

ELON MUSK IS A HUMAN TICK WHO SUCKS EVERYONE AND EVERYTHING DRY

Is Elon Musk's Success More About Luck Than Genius? Looking for Sources and Videos Debunking the Myth of Him 'Saving the World

I've been hearing a lot about Elon Musk being a "super genius" who's on a mission to save the world through Tesla and his vision for Mars. However, I'm curious if there are any credible sources or videos that challenge this narrative. Specifically, are there any arguments or evidence suggesting that his success was more about being in the right place at the right time, or simply leveraging luck rather than groundbreaking genius or revolutionary ideas?

I've seen people say that he's more of a "business opportunist" than the visionary he's often portrayed as. So, if anyone has any content—articles, videos, interviews, or books—that provide a more critical perspective on his journey and accomplishments, I'd love to check it out.

His success is in being a parasite. Government funding is his 'wealth'.

He's a conman. He sells ideas, not anything tangible.

He's gamed the system, whether by luck or skill, just like Drumpf. He hasn't really contributed much and he's taken so much. He's basically a professional fraud.

It's about anything other than genius because the man is clearly dumber than a bag of hammers.

I think similar to Zuckerberg, he had one good idea and he's been coasting on that ever since. If you look at Facebook, most of the stuff they have now is companies they bought, similar to musk, he gets in and takes over and makes things worse.

Check out thunderf00t on YouTube. He's been at it for years.

“Musk is aggressive, shrewd, brash, petty, and impulsive, but he is no genius. And what he and his band of merry little Muskettts are doing to the government is proof positive that he’s not only not a genius, he’s actually not all that bright.” https://burningbird.net/end_once_for_all_myth/

He's a self-proclaimed genius. He's a scam he's a con man just like Trump. Just a house of cards. Look up YouTube videos and you'll see a bunch of propoganda but then you'll also find some videos about all his scams over the years all his projects that didn't amount to s*** that he got money from the government for.

Imagine he is a human tick.

It seems that (in America) the more you lie and exaggerate, the higher you rise.

There is only one man who lies more shamelessly.

X went down not because of Ukraine, but because Elon doesn't know how to maintain his servers. Also a reminder of what he "efficiently" did to Twitter servers in 2023.

You're never prepared for how stupid they look when you encounter one around town. It's like the car equivalent of a school project done the night before it was due.
