It would be great if hitler existed in this era cause you know they would do that shit. I was reading the left behind books one time (it's the biblical end of the world) anyways they had a show where the contestants killed each other. (Winner killed loser) ever since I read this Iv been itching to see it happen. Those books were made for Christians soon leaving the faith. I used to be in church reading revelations over n over every Sunday cause it's the best part of the Bible. It's funny it's like a horror movie with "then we prayed to Jesus to save our bum asses" in the middle of the action.

There's only one round, the answer is always "Soros," and nobody ever gets it because they're afraid of being called racist. The best eleven seasons on television.

These jews are working right out in the open. It has to be driven that this is how jews protect and help each other. Jews work in unison against the gentiles

They all want trump suspended. See that's the difference. Even if I disagreed with somebody I wouldn't silence them. Their person gets silenced and they immediately want our person silenced. Not that those two are even against each other. Ahhh I could hVe sided with the cunts till I saw the comments. Never had a twit account anywYs

The way they keep throwing out the President's name is hilarious. Does not matter what goes wrong for them, it's about him.

They must have never tried to criticize blacks either, that results in a ban fairly quickly.
