- Elon Musk's Instagram account has vanished amid accusations from the rapper Azealia Banks.
- In Banks' Instagram story on Monday, [she tagged Musk asking for her phone back.](#)

- It's unclear when the account was deleted or deactivated.
 - Business Insider has contacted Tesla for comment; Banks declined to elaborate on the incident involving her phone.
-

Elon Musk's Instagram account — which, [according to an archived version](#), had more than 8 million followers — has vanished amid a bizarre story unfolding between him, the singer Grimes, and the rapper Azealia Banks.

On August 12, Banks said on Instagram that she had been at Musk's house and seen singer Grimes (real name Claire Boucher) "coddling" Musk. She then [told Business Insider](#) that she saw him in the kitchen "scrounging for investors" after tweeting that Tesla had "funding secured."

On Monday, Banks tagged [Musk in her Instagram story](#), writing "you need to contact me. ASAP" followed by "I need my phone back now."

In a deleted Instagram story, documented by Cheddar journalist Hope King, Banks claimed that Musk's attorney paid off Banks' attorney to take her phone and delete evidence from it.

Business Insider has contacted Musk and Tesla for comment. In direct messages over Instagram with Business Insider, Banks declined to elaborate on the incident involving her phone.
