Not only did these officials run cover-ups and harm their own constituents; many of them made profits from these crimes and owned stock or job commitments from the very criminals under investigation.

These people and their agencies were contacted multiple times, in writing, via time stamped digital communications, FEDEX and UPS certified mail

and USPTO certified mail. It is impossible for them to deny that they ever received notice.

Copies of the reports to these persons and all related agencies have been provided to all news media and the public.

The human rights and Constitutional rights of the victims have been blockaded, denied and alienated!
