

NETFLIX IS EXTREME ABOUT PUSHING WOKE SOCIAL PROPAGANDA

wokeflix

Netflix, like Google, Facebook and LinkedIn, is mainly staffed and financed by homosexuals. They have an extreme need to push certain agenda issues. Netflix is truly WOKEFLIX!

You won't see any of these facts on the "mainstream" internet or "news" sites. The tech Taliban of the internet have colluded to become an information and ideological control empire. If they can make you think, act and vote like they want then they can put their candidates in office who will give them trillions of dollars of government contracts. It has already worked. They all: sleep with each other; go to each other's parties; hire the same lobbyists, lawyers, Goldman Sachs fund managers; marry and date only people from the same frat houses and sororities; have the same homosexual agenda; finance the same PAC's; hide their money in the same off-shore bolt holes; instruct their HR departments to only hire radical dyed hair hippie-types; have bank accounts that have received CIA or In-Q-Tel cash; control the National Venture Capital

Association so that nobody who competes with them can get funded; practice exclusionary culture, ie: while screaming about women's rights and BLM they never hire women or blacks; own the servers and control equipment that operates 90% of the internet; etc. The Tech Taliban are: Netflix, Google, Alphabet, Youtube, LinkedIn, Amazon, AWS, CNN, Facebook, Survey Monkey, etc.

Is anyone else tired of **Netflix** shows trying to be **woke**?

DISCUSSION. The show has a lot of potential. Apocalypse theme shows/games really grab me. But seriously, all the PC bullshit they try to bring into the shows make it so cringe at moments. **Why** do they have to make it seem they are trying to spread a message in every show? The over the top ...

Jul 18, 2019 **So** much **Netflix** programming is "**woke**" and therefore no fun whatsoever — it's just pious and scolding as opposed to entertaining. And there's way too much gay sex, which makes me extremely uncomfortable. I am now done watching two men get romantic. I just won't watch it anymore. I shut it off.

Apr 16, 2019 If **Netflix** really cares about being "**woke**," maybe it should stop tweeting PC inanities and just commission and promote more diverse projects for diverse audiences.

So will the company attempt to pressure those governments as well or is this another case where **woke** politics stops at the border? The fact that **Netflix's** Sarandos isn't interested in answer questions about it suggests to me he is probably watching the meltdown at the NBA and Blizzard Entertainment and has decided not to volunteer for the ...

The water cooler chats at work are so dull as the only thing people seem to be able to talk about is the latest **Netflix** show and I don't have much to contribute either and don't want to peer pressured into **Netflix** just so I can improve my range of small talk topics.

A summary review of **Netflix** content reveals an obvious fact: There is only one opinion and viewpoint allowed on **Netflix**. Everything is subjected to the extremely rigid, suffocating and oppressive rule of political correctness, "**woke**" activism and radical social engineering that is promoted by the occult elite.

Netflix's "woke" views are getting tiresome I'm starting to find a lot of **Netflix** original shows are trying too hard to be "**woke**" and progressive. I find it insincere, sometimes harmful to message they're trying to portray and most of time, poorly written.

Yes, change at the BBC can seem maddeningly slow, because it **is**. The only way to hasten it is to threaten the licence fee, which one suspects is **why** precisely that is happening now. Ultimately, however, the threat is an empty one, as are the threats to substitute Auntie with **Netflix** or any other streaming service.
