**CAROL BATTERSHELL**

Ms. Battershell joined the Department of Energy in 2008 after 25 years in the energy industry with Standard Oil and BP. As Senior Advisor to the Assistant Secretary she provides advice and coordination to help develop public-private partnerships with key industries to conduct a program of commercialization and deployment which will lead to the increased use of energy efficiency and renewables in the US.

Her most recent roles at BP included:

- Vice President, Policy and Strategy for BP Alternative Energy where she was instrumental in developing the strategy and business case for an 8 billion dollar investment to launch and grow the new BP Alternative Energy division, and
- Vice President, Renewables and Alternative Fuels where she directed BP’s global activities in hydrogen and wind, as well as managed BP’s “green energy” marketing and consulting company.

Additional energy industry positions have included operations and strategy roles in retail fuels marketing, strategy and financial roles in business-to-business fuels marketing, as well a corporate role in environmental policy and a development role as chief of staff to one of BP’s most senior executives.

She began her career as a refinery engineer in Ohio.

Carol has a BS in engineering from Purdue University where she specialized in environmental engineering and an MBA from Case Western Reserve University.

She has worked in a variety of locations in the US, and spent ten years living and working in Europe.
