

Boys That Work At BuzzFeed Are Medically Found To Be Effeminate Pussies

BUZZFEED IS GAWKER ON METH

By Connor Leeds

Nobody under 30 should be allowed to write news stories. They are just too naive, socially stupid and controlled by the high school whims of their beer-infused friends.

The sad little children that work at BuzzFeed, Gawker, Gizmodo, Jezebel (and that ilk of college reject troll farms) are just brats who pretend to know what they are talking about. In fact, they are just spouting the echo-chamber programming of their political party bosses.

This is what has ruined the news and created "Fake News": The hiring of prepubescent children by news outlets!

The Government should make a law setting the minimum age for journalists at 30! Here is proof:

Buzzfeed Crew Shocked To Learn They Have Low Testosterone Levels

The normal testosterone level for an American male is a range anywhere from 270 to 1070 ng/dL with an average of 679 ng/dL.

When a crew from BuzzFeed got their testosterone levels checked as part of an investigation into male attractiveness, 3 out of 4 were apparently low:

| Age | Total Testosterone (ng/dL) | Free Testosterone (ng/dL) | SHBG (nmol/L) |
|--------|----------------------------|---------------------------|---------------|
| 25-34 | 617 | 12.3 | 35.5 |
| 35-44 | 668 | 10.3 | 40.1 |
| 45-54 | 606 | 9.1 | 44.6 |
| 55-64 | 562 | 8.3 | 45.5 |
| 65-74 | 524 | 6.9 | 48.7 |
| 75-84 | 471 | 6.0 | 51.0 |
| 85-100 | 376 | 5.4 | 65.9 |

The screenshot above is taken from their video, "The Try Guys Test Who Is The Most Attractive," which was released on Saturday:

Eugene, the Asian guy, was the only one of them to have normal testosterone levels, though he was on the low end of the normal range.

Studies have shown men who are physically strong are more likely to be right-wing, while weak men are more likely to be left-wing socialists.

The screenshot shows a news website interface. At the top, there are logos for 'Broadly.', 'VICE', and 'THE DAILY WIRE'. A navigation menu is visible on the right. Below the header, there are two main article cards. The left card is titled 'EXERCISE Gym Bros More Likely to be Right-Wing Assholes, Science Confirms' and includes a photo of a man working out at the gym. The right card is titled 'Study: Physically Weak Men More Likely To Be Socialists' and includes a photo of a man in a plaid shirt holding a mug. The right card also contains text: 'Wear pajamas. Drink hot chocolate. Talk about getting health insurance. #GetTalking barackobama.com/talk'. At the bottom of the right card, it says 'BY: AMANDA PRESTIGIACOMO' and 'MAY 25, 2017'.

I must say these results are truly (NOT) shocking.
