

# AFI FELONY MONOPOLY CARTEL CASE - NVCA/IQT, Case #114

Sun, 18 Jan 2015 16:00:00, newstips66, [category: brotopia, category: google-alphabet, category: idea-theft, category: senator-insider-trading, category: worldnews]

AFI reporters feel that they have sourced evidence that details a cartel activity among the National Venture Capital Association leaders. Their members are also the same people who founded and run In-Q-Tel. These same people are also the people who lobby federal executive policy, mostly to benefit their personal stock portfolios. It is implied that the NVCA/IQT Cartel decide who gets government contracts in exchange for certain campaign resources. From their online postings:

## IS THE NATIONAL VENTURE CAPITAL ASSOCIATION (NVCA) ACTUALLY A MAFIA-LIKE CARTEL?

- Does the NVCA control the SEC as charged? Is the SEC serving the NVCA instead of the public?
- Collusion, Cartels and Crime charged in unregulated elites club with no over-sight!
- Bigger than "[ANGELGATE](#)" ([click for details](#))
- Did they order a "[murder for hire](#)" on a [whistle-blower](#)?
- Are they killing competitors via collusion AND actually killing individuals with media and mobster "hit-jobs"?
- Is Breyer the "Don"?

Are these people colluding at the 2010 NVCA meeting? That's right. The National Venture Capital Association. Where will the **collusion** stop!?

More News! Jan. 30, 2014—Baidu says attorney Parker Zhang is "[Chief of Patents](#)." It is very unusual for a junior attorney to reach such a position of power. Zhang graduated from Michigan Law in 2005. He was an Associate at Fenwick & West LLP from 2006-2010. After less than a year as "IP Consultant" at Hewlett-Packard, he became "Chief of Patents" at Baidu, in about May 2012. [CLICK HERE for a bio.](#)

Marauding Obama Donors: Zhang's move to Baidu, Inc. coincides with the unreported Sands Capital securities transactions analyzed below. Also during his move, Facebook went public, T. Rowe Price invested \$190.5 million in Facebook and \$147 million in Baidu. Fenwick & West LLP was Facebook's securities and patent counsel. The *Leader v. Facebook* case was on appeal at the Federal Circuit where the judges were heavily invested in Facebook, and the S.E.C. Chair in Baidu (e.g., [T. Rowe Price PRGFX](#))

## Why Some People (like the NVCA) Want MORE domestic spying!

There are over 40 different agencies and data harvesters watching and recording everything you do on your phone, computer, car and anything else electronic. That does not include the hackers, foreign governments and stalkers. They analyze you, with that information they try to trick you into purchasing or voting certain ways via subliminal messaging and mood manipulation. When you say, or write, something that makes any of them concerned, they increase their monitoring of you. Everybody now has an analysis file associated with their name. You are ranked by how much trouble you are likely to cause.

Is that George Orwell's "1984"?

The bigger question is: "Why did so many of the people we hired to run our countries go so overboard with digital manipulation?"

It may have to do with the power of community and the abuse of the public, by a few, finally coming to light.

The power of community brought the Catholic sex abuse catastrophe to light.

The power of community changed the structure of the Middle East forever.

The power of community made the internet the internet.

Those who have chosen careers as dictators, mobsters and corrupt politicians HATE the internet and the power of community.

The biggest push-back has come from the corrupt politicians because they are so well financed, and, they are financed by the tax money from the very community that now has the power. The power of community just became equal to the power of a billionaire's bank account.

This is the greatest fear of the corrupt. The corrupt can only exist in the shadows. They can only steal tax money when nobody is looking. With the power of community, their schemes are crumbling. Their Solyndra's are crashing and burning. Their Madoff's are uncovered. Their Countrywide's are laid bare. Some of the corrupt Senators and their campaign backer billionaires are calling for "more surveillance", more control of access and more limits of free speech. This is because they are scared.

Here is one example of a grand corruption that has recently been "outed" by the power of community:

America was always viewed as the "Great Innovator of the World". That is no longer the case, thanks to a group called the National Venture Capital Association (NVCA).

They conspire, collude, and coordinate who gets funded and who gets shut-down. If you compete with their boys, they blacklist you. If your new product might threaten their holdings, they use their Gust database and VC-Link and other data mining services to make sure you never get any money for your idea, no matter how great it is.

In a well known scandal called: "AngelGate", a group of VC's were documented having one of the weekly collusion meetings they all attend, to decide which insiders get to play the game and who gets rolled over. The founders of the NVCA are the same people involved in the sinister In-Q-Tel organization and the various "public information foundations" that are now under intense scrutiny for public policy manipulation.

Even though they helped fund the internet, the VC's are not the smartest tools in the shed. They are not the "idea guys". They move like sheep in a herd. They are the ones that steal the ideas from the actual "idea guys". They did not have the vision to see that the internet was about to become their biggest enemy.

When a VC sees an idea guy/gal's idea pitch they are thinking three things: 1.) "Can I get some free market research from this guy? 2.) Will this product compete with my portfolio and should I kill it? 3.) Is it really a good idea that I can steal and pass over to another NVCA VC so they can copy it and the idea guy will never be able to trace the theft back to me?"

There is a reason they call them "vulture capitalists". The biggest myth about Silicon Valley venture capital money is that any outsider, who isn't in the Stanford frat club, will ever see any of that money.

For the very insider, good-ole-boy, money to stay in the tight little insider circle, a facade of "the American Dream for ideas" had to be perpetrated. Now that all of the entrepreneurs can compare notes, valuations, IP thefts, patent protection sabotage and VC lies on the open internet and see that the entrepreneurs are just getting harvested and plucked like chickens.

The VC's and campaign billionaires want everybody spied on, in their country, so they can get a heads-up on when the game is up, and try to forestall that day with disinformation. Always slow to the table though, the NVCA manipulations have yet to realize that the day has already passed them by.

Zhang had only five years of experience before jumping to the top intellectual property job at Baidu. Baidu is one of the largest technology companies with \$23B in revenue and 21,000 employees. This would place the company around 130th on the [Fortune 500](#) list; along with U.S. Bank, Time Warner, and Goodyear. It appears that the Facebook IPO feeding frenzy was orchestrated in both the U.S. and China. This supports the hypothesis that the NASDAQ "glitch" was a smokescreen.

Breaking News! Jan. 29, 2014—S.E.C. Chair Mary L. Schapiro held stock in both Facebook & Baidu (China) *before* the Facebook IPO via her investment in [T. Rowe Price Growth Stock Fund \(PRGFX\)](#), which was up to \$600,000, according to [Schapiro's financial disclosure](#).

Mary L. Schapiro, Chair, S.E.C.; held stock in Facebook and Baidu before the Facebook IPO, along with *Leader v. Facebook* judges and Patent Office; ignored whistleblower warnings. *Photo: NYTimes*.

In addition to warnings about fabricated mobile revenues, her S.E.C. agency also *ignored* numerous whistleblower warnings of improper "dark pools" activity, including failure to disclose to investors that Facebook had been judged guilty on 11 of 11 federal counts of infringing Columbus innovator Leader Technologies' U.S. Patent No. 7,139,761 for social networking—the core technology engine running Facebook. Evidently, Schapiro knew about Facebook Chairman James W. Breyer's intention to exploit Leader's technology in China also, where his father, John P. Breyer, operates IDG-Accel-China.

Baidu, Inc., Beijing, China - corporate headquarters

Fig. 1—Sands Capital Management, LLC injected Chinese influence into Obamacare. Sands Capital, the 7th largest fund investor in the May 2012 Facebook IPO, secretly acquired over \$200 million in Athenahealth holdings just as President Obama moved Todd Y. Park, Athenahealth's founder, from HHS to the White House, on Mar. 9, 2012..

Gordon K. Davidson, Fenwick & West LLP; current Facebook securities and patent counsel; Leader Technologies former corp. counsel (c.a., 2001-2004). *Photo: Fenwick & West*.

At the same time, Sands Capital secretly slipped in its holding in Baidu, Inc., sometimes called the Chinese Facebook. Baidu is notoriously controlled by the Chinese Communist Party. Baidu's CEO, Robin Yangong Li, started his job in Jan. 2004—the same month Mark Zuckerberg started Facebook after stealing Leader Technologies' source code via attorney firm Fenwick & West LLP, we believe.

Facebook also went public during this same time (with Fenwick & West LLP as their lead securities and intellectual property counsel). Again, Sand Capital did not provide proper notice of its Facebook stock acquisition.

The juxtaposition of these three notice failures, combined with HealthCare.gov's claim that its software platform running on Facebook and other "open source" software, signals obvious collusion to deprive Leader Technologies of its private property rights—government confiscation of property.

It also proves Chinese meddling in America's data infrastructure and the Obama White House cabinet.

This picture shows the logo of Baidu on its headquarters. *Photo: AFP/Getty Images/Forbes/via @daylife*.

(Jan. 28, 2014)—Washington DC-based [Sands Capital Management, LLC](#), the seventh largest fund investor in Facebook, failed to file three critical Facebook, Athenahealth, and Baidu-China ("the Chinese Facebook") disclosures with the U.S. Securities and Exchange Commission (S.E.C.) during the period of May-August 2012.

These disclosures would have signaled serious conflicts of interests within the Obama administration, especially the complicity of Wall Street and the White House's Silicon Valley donors with likely undue Chinese influence over Obamacare.

Pres. Obama and Todd Y. Park blatantly violated conflict of interest laws

Todd Y. Park, U.S. CTO; HealthCare.gov architect; Athenahealth, founder; Castlight Health, founder. *Photo: White House*.

These Sands Capital filing failures occurred just as President Obama moved Todd Y. Park as chief technology officer (CTO) of Health and Human Services to the White House on Mar. 9, 2012. By this time, Park had *already* embedded his Athenahealth and Castlight Health technology deeply into HealthCare.gov.

However, [Todd Y. Park](#) was the founder of both Athenahealth and Castlight Health. His brother, Edward Y. Park, is the chief operating officer of Athenahealth. JPMorgan insider and Obama campaign financier, [Ann H. Lamont](#), was an Athenahealth director with Park and his brother.

Reporting new stock acquisitions to the S.E.C. is routine. "Form SC 13G" reports are an essential tool used by investors to know when funds add new stocks to their portfolios. Without those notices, new acquisitions can easily be missed. Independent stock analysts like [Morningstar](#) monitor them and create daily alerts of new acquisitions to the market as well as to watchdogs.

Had Sands Capital filed timely, accountability questions could have been triggered. As it happened, they slipped the holding quietly onto their quarterly reports, thus avoiding transparency.

The activities of these companies impact American healthcare and data security priorities. America was not given the opportunity to scrutinize this activity until now, **after the damage** has been done.

Fig. 3—Sands Capital Management, LLC ATHENAHEALTH, INC. holdings—Value Reports, SEC EDGAR. The yellow highlighted box shows the periods where no acquisition notices and no-fraud certifications were filed. In short, Sands Capital acquired over \$200 million in Athenahealth stock without regulatory oversight. S.E.C. Chairman [Mary L. Schapiro](#) had financial holdings in funds invested in Athenahealth, e.g., [Vanguard Extended Market \(VEXMX\)](#).

On May 14, 2010, 506,000 shares of Athenahealth appeared out of thin air on the [Sands Capital Management, LLC quarterly report](#). More and more stock just started appearing each quarter, all without acquisition notices.

Then on May 14, 2012, hundreds of millions more shares appeared out of thin air—214 million more. Just a few weeks earlier, President Obama had appointed Todd Y. Park as U.S. chief technology officer. Park had already deeply embedded Athenahealth's software code into the bowels of HealthCare.gov. In fact, no notices of acquisition were filed for Athenahealth until Feb. 2013.

Why is this S.E.C. irregularity significant?

The public has an interest in insuring that government vendors and officials are trustworthy. [HealthCare.gov](#) is making false "open source" intellectual property claims, but since HealthCare.gov is not a transparent development, no public scrutiny is possible.

The federal confiscation of private properties continues unabated. The agenda is very evidently being railroaded.

In addition, the involvement of the Chinese government in U.S. infrastructure raises critical national security questions.

Todd Y. Park's ethics disclosures are missing

Tellingly, Parks' ethics disclosure is missing from the [U.S. Office of Government Ethics](#) website. By contrast, even Hillary R. Clinton's is there. Parks' close relationships with associates of Athenahealth, Castlight Health, Baidu-China and Sands Capital Management, LLC show that any decision he has made involving these players benefits him personally.

Hindsight being 20-20, it should be noted that [Robert Kocher, MD](#), President Obama's chief healthcare policy adviser on Obamacare, had matriculated by 2011 to: (1) Castlight Health as director along with Ann H. Lamont, Todd Y. Parks' other company, (2) Park's venture capitalist, Venrock, and (3) McKinsey & Co. and the Brookings Institution, who are both Facebook's COO, Sheryl K. Sandberg's former clients.

Kocher's other boss at the White House, National Economic Council chairman [Lawrence "Larry" Summers](#), also works for the Brookings Institution. In short, Kocher's post-administration job hunt appears to have been political revolving door payback.

Events are being coordinated

In addition, the list of funds pouring cash into Athenahealth and Castlight Health is a clone of Facebook's and Baidu's lists. Blackrock, Morgan Stanley, T. Rowe Price, Fidelity, Vanguard, Goldman Sachs, JPMorgan, etc. The evidence is clear. These funds are **coordinating** these events while the U.S. Congress and American people are sidelined.

It appears time for Congress to take control, pass legislation to return confiscated properties, impeach and replace many corrupted judges, change the legal discipline procedures by putting lay people in charge, put wrongdoers in jail, establish a Special Prosecutor, and call a Constitutional Convention to change the elements of our system that let this happen.

Our system of government appears to have been badly damaged by unscrupulous people, mostly lawyers, who no longer respect our laws, and clearly do not intend to follow them.

## National Venture Capital Association (NVCA) collusion

AFI researchers have already proven NVCA connections with James W. Breyer, Accel Partners, LLP, Facebook's first chairman and largest shareholder, among six of the ten top mutual fund investors in the Facebook IPO, namely (1) Goldman Sachs, (3) Fidelity, (4) T.Rowe Price, (5) Morgan Stanley, (6) Blackrock and (9) Vanguard.

Sands Capital's association with Todd Y. Park ties Sands Capital to the NVCA as well through Castlight and Athenahealth director, Ann H. Lamont. This now proves that at least seven out of the ten top institutional investors in Facebook were colluding with James W. Breyer to steal Leader Technologies' social networking invention. The Baidu association shows that the collusion also incorporates Breyer's designs for China.

#2: BAIDU, INC.

The First: Jim **Breyer** is speaking at Collision 2015 Posted by: Hugh Gallagher – Posted at: 4:45 pm on December 4, 2014 Category: News

[collisionconf.com/news/jim-breyer-collision](http://collisionconf.com/news/jim-breyer-collision)

**The next Sands Capital holding to appear out of nowhere is Baidu, Inc.** Closely aligned with China's Communist government, Baidu is sometimes called "the Chinese Facebook." [Facebook](#) is rumored to have partnered with Baidu. Baidu notoriously violates human and intellectual property rights. This alliance was concurrent with [James W. Breyer's](#) movement of tens of billions of venture capital funds out of the United States and into the control of his reclusive father, John P. Breyer, chairman, IDG-Accel-China.

Not only did Sands Capital fail to file a notice of acquisition, but their quarterly report on Aug. 14, 2013 reveals a whopping 12,539% jump in holdings. **That is an unregulated \$867 million change in value.** To our knowledge, neither the market nor regulators even noticed. This destroys the basic principle of transparency.

These risks certainly deserve serious investigation before permitting these people to get access to America's healthcare and data infrastructure. As Eric Snowden proved, it doesn't take much to copy millions of files into the hands of one's adversaries.

Most notable about the sudden appearance of the Baidu Inc. holding is that it occurs just as Athenahealth's founder, Todd Y. Park, is moving from his position as the chief architect of HealthCare.gov at HHS to [Chief Technology Officer for the United States by President Obama, on Mar. 9, 2012](#). And, it occurred at the same time as Sands Capital's 214 million unregulated share acquisition.

On Mar. 29, 2012, just 20 days after Pres. Obama's appointment of Park, [Baidu filed a Form 20-F](#), which is a financial disclosure equivalent to an S-1 public stock prospectus. The timing is six weeks before the Facebook IPO.

[On p. 98, Baidu discloses](#) that its three principal shareholders are:

[Baillie Gifford and T. Rowe Price](#) were #2 and #3 behind Goldman Sachs in the Facebook IPO just six weeks later.

Fig. 6—Robin "Handsome Reward" Yangong Li was installed as CEO of Baidu in Jan. 2004, the very same month that Mark Zuckerberg claims to have built Facebook "in one to two weeks" Leader Technologies said it took them \$10M and 145,000 man-hours to invent social networking. They finished debugging a critical module on Oct. 28, 2003, the same night Zuckerberg hacked the House sites at Harvard. *Photo: LExpress.*

Evidently, Baidu's [Robin Yanhong Li](#) was self-conscious about his newfound wealth, hence the Freudian name he gave for his stock holding—Handsome Reward. Who was doing the rewarding? The evidence is overwhelming. It is James W. Breyer and the Facebook cartel who made Robin Li their front boy in China, just like they made Mark Zuckerberg their front boy in the U.S.

#### Big Lies

The world cannot hope to advance when its core infrastructures are founded on these Big Lies. Any engineer worth his salt knows that a good building cannot be built upon a corrupt foundation. This is both a law of physics, and a Law of God.

Baidu and Facebook CEOs started the same month—Jan. 2004

Robin Y. Li, CEO, Baidu, Inc.; appointed Jan. 2004, the same month James W. Breyer, Accel Partners LLP, picked Mark Zuckerberg to start Facebook with stolen code from Columbus innovator Leader Technologies. *Photo: RudeButGood.*

Robin Y. Li became CEO of Baidu in Jan. 2004. Coincidentally, that is the *very same month* Mark Zuckerberg claims he started Facebook (“[in one to two weeks](#)”) and launched it on Feb. 4, 2004. The name of his British Virgin Islands hide away for his Baidu holdings probably says it all—Handsome Reward.

The common denominator between the Chinese and American Facebooks is James W. Breyer. At that time was chairman of the National Venture Capital Association, managing partner of Accel Partners LLP, soon to be if not already largest Facebook shareholder, and fellow client of Fenwick & West LLP with Columbus innovator Leader Technologies, Inc.—the proven inventor of social networking. Robin Li's handsome reward is his willingness to be Breyer's Chinese front face.

Worried about signaling Chinese involvement

Sands Capital appears to have been worried about the appearance of impropriety? Had they disclosed Baidu in a timely way, eyebrows would have been raised about possible Chinese involvement in the Obama cabinet, as well as in American healthcare and data infrastructure. Something is clearly amiss, otherwise, why would the Baidu nondisclosure be such an outlier in Sands Capital Management, LLC's SEC reporting?

American securities watchdogs were busy chewing on bones Breyer threw their way

Fig. 7—Administration and Judicial Watchdogs were busy chewing on their Facebook cartel bones. The United States top law enforcement officers and regulators, namely Eric H. Holder, Mary L. Schapiro, Rebecca M. Blank and David J. Kappos were *silent* during Sands Capital's misconduct. They were busying chewing on the bones that the Facebook cartel had already thrown them. The current Commerce Secretary, Penny S. Pritzker, continues the deafening silence. *Graphic: C/ker.com.*

But lest we wonder where our U.S. securities regulators were during this shell game, the Facebook cartel had that covered too. They had already ensured for S.E.C. Chair [Mary L. Schapiro](#), Commerce Secretary #1 [Rebecca M. Blank](#), Commerce Secretary #2 [Penny S. Pritzker](#), Patent Office Director [David J. Kappos](#), Attorney General [Eric H. Holder](#) and Chief Justice [John G. Roberts, Jr.](#) were well cared for.

Among the five Obama administration senior officials alone, they hold at least 177 Facebook “dark pools” funds. In fact, no one in the Obama administration or judiciary had more Facebook cartel dark pool funds than Chairman Schapiro and Secretary Blank. See two previous posts. These dogs won't hunt. They're too well fed. #3: Facebook, INC.

**The next Sands Capital holding to appear out of thin air is Facebook, Inc.** Again, they did not file a Form SC 13G acquisition notice in their [May 14, 2012 reporting](#), which is just four days before the May 18, 2012 Facebook IPO. We're taking bets that Sands Capital will blame it on the NASDAQ “glitch.” The purpose of the glitch appears to us to be a smoke screen for these sorts of shady activities.

Then, without filing the stock acquisition notice Form SC 13G subsequently, like they did on all their other stock purchases (except Athenahealth and Baidu), on [Aug. 13, 2012](#) they simply include their Facebook holding of 11.6 million shares valued at \$362 million on their quarterly report.

Why such blatant disregard for SEC disclosure rules? Rules that Sands Capital appears to follow otherwise?

AFI researchers have lived with this cartel conduct for years now, and they believe Sands Capital was determined to get in on the HealthCare.gov “Datapalooza” that Todd Y. Park would bring them via Athenahealth. [Datapalooza](#) is the actual name Mr. Park gave to his dubious “open government” giveaways of healthcare data while CTO at HHS.

AFI researchers believe it is likely that Sands Capital kept the Baidu transactions below the radar screen in order to avoid awkward questions about Park's role in Baidu, Athenahealth and Facebook financings and business activity, especially surrounding Obamacare and HealthCare.gov.

Notices of stock acquisitions are part of America's securities fraud watchdog infrastructure

Readers should know that independent stock monitoring analysts like Morningstar use automated tools that send alerts/notices when companies file notice of new acquisitions. No such alerts occurred for Athenahealth, Facebook or Baidu **because the notices were never filed.**

[SEC fraudster](#)

Fig. 8—S.E.C. Certifications are legal evidence. When a fund compliance officer signs an S.E.C. filing, he or she is signing an affidavit that is enforceable as evidence in court. If that person lies or in some other way willfully misrepresents the facts, it is the same as lying under oath in a courtroom. The problem for Sands Capital's Robert C. Hancock is that intentional withholding of certifications, with the intent to deceive the public, is illegal since the omission misleads the public who must then rely on inaccurate information.

TESLA-SCAMOPTION-2

Sands Capital's compliance officer Robert C. Hancock avoided liability by not signing

Sands Capital's chief compliance officer, Robert C. Hancock, may have been trying to avoid personal liability by not signing what would otherwise be fraudulent representations of truthfulness. Corporate officers like Hancock can be personally liable if they sign knowingly false certifications under oath. It's the same thing as knowingly making a false statement in court.

Here's the SC 13G acquisition certification Hancock avoided signing for initial Athenahealth, Baidu and Facebook stock disclosures:

"Item 10. Certification: By signing below I certify that, to the best of my knowledge and belief, the securities referred to above were acquired and are held in the ordinary course of business and were not acquired and are not held for the purpose of or with the effect of changing or influencing the control of the issuer of the securities and were not acquired and are not held in connection with or as a participant in any transaction having that purpose or effect.

SIGNATURE: After reasonable inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct."

Here's an example of a later Athenahealth SC 13g acquisition certification that Hancock did sign on [Feb. 13, 2013](#), so he knows what to do, he just didn't do it when Athenahealth stock was first acquired.

Hancock was probably choking on the clause in red above: "... were not acquired and are not held for the purpose of or with the effect of changing or influencing the control of the issuer of the securities and were not acquired and are not held in connection with or as a participant in any transaction having that purpose or effect."

Hancock may have refused to sign the Athenahealth, Baidu and Facebook certifications because he knew that:

1. Athenahealth was an inside job among selected funds, companies and individuals to control certain markets and global events;
2. Baidu, like Facebook, was a fabrication of James W. Breyer, Accel Partners LLP, and Facebook's largest shareholder; therefore, everything about these stock maneuvers was designed to manipulate the cartel's global agenda, which included the creation of a Chinese repository, potentially for exported U.S. healthcare and other data; and
3. Facebook & Baidu were both running on software property stolen from Columbus innovator, Leader Technologies; therefore, these offerings were used to generate funds for the express purpose of misappropriation of patents, copyrights and trade secrets that would cause and effect the manipulation of the U.S. healthcare sector, among others.

Presumably, Hancock would want to stay out of jail by refusing to put his signature on a form where he clearly knew there was **an intent to influence business and political events**. Tellingly, he signed *all* of his other certifications during this period.

The victims are complaining

On Nov. 19, 2008, [Leader Technologies](#) filed a patent infringement lawsuit against Facebook. Leader proved that Facebook stole the engine that runs Facebook, yet were ruled against anyway by the biased judges mentioned above, based on fabricated evidence.

In May 2012, Facebook IPO investors began filing class action lawsuits, claiming they had been defrauded and damaged by the NASDAQ "glitch."

Complaints have been filed to inspectors general seeking justice.

Others have filed complaints too, like Paul Ceglia and Rembrandt Social Media.

America's regulatory mechanisms are supposed to help prevent waste, fraud and abuse, not aid and abet it. The latter is called state-sponsored terrorism and totalitarianism.

In the case of the HealthCare.gov debacle, and the theft of Leader Technologies' social networking invention, the failure of the S.E.C. to police Sands Capital Management LLC enabled them to press their hidden agenda using fraudulent funds.

That agenda has led to a disastrous HealthCare.gov architecture, corrupted by Athenahealth conflicts of interest, using Leader Technologies' software which has become a mess of hacked pieces and parts. The agenda also threatens America's healthcare data security since Sands Capital took its Facebook IPO winnings and bought \$2.2 billion in the Baidu Inc. sometime between Feb-Aug 2013.

Fig. 9—Robert C. Hancock, Chief Compliance Officer, Sands Capital Management, LLC. Misled the American public by failing to file stock acquisition reports in a timely manner for Facebook, Baidu and Athenahealth. These failings concealed substantial Chinese influences regarding Obamacare and American data infrastructure. *Photo: Sands Capital.*

A solid democratic house cannot be built upon a foundation of regulatory corruption

Questions for Sands Capital's compliance officer Robert C. Hancock would be why he did not submit the notices of new stock acquisition forms with his signed certifications for Athenahealth, Baidu and Facebook. If he had done this, perhaps over six million Americans would not be struggling to replace their cancelled healthcare plans because the program would never have begun.

Thomas G. Hungar, Gibson Dunn LLP. Failed to disclose conflicts of interest in *Leader v. Facebook*; counsel to the Federal Circuit and Microsoft (one of Facebook's largest stockholders); Chief Justice John G. Roberts, Jr. is a personal mentor. Gibson Dunn LLP also represents the U.S. in *U.S. v. Paul Ceglia (Ceglia v. Zuckerberg)* where U.S. attorney Preet Bharara was formerly employed by Gibson Dunn—an obvious conflict. *Photo: Gibson Dunn LLP.*

Hancock's ethics counsel is none other than another former Gibson Dunn LLP attorney, [Jonathan Goodman](#). Goodman was at Gibson Dunn LLP with Thomas G. Hungar during the *Leader v. Facebook* case. Goodman's other former firm, Cravath, Swaine & Moore LLP, just received [David J. Kappos](#), former director of the U.S. Patent Office, as a new partner. Kappos only arrived after he had ordered an unprecedented 3rd reexamination of Leader Technologies' patent. Kappos had purchased more than a million dollars of Vanguard "dark pool" funds, all on [Oct. 27, 2009](#), within weeks of his appointment by President Obama.

Robert C. Hancock's ethical lapses have damaged millions of Americans

Apparently, Hancock was advised by Goodman/Gibson Dunn LLP that it was ethically acceptable **not** to file the Athenahealth, Baidu and Facebook stock acquisition notices.

Mr. Goodman's former firm, Gibson Dunn LLP, swirls at the center of everything that has gone horribly wrong with this Obama administration, including the *Leader v. Facebook* judicial corruption scandal.

Had Hancock filed in a timely manner, questions about Todd Y. Park's Athenahealth duplicity could have been raised. Athenahealth's close associations with Chinese interests could have been scrutinized. Sands Capital's role in the Facebook pump and dump IPO scheme would have become visible. Hancock's failure to file and certify did not allow regulatory mechanisms to work. [Barack Hussein Obama](#)

Questions for President Obama

Given the suspicious timing of your appointment of Todd Y. Park to oversee America's healthcare and digital infrastructure:

1. How much do you know about SANDS CAPITAL'S collusion with the Chinese?
2. What are you going to do about it?
3. What assurances can you give us that the tech people you have hand picked are worthy of America's trust?
4. Will the new systems really protect Americans' privacy, property and security?
5. Did you know that your Securities Chair held stock in Facebook and Baidu *before* the Facebook IPO?

6.   
*Photo: Politico.*

  
*Photo: Wikipedia.*

Why didn't your personal White House counsels from Perkins Coie LLP, namely Robert F. Bauer and Anita B. Dunn, husband and wife respectively, submit ethics pledges and financial disclosures? Did you know that Facebook was one of their clients?

7. Where are Todd Y. Park's financial disclosures and written ethics pledges?
8. Did you know that a [Florida judge was ordered to recuse himself](#) from a case where he was Facebook Friends with one of the litigating attorneys? What do [your 50 million "likes"](#) say about your appointment of two of the four judges in the *Leader v. Facebook* case, not even counting all their financial holdings in Facebook, or the [Patent Office's "likes"](#)?

Summary of ethical standards to which the persons above swore solemn public oaths to uphold

Judges— Code of Conduct for U.S. Judges, [Canon 2](#):

"A judge should avoid impropriety and the appearance of impropriety in all activities."

Judges—U.S. Courts.gov, Guide to Judiciary Policy, [Ethics and Judicial Conduct, p. 20-2](#):

"Canon 3C(3)(c) provides that a financial interest 'means ownership of a legal or equitable interest, however small,' with certain exceptions not applicable to this situation. Ownership of even one share of stock by the judge's spouse would require disqualification." Many types of mutual fund holdings are *not* exempt from this policy (p. 106-1 thru 4).

"a judge who chooses to invest in such mutual funds should evaluate whether his or her 'interest' in the fund might be affected substantially by the outcome of a particular case, which would require recusal under Canon 3C(1)(c)" (p. 106-3). [*If the largest tech IPO in American history—Facebook—does not apply, then this policy is meaningless sophistry.*]

Executive Branch Employees—Standards of ethical conduct for employees of the executive branch [5 C.F.R. §2635.501](#):

"avoid an appearance of loss of impartiality in the performance of his official duties"

Attorneys—Model Rules of Professional Conduct, [Preamble \[6\]](#):

"a lawyer should further the public's understanding of and confidence in the rule of law and the justice system because legal institutions in a constitutional democracy depend on popular participation and support to maintain their authority."

Directors—Business Judgment Rule, [Pames v. Bally Entertainment Corp.](#), at 1246:

"The business judgment rule 'is a presumption that in making a business decision the directors of a corporation acted on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the company [and was not based on self-dealing]."

You may want to read this LAW360 article about Federal Circuit Judge Michel.

I just checked. Fed. Cir. Judge Paul R. Michel is NOT invested in the Facebook cartel, at least according to his financial disclosure.

He did not, however, police the Federal Circuit's conflicts of interest in LEADER V. FACEBOOK since Facebook's attorney, Thomas G. Hungar, Gibson Dunn LLP, had represented the interests of the whole court and the Federal Circuit Bar Association in a 2010 ethics case, ironically.

LAW360 HEADLINE: "Strong Software Patents Crucial, Michel Tells Justices"

"As the U.S. Supreme Court considers how to evaluate when software can be patented, former Federal Circuit Chief Judge Paul Michel warned the justices Monday that adopting a standard that weakens patent protection for software would "cripple, if not destroy, computer-related industries."

[http://www.law360.com/ip/articles/504692?nl\\_pk=3d7de43c-2a83-457b-8e08-511bc28d2aec&utm\\_source=newsletter&utm\\_medium=email&utm\\_campaign=ip](http://www.law360.com/ip/articles/504692?nl_pk=3d7de43c-2a83-457b-8e08-511bc28d2aec&utm_source=newsletter&utm_medium=email&utm_campaign=ip)

Here's Judge Michel's 2008 financial disclosure:

The 2008 finance crisis was not an accident it was caused by an out of control industry and at the wheel was chief economic advisor Larry Summers, Summers who played a MAJOR role in the Deregulation of Derivatives, And became PRESIDENT of HARVARD in 2001 And New that FACEBOOK was stolen, and new of the THEFT OF Leader Technologies' when the Winklevoss made a complaint to Lawrence Larry Summers PRESIDENT of HARVARD they were tolled to piss of Summers wanted THE FACEBOOK CLUB for him self but Summers needed that suck up little shit Mark Zuckerberg to do it, But the IDEA FACEBOOK was not the Winklevoss nor was it Mark Zuckerberg IDEA,

WAYNE CHANG KNOWS HOW FACEBOOK WAS STOLEN

Wayne Chang filed a lawsuit against the Winklevoss brothers knowing that Facebook was stolen, Chang said that the Winklevoss brothers merged their company, called ConnectU, with Chang's web development company to make a new company: The Winklevoss Chang Group (WCG). Chang complained that the Winklevosses "expressly agreed that the litigation between ConnectU and Facebook was an asset of ConnectU and an asset of WCG," according to BusinessInsider. Chang never got any money when the Winklevosses received \$65 million as part of the settlement but the \$65 million was just a fuck of from Mark Zuckerberg Larry Summers and James W. Breyer. Even the "like" button was stolen from the family of the late Dutch inventor, Johannes Van Der Meer

More of Larry Summers friends

chief economic advisor Larry Summers Henry Paulson of Goldman Sachs and Geithner to pay Goldman Sachs 100 cents on the dollar Paulson and Bernanke ask congress for \$700 billion to bail out the banks. BUT NO BAILOUT FOR LEHMAN BROTHERS GONE AND THE ORDERS CAME FROM GOLDMAN SACHS TO LARRY SUMMERS NOT TO BAIL THEM OUT?? just so Goldman Sachs can be number ONE? IN 1999, at the urging of Summers and Rubin congress passed the Gramm-Leach-Bliley Act and cleared the way for future mergers, in 1998 someone tried to regulate them it was Brooksley Born but Larry Summers kill this, Summers had 13 bankers in his office and directing her to stop Greenspan Rubin and SEC chairman Arthur Levitt issued a joint statement condemning Born the securities and exchange commission agency conducted no major investigation in to the bank during the bubble and 146 people were gutted from the securities enforcement division? When David contacted securities and exchange commission about LEHMAN BROTHERS GOLDMAN SACHS AND LARRY SUMMERS AND FACEBOOK there were only four people WORKING THERE and then down to just ONE?? and his job was to turn the lights out

OBAMA picked Mary Schapiro the former CEO of FINRA to run the securities and exchange commission who held stock in both Facebook and Baidu (China) before the Facebook IPO via her investment in T. Rowe Price the securities and exchange commission agency also ignored numerous whistleblower warnings of improper "dark pools" activity, (PAY OF)

Larry Summers + President Barack Obama picked Mary Schapiro the former CEO of FINRA to run the securities and exchange commission who held stock in both Facebook and Baidu (China) before the Facebook IPO via her investment in T. Rowe Price the securities and exchange commission agency also ignored numerous whistleblower warnings of improper "dark pools" activity, (PAY OF)

Larry Summers + President Barack Obama (appointed Leonard P. Stark to the judge's seat in Delaware Federal District Court eight days after Stark's court allowed Facebook to get away with jury and court manipulation of an on-sale bar verdict which was attained without a single piece of hard evidence; Barack and Michelle Obama were evidently protecting their 47 million "likes" on Facebook)

Larry Summers + President Barack Obama new found friends, Facebook cartel had it all covered, They had it all already S.E.C. Chair Mary L. Schapiro, Commerce Secretary #1 Rebecca M. Blank, Commerce Secretary #2 Penny S. Pritzker, Patent Office Director David J. Kappos, Attorney General Eric H. Holder and Chief Justice John G. Roberts, Jr. were well cared for.

Larry Summers + President Barack Obama + Baidu(China) All had back door keys to the NSA then add your healthcare (Obamacare), financial (Wall Street), telephone and online data (NSA) to your Dark Profile, and you have the ultimate Big Brother file on every person on the planet and CHINA HAD THE BACK DOOR KEYS TO THE NSA???? with Facebook and their repeated breaches of security and their now ubiquitous intrusions on people's privacy?

Larry Summers + election manipulation on FB Since that data was not equally available to the opposition, use of this data about you amounts to election manipulation. The fact that so many foreigners are associated with Facebook amounts to foreign influence on U.S. elections, which is illegal. This undue influence hurts every American. Ditto for the sovereign elections in Germany, France or any other country, like fucking Germany ASS-HOLE The Facebook Club run by Larry Summers used the promise of wild Facebook IPO returns as the currency for their plans to install Barack Obama as President and press their global data gathering agenda

Larry Summers + FB + Robin Y. Li Robin Y. Li became CEO of Baidu in Jan. 2004. Coincidentally, that is the very same month Mark Zuckerberg claims he started Facebook ("in one to two weeks") and launched it on Feb. 4, 2004. The name of his British Virgin Islands hide away for his Baidu holdings probably says it all—Handsome Reward. Sands Capital appears to have been worried about the appearance of impropriety? Had they disclosed Baidu in a timely way, eyebrows would have been raised about possible Chinese involvement in the Obama cabinet, as well as in American healthcare and data infrastructure. Something is clearly amiss, Robin Y. Li NEW THAT FB WAS STOLEN and that it was Larry Summers who was running FACEBOOK ow shit?

Larry Summers + friends chief economic advisor Larry Summers Henry Paulson of Goldman Sachs and Geithner to pay Goldman Sachs 100 cents on the dollar Paulson and Bernanke ask congress for \$700 billion to bail out the banks. BUT NO BAILOUT FOR LEHMAN BROTHERS GONE AND THE ORDERS CAME FROM GOLDMAN SACHS TO LARRY SUMMERS NOT TO BAIL THEM OUT?? just so Goldman Sachs can be number ONE? President Obama claimed last night that there was "not even a smidgen of corruption" in the IRS scandal. Really now Mr. President? How can any self-respecting person make such a claim about a sprawling government agency with 106,000 employees? Such a claim telegraphs the massive corruption that we have proved exists within this administration. An administration where Yes is No and wrong is right. Given that, a No from Obama means a Yes.

Here's an excerpt from the New York Times article:

Mr. O'Reilly responded that there were "unanswered questions" and asked again if there was corruption in the I.R.S.

"There were some boneheaded decisions," the president said.

"But no mass corruption?" Mr. O'Reilly asked.

"Not even mass corruption — not even a smidgen of corruption," Mr. Obama said.

A couple of additional items to inform your congressperson about along with the overwhelming conflicts of interest already presented here David Kappos encouraged his employee's, of whom include the judges that work for the USPTO, to use Facebook. He states on the USPTO website. "I'm confident our Facebook presence will complement the USPTO Web site as a means of communicating and connecting with the public and our stakeholders in the intellectual property community. On the other hand, Chief Justice Roberts at the Fourth Circuit Court of Appeals Annual Conference in 2011 said that he recommends to the law clerks not to use social media, Facebook and Twitter, because a person could gain insight by stray comments and that would not be good. Justice Breyer, who has a Twitter and Facebook account, stated at a House Appropriations Subcommittee, "Judges wear black robes so that they will resist the temptation to publicize themselves," Breyer said. "Because we speak for the law, and that is to be anonymous. So I wouldn't want to have followers on the tweeter or the Facebook page but for my children, and I can get in touch with them anyway." So the question is, If Chief Justice Roberts discourages law clerks from using Facebook and Justice Breyer is against using it publicly, then why in the world would Kappos open a Facebook account for the USPTO, and encourage the patent office employees, which includes 50-100 patent judges, to use it and then open a Directors reexam at the same time against Leader?

His conduct appears suspect and corrupt!

Check out this Russian (OK, Ukrainian) risk to HealthCare.org.

Belarus link to HealthCare.gov raises concerns over possible cyber attack,

<http://fxn.ws/1gJ1auQ>

The Ukrainian software official, Valery Tsepka told a local radio station in Minsk that U.S. Health & Human Services is "one of our clients" and that "we are helping Obama complete his insurance reform."

HHS was run by Todd Park, the guy with the Chinese connections also. What's wrong with American programmers for American healthcare. This breach of U.S. sovereignty by this President is just criminal.

There is no information missing here. Form 13g is only used when a fund acquires more than 5% of a publicly traded company. That's why you don't see these disclosures here. No conspiracy afoot; this is just basic SEC procedure.

And I am pretty shocked that you have explicitly accused Fenwick and West of providing source code to Mr. Zuckerberg? Fenwick is a very well regarded firm and I cannot even begin to imagine something like that ever happened. But in any event I think you are setting yourself up for a very nasty libel lawsuit.

Mark. The 5% rule is SC 13G/A, 13d-1(a). However, your conclusion is misleading, hopefully not knowingly so. The rule for investment companies is much more strict. The rule (a) you cite mainly applies to corporations and their holders, which can include an investment company's holdings. But, an investment company has stricter reporting rules for its portfolio investments. It must report everything, not just more than 5% holdings. Rule 13 has four main sections, you cited only (a). It also has Rule 13d-1(b), Rule 13d-1(c) and Rule 13d-1(c).  
<http://www.law.cornell.edu/cfr/text/17/240.13d-1>

Easier to follow regarding investment companies is 15 U.S. CODE § 80A-8 – REGISTRATION OF INVESTMENT COMPANIES

<http://www.law.cornell.edu/uscode/text/15/80a-8>

We'll use Sands Capital's other filings to disprove your statement. Sands Capital has filed many reports for investments of less than 5%.

Here are some examples:

CREE, INC. on Feb. 14, 2012 – 249,600 shares representing \*\*\*0.22% ownership\*\*\*. <http://www.sec.gov/Archives/edgar/data/895419/000102006612000004/cree0212.txt>

FMC TECHNOLOGIES, INC. on Feb. 14, 2012 – 11,144,206 shares representing \*\*\*4.68% ownership\*\*\*.  
<http://www.sec.gov/Archives/edgar/data/1020066/000102006612000007/fti0212.txt>

VARIAN MEDICAL SYSTEMS, INC. on Feb. 13 – 56,650 shares representing \*\*\*0.05% ownership\*\*\*

<http://www.sec.gov/Archives/edgar/data/203527/000102006612000002/var0212.txt>

We could go on. Bottom line. Investment companies must report "in the public interest or for the protection of investors." 15 U.S. CODE § 80A-8(b).

This is an OPINION blog, Mark. It is a citizen's right to express his or her opinion. Inform yourself of the facts and express your opinion.

We have covered Fenwick's misconduct thoroughly in past posts. Take note of such things as "Christopher P. King" and his shadow self, "Christopher-Charles King" for starters. The opinion is well founded. Those who have encountered Fenwick's treachery have another view than your "well regarded" caricature.

By my tally, these Facebook loving criminals, sorry attorneys, only know how to misquote the law. The jig is up boys and girls. How do you know an attorney is lying?

His/her lips are moving.

Our beloved Harvard-bred President brags about teaching Constitutional law for a decade. Hmmm.
