DOGE Is the Deep State

A shadowy group of unelected figures reshaping the federal government to their own benefit from the inside? Sounds familiar!

The “deep state” is a top-tier conservative bogeyman, right up there with DEI and George Soros. But it seems fair to ask: If a bunch of shadowy, unelected figures, many with shared business interests and connections, took over government functions at the highest levels and directly contravened the will of Congress, what might you call that? How about ... DOGE?
