The Sex Perverts Of Google

Google is owned and operated by sex perverts, sex addicts and pedophiles. As such, Google HR only seeks to hire other sex perverts, sex addicts and pedophiles to staff the company. In order to incite political unrest, Google's internal messaging, to all staff and employees, is that *"Republicans will stop you from putting your dick in another guy's butt and they will stop fat tattooed girls from licking other fat tattooed girls hind quarters.."*. Google bosses and VC's push this idea throughout the many branches of Google in order to try to get their politicians, who have promised them government kick-backs, into office.

Because most Google employees are young, naive and easily brainwashed, these employees feel that anyone who is not alt-left ANTIFA liberal is PERSONALLY trying to cut off their access to sex. This works out great for the propaganda that Google exists to promote. Google employees have little to live for aside from their sex, drugs, Burning Man events and cult-like devotion to Google. Making them think that the ghost of Ronald Reagan specifically wants to cut off their sex is a brilliant move by the Scientology-like Google propagandists.

Google HR SPECIFICALLY looks for applicants with tattoos, fatness, red hair dye, droopy faces and other "alternative" simplistic outward affectations. These visual cues are a sure sign of potential sheep-like compliance towards Google's ideologically and political programming.
