THE "CARGATE" SCANDAL MOVIE is this feature length film comprised of film segments. If you watch it in order, you can stop, start, share and rewind the segments here. The movie will auto-update as new segments are created. The segments were produced by many producers and are coming from many servers across the web. This process of releasing a secured public interest film is called: Webmashing.

**"Cargate": The manipulation of hundreds of billions of dollars of TARP, ATVM, LGP funds (created from your tax dollars) and policy in exchange for campaign financing and profiteering via laundering and conducting tactics.**

The "CARGATE SCANDAL" is like the "WATERGATE SCANDAL" except it uses cars and gadgets and many more criminals.

Your tax money was involved in: **An invasion, a trillion dollar profiteering scam, high-end hookers, futuristic cars, explosions, money laundering, criminal senators, murders & deaths, and more...** **How does this affect you?** Did your money get used for one of the biggest scandals in history? Did you suffer a loss from Afghanistan. Did you suffer financial loss in the recession these people created in order to steal? Decide for yourself if this happened and see how it affected you!

After the movie, also see the [30 SECOND CASE BRIEFER](#) and [CARGATE: THE CARTOON](#) for additional perspective. [Highlighted](#) words, below, link to more details.

If you are like most people, you will be horrified after you see the facts. **What can you do?** [Email and call your congressperson and senator TODAY](#) and demand the **appointment of a non-biased special prosecutor and creation of an open public investigation committee with prosecution authority** (Like the Church Committee). **Send this link to your friends: <http://www.usa.gov/Contact/Elected.shtml>** and have your friends call and email too.

18. Under [Steven Chu](#): More company failures and [more lost taxpayer cash](#) than in **ALL OF AMERICAN HISTORY** yet 42 1%-er people made huge profits off of the manipulation of the taxpayer cash. The odds against this being accidental are billions to one. This was not the "average % of risk". Average companies don't get hundreds of millions of free loans, credits, waivers and incentives. It had to be planned acts of corruption to grab fees, tax write-offs and up-front payments from the U.S. Treasury and State funds. You don't have money for enough fireman and teachers in your town because of this. Watch this segment for more:

Russian mining contracts for lithium ore exclusives in Afghanistan, Syria, Ukraine, etc. The billionaire Oligarchs even got DOE cash. Let's meet some of them. Featuring The Terminator, Kleiner, Putin, A123, Enerdel, Severstal, Boris Badinov and other shady characters. Like "Ahnold" says in the video, it turns out it WAS "all about to go BOOM!". Schwarzenegger's Russian connections run as far back as 1987 when he partied with Russian leaders, and was inspired to run for office, while he made his film [RED HEAT](#). The backers of his campaign are many of the same investors in the lithium/green CARGATE scandal.

**FYI-** Google (AKA: YOUTUUBE) has hidden, moved, "down-SEO'd" and censored 60 Minutes videos and other videos about CARGATE because Google investors were the backers, and deal makers, for a large number of CARGATE efforts. CBS News is very concerned about the censoring. This is against the law re: securities and monopoly laws and is just plain "**censoring**". Federal investigators have been asked, by multiple parties, to examine Google's "selective media information". If Google censored you, you have the legal right to collect your damages from them since they control the internet monopolistically. Let's see how that plays out...

Are you?

Are you REALLY feeling that lucky?
