

How A Modern Character Assassination and Political "Kill Order" Is Executed By Obama staff and his Silicon Valley Oligarchs

By Robert Downsen

How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent.

The client does not like to get their hands dirty so the actual social hit job is performed by companies such as:

IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Stratfor - (DNC/GOP); ShareBlue - (DNC); Wikileaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal - (DNC); David Brock - (DNC); Covington and Burling - (DNC), Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

They deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business. These attack services are responsible for 90% of the "Fake News" problem in the world

because they are the authors of most fake news. Congress must act to make these kinds of companies illegal!

These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter [Ben Rhodes was running "Operation Echo Chamber,"](#) which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated.

[The Freedom of the Press Foundation's Trevor Timm published documents](#) showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of [a Freedom of Information Act lawsuit brought](#) by Freedom of the Press Foundation and [Knight First Amendment Institute at Columbia University.](#)"

Trending: [Brennan and Clapper Accused of Hacking John Roberts To Blackmail Him](#)

Here is the memo published by the Foundation, which [dropped the documents in their entirety:](#)

Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their

fly-by-night operation.

[Larry Schweikart reported for Big League Politics:](#)

For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI.

This is what President Trump calls “SPYGATE”.

It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here’s the kicker:

President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the “Electronic Surveillance Authorization” () “Foreign intelligence in relation to a US person (Trump or his associates) is information that’s necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S.” Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. (“The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.”)

In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC.

This is what they are hiding.

However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1)

(C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

1) Obama authorized spying/electronic surveillance on Team Trump, by-passing normal judicial oversight.

2) To create “foreign intelligence,” John Brennan and others organized for UK intelligence to conduct surveillance on Trump and his associates, either from the UK or from UK assets within the U.S. This is another reason revealing this will unleash an excrement storm: the UK is about to be caught meddling bigly in an American election.

3) Lynch certified Obama’s authorization which is now held under seal by DOJ (and FISC).

From this authorization, all unmaking followed, as well as the FBI fraudulent counter intel investigation and perhaps the FISA warrant too. Obama knew this was all fake when he made the authorization; Lynch knew it was fake when she certified it; the entire inner circle, including the FBI, all knew. This takes the U.S. into uncharted territory, and could imperil any politician in the British government who supported this or had knowledge of it. Proving any of this would be difficult, as if confronted Lynch would almost certainly cover up and Obama would simply deny knowledge. Without a paper trail, a conviction might be a bridge too far. This is only one of thousands of "kill order" tactics introduced by the Obama Administration.

These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies:

- - Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a “smokescreen” to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic,

the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.

- - Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "*date rape*", "*drugging your date for sex*" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.
- - Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost". Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups.

- - Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national “black-lists” to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Siry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "*AngelGate*" Scandal and the "*High Tech No Poaching Class Action Lawsuit*" cases) you will never get investor funding again.
- - FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.
- - State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.
- - Some Victims found themselves strangely poisoned, not unlike the *Alexander Litvenko* case. Heavy metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these “targets” were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.
- - Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic.
- - On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from

tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for its ongoing prosecution of Google's political manipulation of public perceptions.

- - Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment.
- - Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.
- - Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.
- - Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.
- - DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.
- - Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around

the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- - Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.
- - Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". While this may sound pretty out there, web search "Embassy sonic attacks" on the top 5 non-Google search engines and read the very credible reports of these attacks.
- - In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.
- - Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-

of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

- - Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.
- - Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "**You don't want to have anything to do with this person, do you..?**" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.
- - Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.
- - Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute.

They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- - McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.
- - Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.
- - There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left.

Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage.
