

Elon Musk daughter calls estranged father grubby, little, control freak

TIMESOFINDIA.COM

As Elon Musk reacted to a news story of his estranged daughter Vivian Jenna Wilson deciding to leave the US seeing no future in the second Trump administration -- his father is a part of that -- Vivian unleashed a scathing attack on her father and called him a delusional, grubby, little control freak who hasn't matured for 38 years.

Elon Musk wrote "the woke mind virus killed my son" to a user who claimed Vivian is not Elon Musk's daughter but son. Wilson saw the post and went on a rant on Threads.

"If I'm correct, the reason why this particular post is the one that got to you is that you're mad that you finally don't have power over someone. You're upset because at the end of the day everyone around you knows you as a delusional and grubby little control freak who hasn't matured as a person for 38 years. However, last time I checked that's not my fucking problem," Wilson said.

"So, you're still going with the sob-story about how "woe is me, my child was infected by something-or-other and that's totally the only reason why they hate me. Just don't... please don't look into it, god forbid I'm anything but the victim in every scenario imaginable 🙄 ". "Did anyone ever actually believe this? It's just tired, it's overdone, it's cliché. I'm just bored honestly, like is this really the best you could come up with?"

Wilson was one of the twins Elon Musk had with his wife Justin Musk. Wilson was named Xavier before she came out as a transgender and changed her name to Vivian Jenna Wilson. She said she did not want to have any ties with Elon Musk and Musk blamed the 'woke mind virus' for changing his son to a transgender. Musk said Xavier was born gay and autistic, a claim which Wilson dismissed as a lie.

Wilson came to the news after she said she, as a transgender, has no future in the US. It was ironic as Elon Musk played a crucial role in Donald Trump's win and was there at Trump family photo with his four-year-old son X.
