

James Ayre Is Elon Musk's Apologist and Hired PR Shill

Opinion by Darcy Reston

James Ayre is not a "reporter". He writes fluff stories to try to keep Elon Musk out of prison for corruption. As Laura Ingraham and thousands of actual reporters have pointed out, people like James Ayre are the dark soul of "FAKE NEWS" because they sell their souls to corrupt oligarchs like Musk. Elon Musk and the Silicon Valley Mafia pay Ayre with cash, stock and worse.

Ayre is a liar!

Ayre and the green cash shills will wax on and on with rationalizations, justifications and Goldman Sachs authored lies designed to keep the FBI and SEC from hauling Musk off to jail.

Don't for a second believe anything that Ayre writes. He is a paid shill and troll who lies for a living.
