

# HIRED TO KILL - THE MEDIA CYBER ASSASSINS

Tue, 16 Aug 2022 17:43:04, newstips66, [category: worldnews]

The attached report on 'cyber assassin hired attackers' has now been submitted in multiple active court cases and investigations. You may receive a subpoena asking you to testify in matters discussed in the attached. Please familiarize yourself, and your peers, with the assertions in the attached report. At least two Grand Jury actions are underway and those actions may also call upon you for testimony. The report is now a public document and may be freely shared among your peers. The recent public posting of all of the Hunter Biden, John Doerr, Sony Pictures and NVCA emails has accelerated these actions as these emails show a clear and indisputable set of coordinated actions between White House staff and the control of QUID PRO QUO government monies (IE: DEPT OF ENERGY) and cyber assassin attacks.

Eric- Thanks!

David- look forward to meeting you and talking with you about Fisker. Are you available for a call this Tuesday at 2pm?

Wayne

**Subject:** Fisker

David-

I want to introduce you to Wayne Kimmel and Tony Bifano of ETF Venture Funds. I am sure you have heard Hunter mention ETF before, but to remind you, Hunter and Wayne are old friends and Hunter has been involved with ETF for the past couple of years now.

ETF is considering making an investment in Fisker and Wayne and Tony wanted to talk to you about your due diligence on Fisker as they are trying to decide whether to make an investment.

Do you mind talking to them?

Thanks,

Eric
