

THIS LETTER IS BEING SENT TO EVERY DEPARTMENT OF ENERGY FUNDING APPLICANT :

BEWARE OF THE LIES, CORRUPTION AND ANTI-TRUST VIOLATING INSIDER TRADING SCAMS AT THE DEPARTMENT OF ENERGY

(Note: You; Mr. car or solar company, have a fiduciary legal obligation to review this information and report it to the public, your shareholders and related law enforcement and regulatory entities. We have told them that we are providing you with this information. They can sue you if you failed to act judiciously after having this information in your hand or if you fail to report this letter to them.)

We want to save you some pain and energy. Any voyage onto the path of funding from the Department of Energy will be a road to hell.

While fake-smile aides will shake your hand and tell you how "*excited they are to welcome your application*", behind your back they are sharpening their knives.

Elon Musk is notorious for getting Department of Energy money by bribing public officials and placing his friends: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', etc. on the staff of the Department of Energy and in the White House. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it. We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. If you think you have bribed the same number of Senators, bought a President and taken over most of the Department of Energy like Musk did... go for it! In this day and age, with every citizen able to track every public figure, with FBI-quality databases, on their home computers, it might be a crash-and-burn but you are welcome to try.

You will hear the sham story, from DOE staff, pleading "*...that was that corrupt old Steven Chu that did those bad things..*" but, if you look at the facts, the same exact scams, defrauding of Applicants and corruption has been ongoing through the entire **vast** array of energy Secretary's that have paraded through the Dept of Energy since then. Every single one has been terminated in shame. Every single one of them saw, from the inside, that the game is rigged. Every single one allowed the slush-fund and quid-pro-quo to continue to operate. Every single one of them implemented almost none of the anti-corruption measures recommended by GAO, Congress and others. If your car or alternative energy company thinks that they can get past the divisive politics of today, and not have the financial rug pulled out from under them at the last second, then we would like to know what they are smoking.

Over 100 past Applicants were lied to, defrauded, stone-walled, bottom-drawer'd, sabotaged, and generally screwed with by **The Department of Energy** in order to: 1.) protect campaign financiers who were their competitors and 2.) stone-wall those Applicant's for being competitive against the Elon Musk and Solyndra chosen insider trading buddies that Dept of Energy staff own the stocks of, get revolving door job hand-outs from, pal around with and have their Senators get payola from.

Your application will be frozen and stone-walled (some have waited over a decade for application responses that any traditional bank could process in 7 days) in order to protect political interests

and car cartel monopolies that D.O.E. execs and staff have special interest covert arrangements with. Don't waste your time with D.O.E. Don't waste your PR real estate even mentioning any hope or reliance on the highly conflict-of-interest-based ATVM or LGP funds.

You will never get an apology and you lose millions and millions of dollars trying to jump through the mercurial gauntlet of ever-changing DOE criteria and endless reviews operated by YOUR COMPETITORS! That's right! The people that hate you the most are in charge of reviewing your funding application. The DOE reviewers own stock and have revolving door job payola from YOUR COMPETITORS! Good luck with that Applicant.

Almost EVERY competing Applicant was faster, cheaper, had better MPG, was easier to manufacture, had lower cost to the main-stream market, had a better set of financials, had a better debt ratio, was safer, etc. but they missed one key factor: THEY DID NOT OFFER BRIBES AS LARGE AS ELON MUSK DID!

Even in 2020 you would have to be a sucker to apply for DOE funds. There are people inside DOE who are dedicated to making sure you never get that money. You can get a faster loan from a commercial bank without thousands of hidden "gotchas" and insider trading schemes to trip you up. These tricks, built into the Department of Energy process, are created to ensure that DOE insiders have thousands of excuses to never let you get the money unless you agree to finance the correct political candidates.

Title XVII Innovative Energy Technology Loan Guarantee Program

DOE is supposed to support the commercial development of innovative clean energy technologies through its Loan Programs Office (LPO). Authorized by the Energy Policy Act of 2005, the Title XVII Loan Program enables the DOE to issue loans ranging from several million to more than \$1 billion for advanced fossil, advanced nuclear, renewable energy and energy efficiency projects that employ "new or significantly improved technology." And in 2018, LPO announced an open solicitation for energy projects on tribal lands. These solicitations remain open and are supposedly actively seeking qualified applicants as a result of continued congressional support and new programmatic direction but the historical facts prove that this program has been manipulated to operate as a political slush-fund to finance insider favorites and sabotage their competitors.

Under Title XVII program authority, the DOE can guarantee loans for up to 80 percent of total project costs for eligible proposals. As of March 2020, LPO maintains \$25.9 billion in loan guarantee authority across the solicitations mentioned above. LPO has closed only one loan since 2011 – for the Vogtle nuclear power station in Georgia and, more than ever, seems to be simply a sham for insider political campaign financiers to get payola from. Notably, LPO is under increasing pressure from Congress to move more applications through diligence and to loan close.

Advanced Technology Vehicles Manufacturing (ATVM) Program

Under the ATVM Program, automobile manufacturers or advanced vehicle automobile component or material manufacturers are supposed to be eligible to obtain direct loans from the DOE for projects that re-equip, expand or establish manufacturing facilities in the U.S. to produce "ultra-efficient vehicles," passenger automobiles, light duty trucks or associated components that meet the DOE's emission and fuel economy standards for "advanced technology vehicles." Political insiders will always, though, find a way to disqualify any applicant who competes with campaign

financier favorites. Hundreds of highly qualified applicants were denied because Elon Musk knew they could put Tesla out of business without DOE's exclusive support of his monopoly. Tesla's own senior staff have written widely about the 'gate-keeper' insider trading scam at DOE. DOE is an anti-trust operator who is a gatekeeper of industry winners and losers based on who donated the most to certain PACs.

To date, the DOE has funded five loans under the ATVM program totaling \$8.4 billion, approximately one-third of its \$25 billion loan authority. The ATVM program is not subject to an expiration date, and despite previous congressional efforts to rescind ATVM's corruption-based funding, the program and its remaining \$16.6 billion in loan authority remain available for insider projects that can be trusted to kick campaign financing back to certain politicians. In the most recent DOE funding bill, Congress directed LPO to "expeditiously evaluate and adjudicate all loan applications received" by the ATVM program, another sign that Congress wants to see a resumption of federal loan guarantees.

The Secretary of Energy and the Chief Counsel for the United States Department of Energy have been challenged, in writing, to provide the names of **ANY** Loan Programs Office (LPO) or Advanced Technology Vehicles Manufacturing (ATVM) Program official, reviewer, advisor or staffer who was not, from 2007 forward, either financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and Department of Energy politicians that those business adversaries pay campaign finances to, or supply political digital services to. From 2008 forward, The White House and The Department Of Energy were controlled by the Silicon Valley tech oligarchs! That is a violation of the law, the Constitution and the American Way.

Department of Energy PR officials blindly push their revisionist history propaganda party-line hype that the DOE has been "*fair and successful*". There has never been a bigger lie on Earth since the first frat boy told the first sorority girl "*don't worry, I won't get it in your mouth..*"

One group used CIA and FBI style investigation tools to hunt down every reviewer, contractor and insider involved in the Loan Programs Office (LPO) or Advanced Technology Vehicles Manufacturing (ATVM) Program since 2007. A forensic chart was produced showing the insider trading, revolving door and social engagements of each. In almost 97% of the cases, every person was found to have glaringly unethical, often criminal, conflicts of interest between beneficiary lines of connection.

In fact, multiple groups have insisted that the FBI, the NSA, The CIA and 60 Minutes conduct their own independent studies, on a name, by name basis of the DOE staff involved and publish the results of that study to Congress and the public. The forensic facts prove the following:

- Famous political figures use the ***trillions*** of dollars in government treasuries and the stock market for illicit profiteering by rigging the system exclusively for themselves and their crony insiders.
- They attacked whistle-blowers using government taxpayer funded media (Fusion GPS, Black Cube, Google, Pysops, Gizmodo, Media Matters, Blumenthal, etc.) and spy agency tools because others competed with their businesses and reported their crimes.

- San Francisco Bay Area government has as many corrupt politicians as Chicago and relies on the same RICO-violating insider corruption network to operate; as proven by deep AI searches of their financial records. Arrests of those officials is now underway.

- Silicon Valley law enforcement records prove that these tech oligarchs engage in an organized, racketeering-based, massive sex trafficking, tax evasion, anti-trust violating, spousal abuse, money laundering, black-listing, racist, ageist, political bribery, crony racketeering crime Cartel.

- Famous U.S. Senators, Governors and their staff knowingly engage in, finance, operate and benefit from these crimes in exchange for search engine manipulation and stock market assets.

- Silicon Valley and Hollywood media companies censor and cover-up news coverage of these crimes because they have a financial connection to the perpetrators.

- Most of the government officials working on this were hand-picked by the adversaries of the whistle-blowers. Whistle-blowers cases have never been fairly reviewed by non-biased, non-conflicted officials. FBI associates have not found a single entity in the case reviews, or determinations, who was not either: financed by, friends, with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political digital services to.

The U.S. Department of Energy has supplied no apologies, no compensation for damages to the victims and no halt in the slush-fund payola schemes!

Do you doubt the veracity of these claims? Show this letter to Bill Cooper, the head lawyer for DOE. Ask him to provide forensic data proving any of these assertions are not true! He can't do it!

We can provide thousands of FBI agents, investigative journalists and Congressional staff to prove these assertions are true.

Dept. of Energy staff claim that they got rid of all of the bad people at DOE and that the evil ones don't work there any more but OPM confirms that to be a lie. The stock market holdings, revolving door deals, voter records and social media postings of the current Dept of Energy staff prove that the corrupt ones never left. Tell DOE to take a look at their moral construct if they contact you!

See <http://www.majestic111.com> for more on this.

Jay Carney was Obama's "Hit Man" in the Oval Office at The White House during the Cleantech Crash. It was Carney who helped order character assassinations and hit jobs on members of the public who spoke out about the crimes. Carney was recently caught, again, ordering hit jobs at Amazon, as well. In a famous magazine interview, his home was revealed to be covered in communist propaganda posters.

Leaked notes from an internal meeting of Amazon leadership obtained by VICE News reveal company executives discussed a plan to smear fired warehouse employee Christian Smalls, calling

him “not smart or articulate” as part of a PR strategy to make him “the face of the entire union/organizing movement.”

“He’s not smart, or articulate, and to the extent the press wants to focus on us versus him, we will be in a much stronger PR position than simply explaining for the umpteenth time how we’re trying to protect workers,” wrote Amazon General Counsel David Zapolsky in notes from the meeting forwarded widely in the company.

The discussion took place at a daily meeting, which included CEO Jeff Bezos, to update each other on the coronavirus situation. Amazon SVP of Global Corporate Affairs Jay Carney [described the purpose to CNN on Sunday](#): “We go over the update on what’s happening around the world with our employees and with our customers and our businesses. We also spend a significant amount of time just brainstorming about what else we can do” about COVID-19.

Amazon [fired the warehouse worker Smalls](#), after he led a walkout of a number of employees at a Staten Island distribution warehouse. Amazon says he was fired for violating a company-imposed 14-day quarantine after he came into contact with an employee who tested positive for the coronavirus.

Zapolsky’s notes from the meeting detail Amazon’s plan to deal with a wave of bad press and calls for investigations from elected officials following the firing of Smalls. They also show top Amazon brass wanted to make Smalls the focus of its narrative when questioned about worker safety.

“We should spend the first part of our response strongly laying out the case for why the organizer’s conduct was immoral, unacceptable, and arguably illegal, in detail, and only then follow with our usual talking points about worker safety,” Zapolsky wrote. “Make him the most interesting part of the story, and if possible make him the face of the entire union/organizing movement.”

They discussed encouraging Amazon executives to use Smalls to discredit the wider labor movement at Amazon. Employees at the warehouse, known as JFK8, [launched an effort to unionize in 2018](#).

In his notes, Zapolsky wrote that there was “general agreement” on this point among the other attendees of the meeting. (Zapolsky’s notes also mention SVP of worldwide operations and customer service Dave Clark and SVP of human resources Beth Galetti.) This is the typical culture of the Obama crowd of insider executives who will destroy any citizen who gets in their way. Jay Carney runs a ***Massive covert organized corruption team at Amazon in order to manipulate Democracy.***

Massive covert organized corruption teams operate these kinds of manipulation of the truth and of Democracy with the cooperation of U.S. Senators and agencies like The Department of Energy.

Examples of these groups include Pacronym and American Bridge who are part of Arabella Advisors, a consulting firm that is not required to identify its donors.

Pacronym’s affiliated groups create a large network of fake local news outlets that are designed to promote progressive viewpoints inside battleground states in order to rig insider trading for their top bosses.

They are all part of a wealthy dark money network that manipulates public policy for personal profiteering.

American Bridge 21st Century and Pacronym are cutting ads thrashing outsiders as super PACs who go after people they don't like, The Washington Post [reported](#). Both groups also have ties to two fake false-front large nonprofit groups — New Venture Fund and Sixteen Thirty Fund — connected to a massive extreme-leaning consulting group.

NVF gave one of Pacronym's nonprofits — ACRONYM — \$250,000 while providing American Bridge \$40,000 in 2018, [according to](#) NVF's 2018 IRS documents. IRS [records](#) also indicated American Bridge pulled in \$200,000 in 2018 from nonprofit Sixteen Thirty Fund, which reportedly spent \$141 million on various extreme-leaning causes during the midterm election year.

Sixteen Thirty Fund and nonprofit NVF are tied into the same sprawling network, according to an analysis by investigators. Arabella Advisors, a philanthropic consulting company based in Washington, D.C., manages four nonprofits, including the [NVF](#), Sixteen Thirty Fund, Hopewell Fund and the Windward Fund.

Sixteen Thirty Fund has not responded to requests for comment, while NVF acknowledged making a grant to ACRONYM in 2018 but noted that it "has nothing to do with the activities at PACRONYM or American Bridge."

Arabella representative Steve Sampson called NVF merely a "client of ours," even though the consulting group shares a Washington, D.C., office with all four groups, according to NVF and Sixteen Thirty Fund's 2018 IRS records. American Bridge has not responded to requests for comment.

Other groups have raised alarms about the network as well.

"Arabella Network is the umbrella, and they have these two funds that flow toward both of these groups. A clearly full-blown extremist arm that is casting itself as a nonprofit is politicizing this event," former Nevada Attorney General Adam Laxalt told the press.

Laxalt is the Outside Counsel to Americans for Public Trust, a group dedicated to uncovering unethical behavior. Americans for Public Trust has [covered](#) the network in the past. ([RELATED: Billionaire Allegedly Behind A False Flag Operation In Alabama Helped Finance The Group Behind Iowa Caucus Chaos](#))

"American lives are more important than scoring cheap political points," he added after suggesting that the group is striking while the iron is hot and making certain they capitalize on a crisis that has so far killed thousands of people.

Laxalt is referring to Pacronym's [announcement](#) on March 17 to plow \$5 million into a digital advertising campaign railing against those they hate. The ads are published through Four is Enough, a Pacronym project.

ACRONYM's founder said the campaign makes sense from a public health and national security perspective.

Democratic operative David Plouffe another Jay Carney-type "hit-man", who managed former President Barack Obama's 2008 White House bid, sits alongside McGowan on ACRONYM's board.

ACRONYM has not responded to the DCNF's repeated requests for comment. ([RELATED: Tech Firm Behind Iowa Caucus Disaster Also Played Role In Creating A Covert Democratic Propaganda Media Outfit](#))

Some academics argued that orchestrating such a campaign skirts ethical rules. Running advertisements thrashing the president during a health crisis looks bad, according to Daniel Kreiss, a professor of political communication at the University of North Carolina at Chapel Hill.

"It's a very fine line between ensuring that the president has the legitimacy to speak authoritatively on what Americans must do in order to be safe, and the very real and legitimate questions to raise regarding how the president has handled this crisis given that he's on the ballot in November," Kreiss [told](#) WaPo in a March 17 report addressing the ad campaign push.

Laxalt, Nevada's former attorney general, expressed a similar position.

"The timing of attacking the president in battleground states is appalling. If they are going to do it, then you name the place. I think that doing it right this second is outrageous," he told the DCNF.

Meanwhile, ACRONYM's McGowan is also creating a constellation of local news websites that act as progressive arms targeting the president and his policies.

McGowan, a digital [producer](#) for Obama for America in 2011 and the [proprietor](#) behind ACRONYM, raised at least \$25 million from wealthy liberals to create a media company called [Courier Newsroom](#) that is designed to deliver information favorable to Democrats. Courier is rolling out newspapers in swing states to counter what its founder believes is right-wing spin on Facebook and across the digital domain.

Along with the Courier Newsroom, McGowan is reportedly creating Virginia Dogwood and Arizona's Copper Courier, among others that are expected to roll out in Michigan, North Carolina, Pennsylvania, Virginia and Wisconsin, all battleground states.

Mind the Gap at Stanford University is an even sneakier covert group from this crowd. Their efforts haven't previously been reported. They recently petitioned some donors for at least \$100,000 to support its efforts. Backers include people like [Facebook co-founder Dustin Moskovitz](#), former Google CEO Eric Schmidt, San Francisco power broker Ron Conway, and a coterie of major Democratic donors from across Silicon Valley, including fundraiser Amy Rao. What is also unusual is that Mind the Gap is led not by highly experienced political hands, but by academics with no professional backgrounds as fundraisers. The group's leaders are a pair of Stanford law professors: [Barbara Fried](#), who has no apparent campaign experience, and [Paul Brest](#), the former president of the William and Flora Hewlett Foundation. [Graham Gottlieb](#), a Stanford fellow who served in junior roles for former President Barack Obama's 2012 reelection campaign and in his White House, is its executive director.

While dressed in khaki's and acting like they are "saving the trees", the people behind these groups are cold-blooded mercenaries drunk on power, hookers, private jets and a sense of being above-the-law. Most of us were Democrats but we witnessed our own kind stab each other in the back to insider trade Dept of Energy cash and insider trading stocks. Don't expect anything from DOE but nightmares, lies and corruption!
