## [The FBI's 'abuse of power': Three whistleblowers will lay out how bureau 'inflated domestic extremism' stats and prioritized January 6 defendants over child predators in bombshell hearing](#)

Three FBI officials will testify on alleged 'abuses of power' by FBI leadership during a public whistleblower hearing by the House Select Committee on the Weaponization of the Federal Government Thursday, DailyMail.com has learned exclusively. Rep. Jim Jordan, the top Republican on the House Judiciary Committee and head of the select committee, has secured the in-person testimony of suspended FBI special agents Garret O'Boyle and Steve Friend, as well as former FBI State Operations Specialist Marcus Allen. President of Empower Oversight Tristian Leavitt will also be testifying. The hearing is set to be held at 9 a.m. ET Thursday and will focus on the 'abuses of power' the former officials witnessed and they will be given the opportunity to detail how they have been 'retaliated' against by the FBI, according to a source familiar.

## [DAVID MARCUS: The FBI's anti-Trump Keystone Cops... the CIA's 51 laptop-trashing stooges... the NYT's biased Pulitzer lapdogs: Now we KNOW they're all in the Dems' pockets and it's derailed our democracy](#)

MARCUS: The deranged partisan hacks running America's once-respected institutions are completely, utterly, maybe irredeemably, shameless. What other verdict can one reach after reading Special Counsel John Durham's report on the FBI investigation of President Donald Trump's 2016 campaign? It should never - never in a thousand years - have been launched. And the news media - the supposed independent servants of democracy, who demand that every Republican swear on their children that the 2020 vote was free, fair, and won by Biden - were more than happy to go along with it. But now we know, the real election meddling was state sponsored. The FBI 'failed to uphold their mission of strict fidelity to the law,' wrote Durham. He found that the agency kicked off a full-fledged probe, at the height of an election, into a presidential campaign based on 'raw,' 'unevaluated,' and ultimately, dud information. They ignored exculpatory evidence and were blinded by preconceived notions. At best, they're the Keystone Cops. At worst, they're direct descendants of J. Edgar Hoover. It's damning.

'What have we learned from the Durham Report? That the New York Times and Washington Post were given a Pulitzer Prize for writing a bunch of politically motivated crap,' Lindsey Graham said.

### **The unravelling of The New York Times and Washington Post's Pulitzer Prize-winning stories: Durham's damning indictment of how the mainstream media lapped up tales of Trump's links to Moscow with NO credibility**

A Pulitzer-prize winning report by The New York Times that includes allegations of Russian meddling in US elections has been torn apart by the John Durham (inset) investigation.

### **Washington Post STANDS BY its reporting and says Pulitzer board concluded Trump-Russia stories were NOT 'discredited' - as calls grow for awards to be taken back after Durham's scathing FBI report**

But the DC-based outlet, which is bankrolled by Democrat-donating Amazon billionaire Jeff Bezos, insists it will not give up its National Reporting honor.

### **Jake Tapper's humiliating volte-face: CNN host eats humble pie as he's forced to admit John Durham's report into flawed and biased FBI DOES 'to a degree' exonerate Trump (but that's not what he's always said!)**

Speaking on the network on Monday night, Tapper said that the report had, to a degree, exonerated former President Trump and proved to be devastating for the agency.
