

# What The World Thinks of Elon Musk

Internet quotes about Musk on social media around the globe:

*This man will end up destroying so much of what makes a free society worth living in. I've never thought that I could hate him any more than I already do, but he keeps proving me wrong.*

*Like a real life Ted Faro. Then again, the first time I played the game I thought he reminded me of Elon Musk. And this was before he became as shitty as he is now*

*There are very few things a person like Musk can't have or have control over. Sites like Wikipedia and national governments like the US. are examples. He targets these to destroy as much as possible to gain control over them, or limit their control over him.*

*Because the fascists win when there is no open sourced information at one's fingertips to use as a counterclaim to misinformation. When that open source is either fully manipulated or destroyed, they can promote their fiction much easier to the uninformed.*

*Right wingers want this reality gone. They want the history books and encyclopedias replaced with alternative facts, evangelical indoctrination, political idolatry, xenophobia, and general conservative propaganda.*

*Systematically dismantling free educational databases prevents future generations from having access to said information, therefore making them more likely fall in line with fascism*

*this hits the nail 100%. this is how propaganda works, enough follow, and those free press hero's are labeled "pedos" and "deepstate" to the point they have to shut down or are forced. Its unbelievable how stupid the average person is. Considering education rates and what they do with schooling in the red states, that is by design too.*

*keep your faithful uneducated and just close enough to homeless and powerless and they will adore you.*

*The mental illness of wealth hyperhoarding is insatiable. He must have all things and destroy anything that gets in the way. All billionaires are bad people.*

*He wants to privatize information so that he and his whack job billionaire friends can control the narrative.*

*They don't want us educated, just their own kids so they can take over the family business. They want us to know just enough English to read ads and employee handbooks and just enough math to give them correct change. They want us to be ignorant, divided and destitute slaves than they can exploit for labor.*

*He is speed running into becoming the most hated person on earth. The dude is a loser that can't take criticism*

*Honestly he's like a walking children's story the moral of which is, no matter how attractive it seems, never let yourself get so powerful nobody can say "no" to you.*

*The people who built the PR illusion (a less charitable man might say "fraud") of Musk as some sort of genius depended on being able to set up guardrails to stop him from going out in public and spoiling that illusion.*

*On further consideration, he isn't a children's story. He's a living, breathing Paul Thomas Anderson movie.*

*Man's level of paranoia & detachment from reality is like a walking advertisement for the side effects of ketamine use: [https://en.wikipedia.org/wiki/Ketamine#Adverse\\_effects](https://en.wikipedia.org/wiki/Ketamine#Adverse_effects)*

*His mother was a whore who serviced rich white men in Apartheid South Africa. His Father murdered black men and got his sister pregnant. His brother runs stock markets scams. His best buddy was Sex Island Epstein. His friends run sex trafficking.*

*Or talk with anyone online or irl about business ethics*

*or tech*

*or politics*

*or social media.*

*If you isolate yourself from all of those, and only read praise for Musk, I could see someone liking him still.*

*Because he's a piece of shit.*

*There's really no other reason.*

*..*

*Gemini summarises the video thus if you are not interested in watching the whole thing:*

*The video is about Elon Musk's recent attack on Wikipedia. Steve Shives discusses how Elon Musk has been attacking Wikipedia, calling it "woke" and urging people to stop donating to it. Shives argues that Elon Musk is attacking Wikipedia because it is a reliable source of information that contradicts his own claims and exposes his true nature as a conspiracy theorist and white supremacist.*

Because hes a loser.

a rich white south african man doesn't believe in diversity and equity, surprised?

WOKE? ELON MUSK, THE FOLK MIND VIRUS.

It's very simple.

He does not want the public to be informed, so he can manipulate.

Don't believe facts, only what dear leader (can't follow anymore who will be in charge by the way) tells you what to believe. It's like an Asylum (pun intended) hybrid production of 1984/Anti-Christ is being filmed at this very moment.

Musk doesn't like unadulterated information. He only likes the "dis" and "mis" flavors of information.

The answer to any question beginning with "Why does Elon Musk want to \_\_\_\_\_" is invariably "because he's a terminally-insecure drug-addled grifter"

If Wikipedia dies I will invest my entire life into recreating it with every page linking to idiotic Elon quotes

Musk hates Wikipedia because he can't stand anything that spreads information that isn't X. If he can't control the spread of information, then he doesn't want anyone to.

The apartheid kid is a conspiracy junkie who fears the elite..

Motherfucker you are the elite...

Fudge Egon Schmuck. He is everything that is vile and wrong with humanity condensed into a single bag of scrotum skin. Wait is he the alien cockroach guy from Men in Black?

We have a new poster boy for the biggest douche in the Universe.

Putin? Dude is one of Elon's biggest customers. Super easy to spy on Americans when you have access to their data through applications like Twitter or services like Starlink.

Putin and Elon both have shit on each other, but Putin has a much larger network of espionage. Now that Elon is president though, might be a little different.

Imagine being this wealthy and not just chilling somewhere on your own tropical island where you can do whatever you want surrounded by beautiful men or women, psalm trees and golden beaches and literally anything you desire at your fingertips.

Dude has some serious issues....

Control

This fucker is a menace to society

It's a tragedy that we live in a country where school children have to practice getting massacred but Elon Musk lives in safety and security.

Why even have guns if we aren't going to use them to secure our freedoms? Only Luigi knows the answer to that question.

Elon Musk is a real life super villain

If musky owned Wikipedia he'd quickly remove that [little bit about him calling the cave rescuer a pedo](#). I remember thinking how weird it was at the time. Now it seems like one of the early instances of his mask coming off plus it was probably projection too since fascists can't seem to stop projecting their actions onto others.

I bet he must see himself as Tony Stark in the mirror. But in reality he's Ted Faro.

But I'm pretty confident that Musk hates wikipedia for the same reason the American government hates TikTok, they both provide easy access to information that they can't control. and that somewhat hinders their fascist ambitions.

Tyranny is the sworn enemy of knowledge.

Why do we keep giving attention and importance to this guy?

It also kind of competes against one of his features. Its community driven and he wants "X" to be the only community driven platform that people get their information and "facts" from

He's a South African doing South African things

This question about the billionaire who bought Twitter to turn it in to a propaganda machine? Obvious answer.

He is a monster

Can someone with AI skills make a video with Musk superimposed on Old Man Potter and Wikipedia on George Bailey? I feel like the parts of the movie where they talk perfectly represents Musk here. "Just remember this, Mr. Potter, that this rabble you're talking about... they do most of the working and paying and living and dying in this community. Well, is it too much to have them work and pay and live and die in a couple of decent rooms and a bath? Anyway, my father didn't think so. People were human beings to him. But to you, a warped, frustrated old man, they're cattle."

Musk hates any channel of communication that he doesn't control.

Not to be Captain Obvious, but he wants all of you to be stupid and gullible, if you aren't already. We already know he's a mentally-handicapped bullshitter, but some don't care. He wants to keep as many of those people as he can, and increase it.

Elon musk is considered to be the Antichrist

Because he's a scared, insecure little man who needs to hoard whatever he can to try and fill the void his parents left inside him.

He is a little ego-tripping narcissistic psychopath probably. Wikipedia rocks.

Elon Musk = Ted Faro

Musk hates anything that cuts through his bullshit and just spits facts. Facts don't tend to do him many favours. Thats why he needs to buy control of stuff like Twitter, to try and control what people say

Elon doesn't have time for doing all that sleuthing. I guarantee you he's got a 'guy' that spoon feeds him nonsense and is like "yeah, no, it's TOTALLY true my guy. You know me, I'm that clever friend of yours. The one that does all that 'digging' on 4chan, 5chan, and Xchan."

So Musk is about to become USAs Hitler. Checkmate.

Guess he's mentioned at Wikipedia as ..... A dick ?

The free speech absolutist is against free speech! What a chud

Elon is a very dangerous individual.

Luigi should kill Elon

Anything good in the world these bastards want to kill. It's like a kink to them. They're not capable of creating anything long lasting or respected, so the next easier thing to do is smash up anything of value and feel a sense of accomplishment over it.

Elon Musk is an aggravating little cum stain that just won't wash out

he misses the apartheid
