Tesla investor/campaign donors paid back with free luxury jet fuel, NASA contracts, patent laws, etc...

Many articles are now reporting on a story that LA Times broke re: a secret holding company of Tesla's investors, known as "H211", which received millions and millions of dollars of free taxpayer-paid jet fuel for billionaires jets using NASA jet fields. NASA staff were ordered to say that the free fuel was a "clerical error on some accounting forms" but nobody in the media is buying it! **It clearly was not.** Google executives are key silent partners in Tesla. Those same investors, including Elon Musk, got NASA partially shut down and then awarded the shut down needs as private contracts to Tesla's investors. **All parties involved were massive campaign, PAC and election expenses check-writers and have received hundreds of "unjust reward items", to date, as kick-backs.**

Google executives have key stock holdings in Tesla. Google sets their search engine so it **emphasizes Tesla-positive stories** and **minimizes Tesla-negative stories**, ie: **Censoring, information manipulation and stock perception rigging.**

There are now some **class-action consumer & investor lawsuits** forming around that. There is one stock swindle C-A already underway but more coming.

The fact that the poor girl, in the video above, is concerned that Google might have her killed, speaks volumes for the dark side of Google. Rick Santorum's team claim to have hard evidence of Google rigging it's search engine to put a hit on him.
