened more women to talk publicly about the treatment they said they had endured from tech investors.

"Female entrepreneurs are a critical part of the fabric of Silicon Valley," said Katrina Lake, founder and chief executive of the online clothing start-up Stitch Fix, who was one of the women targeted by Mr. Calbeck. "It's important to expose the type of behavior that's been reported in the last few weeks, so the community can recognize and address these problems."

The women's experiences help explain why the venture capital and start-up ecosystem — which underpins the tech industry and has spawned companies such as Google, Facebook and Amazon — has been so lopsided in terms of gender.

Most venture capitalists and entrepreneurs are men, with female entrepreneurs receiving \$1.5 billion in funding last year versus \$58.2 billion for men, according to the data firm PitchBook. Many of the investors hold outside power, since entrepreneurs need their money to turn ideas and innovations into a business. And because the venture industry operates with few disclosure requirements, people have kept silent about investors who cross the lines with entrepreneurs.

Some venture capitalists' abuse of power has come to light in recent years. In 2015, Ellen Pao took her former employer, the prestigious venture firm Kleiner Perkins Caufield & Byers, to trial for allegations of gender discrimination, leveling accusations of professional retaliation after spurned sexual advances. Ms. Pao lost the case, but it sparked a debate about whether women in tech should publicly call out unequal treatment.

"Having had several women come out earlier, including Ellen Pao and me, most likely paved the way and primed the industry that these things indeed happen," said Gesche Haas, an entrepreneur who said she was propositioned for sex by an investor, Pavel Curda, in 2014. Mr. Curda has since apologized.

Some of the entrepreneurs who spoke with The Times said they were often touched without permission by investors or advisers.

At a mostly male tech gathering in Las Vegas in 2009, Susan Wu, an entrepreneur and investor, said that Mr. Sacca, an investor and former Google executive, touched her face without her consent in a way that made her uncomfortable. Ms. Wu said she was also propositioned by Mr. Calbeck while fund-raising in 2010 and worked hard to avoid him later when they crossed paths.

"There is such a massive imbalance of power that women in the industry often end up in distressing situations," Ms. Wu said. See more at: <https://www.forbes.com/sites/allysonkapin/2020/09/15/sexual-harassment-in-silicon-valley-still-rampant-as-ever/>

### ### IMMIGRANTS USED AS POLITICAL VOTER ROLL MANIPULATION TOOLS -- ISSUE BULLET POINTS

FEINSTEIN, NEWSOM, PELOSI, PODESTA and The Squad came up with the idea to urge South Americans to move to the USA in order to pad DNC voter numbers. They blocked efforts to test the immigrants for diseases, incest and full Cartel crime reports. They blocked efforts to fully secure the border. This created a housing crisis, a disease crisis, a crime crisis and other national problems.
