These are the morally, criminally, corrupt business services firms that provide the blood of the corruption to the body of the crimes. Most of them are common brands that anyone would recognize.

While these firms will certainly do your tax forms or rental contracts without a hint of questionable data, they each employ hundreds, if not thousands, of 'circumvention specialists', 'risk avoidance experts', 'regulation evasion teams'. These special internal 'black offices' do the dirty deeds and they are hidden in plain sight right next to the 'clean desks'.

The recent Panama Papers leaks, Swiss leaks, The Legistorm database and other leaks prove this to be true.

For example, notoriously corrupt Senators Dianne Feinstein and Nancy Pelosi can't operate an excel spreadsheet. Their arguement: "...I wouldn't even know the first thing about how to steal money on that China deal or that high-speed public train system..", is partially true. They do not operate their own paperwork on the illicit deals. They have hundreds of operators at Deloitte, Goldman Sachs, Wells Fargo, Kleiner Perkins, and other firms, who work day and night to operate the dirty deals for them.

The Wall Street type "hookers and race cars" men who run these services, are hghly incentivized to do as much crime as possible for the highest gains of power and cash. They feel extra immune to the law because they are working for politicians.

Corruption could be easily and simply solved if the law said that no politician could use any outside services firm for three years

before, during and after serving in a government position. All politicians should be required to run all services through the IRS and those service uses should be a matter of public record. This would solve most of the corruption issues in the USA.

Politicians would never allow such a law to pass.

Many of the following believe that the evil they are doing is for "the greater good". They dine, party, work, communication and exist in self-inflated echo-chambers which reinforce their validation of crime-for-a-better-world thinking. The rest just enjoy buying unlimited numbers of prostitutes:
