

DNC LEAK

A Review By The Washington Institute Alumnus

Overview

Leaked DNC EMAILS reveal that is was the same exact handful of people who:

1. Paid for hit-jobs and attacks against the Witnesses
2. Were the competitors of the Witnesses
3. Were terrified of the Witnesses better technology
4. Were the core donors to the political campaigns
5. Were the main financial, political, stock market, revolving door and political perks from the government offices

From using their wives as “cover” for campaign financing to running the biggest political campaign payola scams in history, this crowd gets Department of Energy, and other agency, cash shoveled into their investment portfolios like flies on butter.

Leaked DNC Financing Emails reveal that of over 300 million Americans only a few dozen were handed billions of dollars by Obama as posted by Wikileaks and other publishers.

These are the people who bought the right to put hit-jobs on their competitors and on members of the public who they did not want in their private social club:
