

Nancy Pelosi, Gavin Newsom and Dianne Feinstein Created VOTE-IGRANTS To Rig Elections But Instead It Burned Down Los Angeles

Nancy Pelosi, Gavin Newsom and Dianne Feinstein decided that it would be great to import Mexicans so that they could rig the elections for DNC billionaires. They thought that all Mexicans would vote Democrat.

They spent all of the money, that could have saved LA from the fires, on importing Mexicans.

The Fire Fighters could have had enough staff, the fire hydrants and reservoirs could have had enough pressure, the pumps could have had enough power, the State could have had enough 'Super Scooper' water planes, the insurance programs would have been funded and everything could have been dandy.

Thank you Nancy Pelosi, Gavin Newsom and Dianne Feinstein!
