## How Biden, Obama, Newsom, Pelosi and Feinstein Killed America

Here is the punchline: They solicited all of the third world to get them to come to America in such a large surge that it broke America. They did this under the concept of destroying Republicans because they believed that immigrants would not vote for Republicans. They did this because it would benefit the stock market holdings of Biden, Obama, Newsom, Pelosi and Feinstein. They did not care about the Nation. They cared about their private family dynasty cash.

Their scheme resulted in the largest housing crisis in the history of America, the largest crime wave in the history of America, the most accelerated drug crisis in the history of America and other horrors.

Biden, Obama, Newsom, Pelosi and Feinstein owned and financed Tesla but not a single one of their immigrants owns a Tesla. These corrupt politicians have based their lives around crony corruption, payola, and a bubble of 'yes'-men.

New records reveal that then-Vice President Joe Biden and his son Hunter's investment firm Rosemont Seneca exchanged over 1,000 emails during his time as the No. 2 most powerful politician in the world. The latest document dump reveals that there was 'no separation' between Hunter's private business dealings and the 'official business' of the Obama-Biden administration. It also directly contradicts the president's repeated claim over the years that he was never involved with his son's shady business dealings.
