You can **stop** CORRUPTION

This is your free login to a free global public wiki comprised of media networks operated by volunteers around the world. This is an open source gift from the programmers of the world for your use to share news and information. It works something like Reddit, or Voat or Wikipedia.

THE MOST IMPORTANT THINGS YOU CAN DO ARE:
1. READ THE NEWS
2. SHARE AND RE-POST THE NEWS STORIES TO OTHER BLOGS AND SOCIAL MEDIA SITES IN ORDER TO GET AROUND NEWS BIAS & CENSORING OUTLETS

Download video files to play them on your device. For security and efficiency purposes, these videos do not usually stream (But they may, depending on your browser or device). You will get a true-mobile, buffer-free, artifact-free, no-lag, media experience if you download and play the videos on your own device. Put all downloaded files in a specific folder on your device which is always scanned for malware.

All documents uploaded should be in .PNG or .PDF formats. All videos should be in .OGG or .MP4 formats. All images should be in .PNG format. Other formats are accommodated but they may not always function.

All media that documents a crime is forwarded, by users, to all entities who enforce the law and human rights standards.

You can upload anything relevant as long as it does not break the law. The icon in the upper right corner of the white space lets you switch from list-view to gallery-view.

Please mirror this site if you have extra server space.

Anyone who uses DMCA notices or copyright claims to attempt to censor the news will be tracked and outed to the entire internet using the "Streisand Effect".

Public Commons Standard Notices:

This WIKI News & Public Information Site is compliant with, and protected by,:

EU Privacy Rules, SLAPP/ANTI-SLAPP, Creative Commons, Fair Use Doctrine, U.N. Press Freedom Statutes, U.S. First Amendment, Freedom-of-the-Press, DMCA, International Free Speech Standards, ACLU precedents, EFF precedents, Privacy Rights Rules of Spain, National Journalism Standards and Related Standards.

REGARDING THE CLEANTECH CRASH CRIME FILES:

This repository contains less than 10% of the evidence material acquired. A read-through of even this small portion of the evidence should convince any person of high-school level intelligence of the veracity of the charges.

"The truth cannot be told, so as to be understood, without being believed"

" Deeds done in the dark will soon see the light"

To date, the victims of these crimes have been maliciously denied their State and Federal Constitutional Rights and they have been denied a fair hearing in court with equal legal representation. These violations of the victims rights have been perpetrated in order to prevent the public from hearing the facts about these crimes.

NOTICE TO THE PERPETRATORS OF THESE CRIMES:

"Because you tried to kill us, our companies, our families incomes, reputations and America's future, and because you actually did kill some of us, we are bringing justice to you.

Working with reporters, researchers, citizen journalists, law enforcement specialists, forensic technologists and victims every perpetrator has been identified, dossier'd and reported to enforcement entities on multiple continents. Every single one has been tracked down and case files have been assembled on each one. Each individual and each company that operated these crimes will be either terminated and/or prosecuted in court. None of the interdictions of these criminals will break a single law but EVERY one of the law-breakers, who engaged in these crimes, will meet Justice."
