

# PEER TO PEER MESH NETWORKS TO REPLACE YOUTUBE, NETFLIX AND HULU.

## NETFLIX RUSHES TO KEEP UP

Here is the git repository: <https://framagit.org/chocoboxxx/PeerTube>

Demo server of PeerTube: <https://peertube.cpy.re/videos/list>

It's based on WebTorrent, which is built on top of WebRTC. you can host a torrent/magnet server to provide the initial seed, and as more people leech, what they've leached is seeded from their browser cache.
