The foregoing warning is provided pursuant to Proposition 65. This law requires the Governor of California to publish a list of chemicals "known to the State to cause cancer or reproductive toxicity." This list is compiled in accordance with a procedure established by the Proposition, and can be obtained from the California Environmental Protection Agency. Proposition 65 requires that clear and reasonable warnings be given to persons exposed to the listed chemicals in certain situations.

Chemicals known to the State of California to cause cancer, birth defects or other reproductive harm are contained in and around oil fields, service stations, refineries, chemical plants, transport and storage operations, including pipelines, marine terminals and tank trucks, and other facilities and equipment that manufacture, produce, process, handle, distribute, transport, store, sell or otherwise transfer crude oil, gasoline, diesel fuel or other petroleum products or byproducts.

Iran made computer models of a nuclear war-head and includes satellite imagery of what the IAEA believes is a large steel container used for nuclear-arms-related high explosives tests, diplomats told the Associated Press.

The report will suggest that the option is now being debated at the highest levels and that Prime Minister Benjamin Netanyahu and Defense Minister Ehud Barak favor military action. But the country's security chiefs oppose the operation.

An Israeli government official, who spoke on condition of anonymity, said that the option is now being debated at the highest levels and that Prime Minister Benjamin Netanyahu and Defense Minister Ehud Barak favor military action. But the country's security chiefs oppose the operation.

The White House and State Department declined to comment on specifics of the report, but elements have leaked out.
