Does anyone else remember growing up in the early 90's all the tabloid headlines were about how the "Antichrist" was alive today and would bring about the end of the world?

Well I'm not a religious person but the other day I had this random thought that Elon Musk was the actual Antichrist and I just can't get over it. It keeps making more and more sense to me.

He's the exact opposite of Jesus in every way: he's totally self absorbed, he's untruthful, he blames everyone for his problems, he is unaccountable, he is a sex addict, he steals, he's intolerant of people he does not identify with, he's violent, and he expects others to take the punishment for his sins.

Now that's all just personality stuff but what really got me thinking is how all of these fake neo-con white nationalist Christians have supported him through everything and are calling the news expose's about him a persecution and trying to actually compare him to Christ... It's insanity. But it also kind of makes sense.

If Elon Musk has become the replacement Jesus for the fake Christians then he is, in fact, the Antichrist.

Anyway, this is just something that I think maybe we should start saying out loud and get some real Christians to start saying out loud to to help defeat Elon Musk and make sure he is banished back to hell. Some Priest needs to exterminate him.
