At this time, the exact cause of the explosion is unknown.

It might have simply been a faulty transformer or perhaps something more sinister, such as the destruction of evidence in relation to Epstein's latest legal troubles.

Notable public figures, such as former President Bill Clinton, have been reported to travel with Epstein on his 'Lolita Express' to various places, including this private island.

"Epstein has spent the bulk of his adult life cultivating relationships with the world's most powerful men. **Flight logs show that from 2001 to 2003, Bill Clinton flew on Epstein's private plane, dubbed 'The Lolita Express' by the press, 26 times.** After Epstein's arrest in

Another case, detailed in [Wikipedia](#), involves Epstein as well as Prince Andrew from Britain and prominent American lawyer [Alan Dershowitz](#):

“In January 2015, a 31-year-old American woman, Virginia Roberts, alleged in a sworn affidavit that at the age of 17, she had been held as a sex slave by Epstein. She further alleged that he had trafficked her to several people, including Prince Andrew and Harvard Law professor Alan Dershowitz. Roberts also claimed that Epstein and others had physically and sexually abused her.

“Roberts alleged that the FBI may have been involved in a cover-up. She said she had served as Epstein’s sex slave from 1999 to 2002 and had recruited other under-age girls. Prince Andrew, Epstein and Dershowitz all denied having had sex with Roberts. Dershowitz took legal action over the allegations. [A diary purported to belong to Roberts was published online.](#) Epstein entered an out-of-court settlement with Roberts, as he has done in several other lawsuits.

“The BBC television series ‘Panorama’ planned an investigation of the scandal. As of 2016 these claims had not been tested in any law court.”

Kevin Spacey, Chris Tucker, Katie Couric, George Stephanopoulos, and Woody Allen are some other celebrities that have reportedly traveled and partied with Epstein in the past.
