

THE BACKDOOR IN EVERY DEVICE YOU OWN

A tiny "Arc Processor" sitting within the Intel CPU with it's own custom version of Linux (Minix) operating beyond the software level - completely transparent to the end user.

Does not matter if your using Windows, Linux or Apple iOS...you are toast and THIS is how Israel does it. All part of The Talpiot Program.

No one is safe - no one. AMD has the exact same system - Platform Security System - and that is now totally owned and run by China. The ENTIRE worlds "Cloud Based" Internet system is backdoored by Israel. THIS is a national security disaster. Disaster is spelt D-I-S-A-S-T-E-R. I have copped endless shit for 9 years exposing this.

I have been jailed, beaten, bashed, vilified and threatened with the dreaded "Wood Shed" by Ry Ry Dawson [shivers], but I am still here. And so are you. I have been greeted by high level players. Everyone HATES Israel. Everyone. They just have the key staff in key positions bribed and blackmailed. They have "kill switched" the worlds infrastructure. This is why Netanyahu is soooooooooo cocky and why we never seem to get anywhere. - Brendon O'Connell

HOW ISRAEL HARDWARE BACKDOORED – EVERYTHING

Operation Talpiot is the back door data pipeline from the NSA to Israel.

Everything you communicate electronically is stored and analyzed by Israel.
