

# Why Is The U.S. Department of Energy Only Capable Of Hiring Crooks, Perverts and Assholes?

Wed, 14 Dec 2022 19:48:15, swmof88, [post\_tag: 7, category: news, post\_tag: perverts-and-assholes, post\_tag: why-is-the-u-s-department-of-energy-only-capable-of-hiring-crooks]

## Over 100 Dept of Energy Officials charged with graft, corruption, insider trading, sex abuse, etc. Including TWO of the most corrupt Secretary's Of Energy in HISTORY!

Current nuclear waste executive in Biden Dept of Energy has sex with men dressed as dogs by jamming his penis up men's butt holes!

### [Dare to glare: Biden's sticky-fingered nuclear waste staffer Sam Brinton eyeballs the camera in new mugshot as he appears in court following SECOND arrest for stealing woman's airport luggage](#)

Sam Brinton, 35, who identifies as non-binary and uses 'they/their' pronouns, appeared in a Las Vegas courtroom on Wednesday where the judge set their bail at \$15,000. The former Department of Energy official accused of stealing luggage at two airports in two separate incidents has been arrested on a felony grand larceny charge. Brinton was charged for the luggage theft earlier this year at the Harry Reid International Airport in Las Vegas that was captured on security footage. In court on Wednesday, Las Vegas Justice Court Judge Joe Bonaventure also mentioned the theft at the Minneapolis airport and told Brinton to stay out of trouble. Their court date for that incident is on December 19 in Minnesota. Brinton, who was appointed to his Department of Energy position in June, was out of a job on Monday, according to a statement released by the agency. This, and other Department of Energy males, relish dressing men up as dogs and shoving their penises in their butt holes.

### [REVEALED: Non-binary Biden official Sam Brinton fired for stealing airport luggage developed a trans policy for schools that STOPS 'unaffirming' parents finding out about their child's gender identity](#)

Sam Brinton, 35, who uses 'they/their' pronouns, no longer has their Department of Energy job after they were accused of stealing luggage in two separate incidents .

[en.wikipedia.org › wiki › Steven\\_ChuSteven Chu - Wikipedia](#)

**Chu** was instrumental in submitting a winning bid for the Energy Biosciences Institute, a BP -funded \$500 million multidisciplinary collaboration between UC Berkeley, the Lawrence Berkeley Lab, and the University of Illinois.

#### [Early life and education](#)

Chu was born on 28 February 1948 in St. Louis, Missouri, with Chinese ancestry from Liuhe, Taicang, China, and went to Garden City High School. He received both a B.A. in mathematics and a B.S. in physics in 1970 from the University of Rochester, and earned his Ph.D. in physics from the University of California, Berkeley, under Eugene D. Commins, in 1976, during which he was supported by a National Science Foundation Graduate Research Fellowship. Chu comes from a family of highly educated white

#### [Career and research](#)

After obtaining his doctorate he remained at Berkeley as a postdoctoral researcher for two years before joining Bell Labs, where he and his several co-workers carried out his Nobel Prize-winning laser cooling work. He left Bell Labs and became a professor of physics at Stanford University in 1987, serving as the chair of its Physics Department from 1990 to 1993 and from 1999 to 2001. At Stanford, Chu and three others initiated the Bio-X program, which focuses on interdisciplinary research in bio

#### [Honors and awards](#)

Steven Chu was awarded the Nobel Prize in Physics in 1997 for the "development of methods to cool and trap atoms with laser light", together with Claude Cohen-Tannoudji and William Daniel Phillips.

#### [U.S. Secretary of Energy](#)

His nomination to be Secretary of Energy was unanimously confirmed by the U.S. Senate on January 20, 2009. On January 21, 2009, Chu was sworn in as Secretary of Energy in the Barack Obama administration. Chu is the first person appointed to the U.S. Cabinet after having won a Nobel Prize. He is also the second Chinese American to be a member of the U.S. Cabinet, after former Secretary of Commerce Gary Locke. Steven Chu meeting with President Barack Obama on February 5, 2009. His scientific work

#### [Energy and climate change](#)

Chu has been a vocal advocate for more research into renewable energy and nuclear power, arguing that a shift away from fossil fuels is essential to combat climate change and global warming. He also spoke at the 2009 and 2011 National Science Bowl about the importance of America's science students, emphasizing their future role in environmental planning and global initiative. Chu said that a typical coal power plant emits 100 times more radiation than a nuclear power plant. Steven Chu with IEA E
