

# THE WORLD IS TRYING TO GET RID OF ELON MUSK STARLINK SPACEX DOMESTIC SPYING SATELLITES

PARIS—Eva Berneke was traveling to meet European officials when [Elon Musk](#) posted on his social-media site X that “Ukraine’s entire front line would collapse” if he turned off his satellite internet service Starlink there.

“This is going to be extremely positive,” thought Berneke, a Danish engineer who is the chief executive of [Eutelsat](#), Europe’s smaller rival to Starlink.
