## Dept. Of Energy Boss Goes “Full Crony” in Broad Daylight

While the L.A. Times, and other recent articles, have exposed Elon Musk as the “King of the Kickbacks”, a sort of federal moocher on steroids. The Moochee, who gave away the taxpayer money to Musk, has come forward to demonstrate one of the most thumb-his-nose at the law moves, and it is **bold!**

Former head of the United States Department of Energy: **Steven Chu**, who was nominated by John Doerr and the Silicon Valley Cartel has joined the board of the lithium ion energy company that he helped award taxpayer stimulus cash to.

John Doerr and his Silicon Valley Cartel owned the lithium mining and exploitation deals which Elon Musk exploits with his taxpayer financed companies.

John Doerr and his Silicon Valley Cartel flooded Congress with “McKinsey” white-papers claiming that they could make “Trillions of dollars of profit” and that “Afghanistan was the Saudi Arabia of lithium” if they could get to take-over the Afghanistan mining fields for Tesla, Solyndra, A123, Ener1 and all of those corrupt Department of Energy companies that went **splat**. **They forgot to mention that their Cartel had pre-acquired all of the key monopoly routes for those mining commodity exploitations.**

Hillary is now facing interrogation about Middle East mining deals and shady deals involving Chu’s buddy: Frank Guistra.

While at the U.S. Department of Energy, Chu and his top brass, acquired mining stocks for Afghan related minerals. That is usually called: “insider trading” but with Chu, it is called ‘just another Chu Crony Scam deal’ (A “Choney”).

Even though Elon Musk did not pass the DOE Section 136 evaluation metrics, Chu still handed him the free cash; as a favor between chums.

While at the U.S. Department of Energy, Steven Chu cut out all domestic technologies that competed with his and the Silicon Valley Cartel’s investment interests.
